BOILING LAVA MENACES CITIES

REPUBLICAN VICTORY CONTINUES TO GROW

WILL SYMPATHIZES WITH PARSONS WHO HUNT FOR NEW ACT

(Special To The News)

NEW YORK, Nov. 9.—Offers pouring in all day for the purchase of the Democrats. All want the title, but no one wants any of the cast.

I bet preachers are looking for a new act more than I am after election. It will take them months to get their minds back on religion.

Nobody knows yet who is governor in this state. There is a Jewish fellow running, and if he gets it and makes a good governor, for four terms, why the religious issue won't come up again for president 'till 1936.

Smith carried all the Democratic states he didn't go into, and Hoover had a cinch in all the Republican ones he didn't speak in.

I believe a "dumb" candidate could have beat 'em both.

Yours,

WILL.

PA NEWC OBSERVES

There are two days that reporters hate above all others. One of these—and there are many of them—during any year—are days on which it rains. And the other is Saturday. On Saturday nothing happens—and on rainy days nothing happens. One man, a reporter of long standing, has diagnosed the Saturday situation very nicely. "You see," he says, "it is Thursday, then it is Friday, and then it is Saturday afternoon."

But on rainy days, all news sources seem dead. Men visit other men's offices, where they talk of this and that. The chatter Thursday was about politics. Some Democrats with whom Pa Newc is more or less intimately acquainted still cannot realize that Hoover is elected.

From laying the old ear to the ground, Pa Newc has been able to discover another plan, being worked out by one citizen of the community who, he believes, is not fully appreciated, whereby tens of thousands of visitors from the eastern section of the United States will be drawn to New Castle during the summer months. And if it develops, it will be by dint of the man's personality alone.

Workmen at the Neshannock creek bridge are making progress. By the way water is gushing from the pipes at North street, piles are being sunk into the bed of the creek. By his last observations, Pa Newc has not discovered any progress on the work of demolishing the old Rosena furnace dam.

While most of the residents of the city accept it now much as a matter of course, yet Pa Newc, whose residence in New Castle is not so old, is still marveling at the Scottish Rite cathedral and the numerous accommodations which can be found within the structure. Only Tuesday evening a banquet was held there at which time 1300 people were served at one time. And Pa Newc has sat down with over 2,000. Surely New Castle should be proud of the building and the vision of the men who made such a community center a possibility.

Despite all the "knocking" that the Community Chest has received during the last campaign, there are still many staunch defenders of the faith who believe in it; who believe that it is the best and most economical way of raising money for the city's welfare and charity organizations. They are going to see that the campaign deficit is made up. It is the duty of every citizen to help them along; to show them that their faith in their community is not without a base.

Win, lose or draw, the people of New Castle at least, do not seem very much concerned about the 14 amendments to the state constitution which were voted on at the election of November 6. There have been very few telephone calls about them. But, probably it will be several days yet before the definite outcome of the amendment vote will be known.

Pa Newc observes: man with wooden leg who did not use a cane or crutch; number of people sticking nickels in piano that played "Rosy O'Grady"; man holding false teeth in hand and walking up street; man in car hit a

Hoover To Have Lead Of 6,000,000, By Late Returns

Magnitude Of Republican Sweep Is Emphasized As More Returns Come

SOUTHERN VOTE IS AMAZING UPSET

Both Parties Face Reorganization Task In Next Two Years

By GEORGE R. HOLMES
International News Service Staff Correspondent

NEW YORK, Nov. 9.—With the turbulent, breath-taking 1928 election passing into history, and straggling returns continuing to emphasize the magnitude of the Republican sweep, the practical politicians who run things in both parties in between elections began to come out of the storm cellars today and take stock of the future.

There is not much disagreement among the leaders of either party as to what must be done, but there is vast disagreement on how it must be accomplished. And these differences of opinion provide the fuel that will keep the political fires burning until the next general election two years hence.

Republican Victory Amazes

For the Republicans, the task immediately ahead is that of striving to consolidate their amazing gains, particularly in the South and border states, that contributed to their victory in such startling fashion.

The Republicans have broken the solid South and run up majorities in the border states such as few of them believed possible. Oklahoma went 160,000 Republican; Kentucky, 175,000; Missouri, 160,000; little Maryland, 80,000, and son on. Now the job is to hold them.

For the Democrats, the task ahead is equally clear, but tremendously difficult. The Democrats have to reconstruct their party. Their job involves the mending of fences that not only went down in the Hoover gale, but which in some cases were almost completely obliterated.

Democrats Smashed

They lost part of the South, all of the West, all of the border states and most of the East in nearly every case by smashing figures.

The Democratic task is complicated. A survey of editorial comment in southern newspapers reveals that the South already is yelling for the head of John J. Raskob, the "big business" chairman of the party, who was per-

Dairy Sire Train Visits New Castle

Better Dairy Sire Train Exhibit Shown Here Entire Forenoon

MANY FARMERS ATTEND FARM AND SIRE DISPLAY

Train Includes Dairy Sire Exhibit And Display Of Farm Products

This morning scores of Lawrence county dairymen and business men from New Castle filed through the long nine-car Better Dairy Sires special train on the siding at the rear of the P. & L. E. station on East Washington street.

The long train was filled with some 20 pure bred Jersey and Guernsey sires, dairy exhibits from Penn State college and other farm exhibits of dairy supplies, feed and useful accessories to dairymen by the state departments of agriculture, public instruction, animal industry and United States department of agriculture.

Sixty Pure Bred Sires.

At the start of the train some 60 pure bred sires were on the train, eight were purchased in visited towns, eight scrubs were traded in and the sales in dairy communities were such that but 20 sires were left for the exhibition this morning. More are to be added to the train.

At 10:30 o'clock the program of speeches began. Due to the absence of F. L. Rentz, general chairman, N. E. Sampson, committeeman of the local group in charge, gave the welcome

A PROCLAMATION

The following proclamation setting aside Saturday, November 10, as Poppy Day, was issued today by Mayor W. H. Gillespie.

"I, William H. Gillespie, mayor of the City of New Castle, mindful of the sacrifices made by those who have offered their lives in defense of this nation and those institutions of freedom and democracy which we hold dear, and of the great debt of gratitude we owe to those who returned from such conflict broken in body, do hereby proclaim Saturday, November 10, Poppy Day.

"I further call upon the good citizens of this community which poured out its full measure of manhood, its financial resources and the patriotic service of its citizens in the critical days of 1917-18, to hark back to the spirit of those times; to help the disabled veterans, their families, and the orphans of the deceased soldiers by buying American Legion Poppies which will be sold on our streets Saturday by the Senior High School Girls; and to wear those flowers which so fittingly symbolize the acts of those men and women who gave their all.

"WILLIAM H. GILLESPIE, Mayor".

High School Girls Will Sell Poppies Here On Saturday

One hundred girls of the senior high school will be on the streets of New Castle Saturday, November 10, selling poppies. In themselves the poppies are just an artificial red flower, but the spirit back of the flowers and the spirit actuating the girls selling them, gives them a sentiment and a symbolism dear to the heart of every American.

Each year the Perry S. Gaston post 343, American Legion, stages a poppy day drive for the benefit of the relief fund and the sale of the poppies is of a dual benefit. The blooms themselves are made by disabled veterans in hospitals and the purchase of them by the legion posts is a source of revenue for the unfortunate men. The proceeds of the day are used to alleviate need among needy ex-service men.

Tenth Anniversary.

Armistice Day this year is one of unusual interest. It is just ten years ago that the holocaust on the western front ceased. Just ten years ago on Sunday that the guns were stilled. But for many of that army, the war is not yet over, nor will it ever be over until the Great Bugler sounds the Last Assembly. The wounds they

Resigned Recently As Ambassador To England To Seek Senatorship

(International News Service)

WASHINGTON, Nov. 9.—President Coolidge today prevailed upon Alanson B. Houghton, defeated Republican senatorial candidate in New York, to resume his position as American Ambassador to England.

Houghton submitted his resignation to the President when he returned from London to enter the race against Senator Copeland (D) of New York. Copeland outdistanced the Democratic national ticket in New York in defeating Houghton.

Following a half hour's conference today with Mr. Coolidge, Houghton announced he would sail Wednesday on the Leviathan from New York to resume his duties at the Court of St. James.

Believe Vandegrift Is Safe And Well

Investigation by the police in the case of the disappearance of Edward Vandegrift Jr., it was announced at police headquarters today, has developed beyond the shadow of a doubt that Mr. Vandegrift has met with no harm. It is anticipated, the police say, that his family will hear from him in a few days.

Death Toll In Factory Blast Now Eighteen

Four Victims Terribly Burned Die In Hospitals At Lynn, Mass.

PROBE IS STARTED BY STATE OFFICIALS

Dying Workmen Blame Official Of Plant With Causing Disaster

(International News Service)

LYNN, Mass., Nov. 9.—While funerals were being arranged today for the 18 known dead in the fire and explosion horror, a new fire broke out in the ruins of the Preble-Eaton Box Toe company's factory.

Search for other possible victims was halted while firemen with hand extinguishers braved the possibility of chemical fumes being ignited again and causing another tragedy and put out the new fire.

Death toll in the Lynn fire horror continued to mount today.

Four Die In Hospital

Fourteen victims were instantly killed, four others died in hospitals, dismembered parts of another body were found in the street, two men were missing and it was feared that three of the twelve injured in hospitals would not live.

A force of men today began moving tons of concrete debris which once was the factory of the Preble Eaton Box Toe company and which was torn apart by an explosion yesterday.

Probe Is Started

While state and city authorities today continued their rigid investigation, police and other investigators pieced together the terrible story of what happened in the factory. Before dying at Lynn hospital, three victims made statements which coincided. They said they were standing about in the factory waiting to start work when an official entered smoking some said a cigarette, others a cigar. As he passed, the men said, the official flipped the lighted butt of the cigarette or flicked the hot ashes of the cigar into a barrel in which was stored inflammable material used in the manufacture of toe pieces for shoes.

A burst of flame came from the barrel. The three employes said they made a dash for the barrel and that the factory official joined them. The four men, they said, were just about to roll the barrel across the floor when there came an explosion which transferred the factory and the neighboring dwelling houses into an

Seek Slayer In Double Murder

Working on the theory that one of two pretty young women was clubbed to death in a fit of murderous rage and that the other was killed to seal her lips, police of Dallas, Tex., are searching for the slayer of Mrs. Bessie Lynch, left, aged 21, and Mrs. Cleo Lieto, her chum, both employes of a Dallas candy company. The battered bodies of the two girls were found in a corn field three miles from Dallas. Police believe the murderer picked up both girls at a dance and then drove them to a lonely road where the double crime was committed.

Live Wire Kills Ralph E. Payne

Attempting To Insulate Wire When He Came In Contact With Exposed Part

EMPLOYED AT PLANT FOR MANY YEARS

Ralph Edmund Payne, aged 29 years, of 319½ Wallace avenue, was instantly killed while attempting to insulate a wire at the Lehigh Portland Cement Company's plant on the East Side, Thursday afternoon.

The wire which Mr. Payne was attempting to insulate passed around a brass nut, and carried 6,600 volts of electricity. For some reason the switch was not thrown off, the insulation being attempted while the wire was energized. When Mr. Payne accidentally touched an exposed portion of the wire, a short circuit was caused with the result that the 6,600 volts passed through his body.

The city pulmotor was rushed from the police station following the accident, but was of no avail, death having been instantaneous. The portion of the wire which Mr. Payne was attempting to insulate was under a frame, but Mr. Payne had decided to insulate it for further protection in case any one should reach under the frame.

According to information furnished Coroner J. P. Caldwell, Mr. Payne was one of the most careful men about the plant, where he had been employed for many years, as switchboard operator.

Mr. Payne was born in Worth town-

Hoover May Get Rhode Island

Claim Figures Given Out In Several Districts Were Wrong

(International News Service)

PROVIDENCE, R. I., Nov. 9.—This state, counted in the "Al" Smith column, was carried by Herbert Hoover by 2,000 votes, according to a claim today by William C. Pelkey, chairman of the Republican state central committee. He claimed that figures given by wardens in several districts were incorrect.

The state returning board today checked ballots. The Democrats posted two guards in the state house. They will remain there day and night until the returning board concludes its count.

The first count showed Smith a winner in Rhode Island by 1492 votes. Five precincts recounted showed a net gain of 39 votes for Hoover. In the same district United States Senator-elect Herbert had his plurality raised by 59 votes.

Twelfth Night Well Presented

High School Students Perform Creditably In Shakespearean Roles

REPEAT PROGRAM AGAIN TONIGHT

As a rule of general procedure, high school students should never attempt Shakesperian drama. But like plenty of other general rules, there are exceptions and the most recent exception is that of Thursday evening when the students of the New Castle Senior High School presented "Twelfth Night."

If you remember your Shakespeare you'll recall that "Twelfth Night" is the Elizabethean version of the Courtship of Miles Standish, with a lass named Viola impersonating an early John Alden. Viola pleads for the hand of Olivia for her lord, Duke Orsino but Olivia wants nothing else but Viola, who is a girl masqueraded. She has a twin brother Sebastian however who fits into the picture at the proper time, while the Duke goes blotto over Viola when he discovers her sex. Carrying the story along are a number of other characters, more or less comedy, and withal some very good acting, considering the difficult task the youngsters had.

Three Streams Of Metal Converge And Practically Destroy Town Of Carrabba

RIPOSTO, Sicily, Nov. 9.—Driving thousands of homeless before it, and laying waste to uncounted acres of rich farm land in eastern Sicily, the molten flood of lava from the now active Mt. Etna relentlessly swept onward today.

The boiling mass has taken a toll of five lives. Three men who did not leave their homes soon enough as the lava approached Sampuco were engulfed by it. A terror-stricken peasant and his wife at Mascali waited too long in fleeing and also lost their lives.

Three main streams of lava converged at the town of Carrabba last night and almost totally destroyed the town, which had been evacuated hours before.

Leon Toral Is Found Guilty

Leon Toral, Slayer Of Late General Obregon, Is Convicted Of Murder

NUN CONVICTED AS INSTIGATOR

(International News Service)

MEXICO CITY, Nov. 9.—Mexico's most sensational trial was at an end today. After a seven-day trial, a jury sitting in the San Angel district court needed less than an hour to decide that Jose De Leon Toral was guilty of the murder of President-elect Alvaro Obregon and that Mother Superior Maria Concepcion Acevedo y de la Llata was guilty of being the "intellectual author" of the crime.

Immediately after the jury brought in its verdict, Toral was sentenced to death by a firing squad. The mother superior received a sentence of 20 years' imprisonment. The Mexican law does not permit capital punishment for women.

Only about 50 persons were in the courtroom when the sentences were read but outside the building thousands were gathered eagerly waiting for the outcome of the trial. About 400 armed soldiers walked about thru the crowd to prevent disorder.

Defects Are Found On Return Sheets By Return Judges

Election Officials Summoned From Eight Precincts To Make Corrections

Election officials of eight precincts, four in the city and two in Ellwood City, one at Bessemer and one in South New Castle were summoned by Prothonotary R. M. Campbell and the return judges engaged in counting the vote cast at Tuesday's election to make corrections in their returns.

The districts in which defects were found were the first ward, third; second ward, fourth; fifth ward, second, and fifth ward, third, of this city; the second and third precincts of Ellwood City and Bessemer and South New Castle Borough.

The trouble in all the districts was that the election boards, in carrying out the vote for Presidential electors on the tally sheets, had carried the total out for only the first elector on the list, while they should have been carried out for each elector. It was simply a clerical error and did not affect the result, as the tally sheet was marked for each elector. An official from each of the boards came to the courthouse and carried out the totals on their sheets.

Poultry Raisers Have Two Meetings

North Beaver And Neshannock Township Poultry Men Have Meetings

Two meetings of county poultry raisers of Lawrence county took place Thursday. One of these meetings occurred at the farm of F. B. Chapin in Neshannock township, while the other took place on the W. H. Hope farm in North Beaver township.

The meeting at Mr. Chapin's took place in the forenoon and was attended by some 25 poultry raisers. Thursday evening a similar number of farmers met at the Hope farm.

At both of these meetings the poultry raisers were addressed by H. H. Kauffman, poultry extension specialist from Penn State College.

Grand Councillor C. M. Baldwin Of Erie, Will Be Present For The Event

New Castle Council, United Commercial Travelers, at its meeting last night completed plans for a big meeting to be held on the evening of November 22 in the Sons of Union Veterans Hall in the city building.

Invitations have been extended to the councils of Beaver Valley, Butler and Sharon and large delegations are expected from those places. New Castle Council will have a large class ready for initiation at that time.

Grand Councillor C. M. Baldwin of Erie, of the state of Pennsylvania, has accepted an invitation to be present as the guest of honor. There will also be other prominent officers of the organization in attendance.

Speaking of what ever you want to call it, a steward of a local hotel had to call back to the produce company and ascertain whether he had ordered sauer kraut or canned pumpkins. This takes the prize and blue ribbon for the absent minded business man if he could be called such.

This morning quite a few folks from the city journeyed up to see the gentlemen cows at the train and show near West Washington street. It was as good as a fair almost and had quiet a semblance to a traveling show of some sort.

Firemen down at the central fire station on South Jefferson street are chucking gleefully this morning. These are the men who make the poppies and these poppies are the ones which will be sold on the streets on Saturday. Those who buy them are asked to wear them not only on Saturday but on Sunday as well for Sunday is the tenth anniversary of the armistice.

General Chairman R. Loy Boyd and his associate chairmen and committeemen have been working hard for the past three weeks on the plan for the day. James A. Brice has arranged for the transportation of all the poppy girls and the Legion auxiliary will see to their meals in the Legion Home. Saturday the girls will own the Legion Home and only the members who are working on poppy day will be around there. Attorney Clarence A. Patterson is in charge of the arrangements for the poppy girls and a dean from the faculty of the senior high school will be at the Legion Home in direct charge of the girls.

Poppy day this year should be an unusual success. Were the proceeds to be spent for some non-essential it might be different, but because the money will be used for relief work, it is hoped that the citizens of New Castle will display their usual liberality when the poppy girls approach them to buy a poppy.

The girls will be on the streets at 7 o'clock and will sell poppies from then on until dark.

HOOVER TO HAVE LEAD OF 6,000,000, LATE RETURNS SHOW

(Continued From Page One)

sonally selected by Governor Smith to run his campaign. The demand of the party organs for Raskob's head is only a reflection of the opinion of leading southern Democrats.

The full force of this demand is not going to crystallize until the first Monday in December when the lame-duck session of the 70th Congress assembles in Washington, bringing under one roof again all of the divergent political thought of the country.

Blame Raskob

Raskob is being blamed even more than Governor Smith himself for the Democratic holocaust.

Whether "Al" Smith is going to see his friend ousted to appease the demands of the indignant southerners before the appointed time when a defeated national chairman always lays down his office remains to be seen. Governor Smith has a habit of being loyal to his friends and John J. Raskob is one of his closest.

But the Republicans have their problem, too, and their differences as well.

In the progressive Northwest every Republican insurgent, was re-elected and while the House can be controlled in comfort, not so the Senate. There the insurgents will continue to hold the balance of power—and perhaps embarrass the new administration.

Real G. O. P. Problem

But the real problem of the Republican leadership is the manner in which the Republican gains in the South and border states are to be consolidated. Is the Republican party in the South to be lily-white? If so, many of the old organization leaders in those states must be discarded as an inviting gesture to the thousands of "anti-Smith Democrats" who bolted the party of their fathers and made possible the astounding Republican victory.

And if the Republican party is to be made "lily white" in the South, can it be safely done without alienating the great negro vote of the North, which is predominately Republican?

There's going to be a lot of fighting over that during the months immediately ahead.

Both parties have their problems. The Democrats appear to have hit rock bottom, and any movement in the future is bound to be upward. The pendulum swung against them Tuesday just about as far as it could.

In every case in recent years when the Democrats have been annihilated in the Presidential elections it has followed that they bounced back in the off-year congressional elections with tremendous gains. It was true in 1922 following the Harding landslide of 1920, and it was true two years ago following the Coolidge sweep of 1924.

The Democrats find a crumb of comfort in this aspect of the situation.

They find additional comfort in the enormous popular vote that Gov. Smith polled. As one leader put it: "No party that commands the support of 16,000,000 voters can be said to be dead or even dying."

Meanwhile late returns give no indication of upsetting things. The count in Texas and North Carolina is still incomplete today, but Hoover has such leads in both states as to defy overtaking. His margins are small, but safe.

His electoral total remains fixed at 444, as against only 87 for Governor Smith, and his popular total, which won't be final for some days yet, probably will reach between 21,000,000 and 22,000,000, with approximately 6,000,000 less for Governor Smith.

DAIRY SIRE TRAIN VISITS NEW CASTLE

to the city and county people and introduced E. G. Reed, agricultural extension head of the New York Central lines, who explained the purpose of the train.

W. K. Moffatt of the state Chamber of Commerce spoke next on the benefits of better sires and what the use of them would mean to a community.

Mr. Moffatt was followed by E. B. Fitts of Pennsylvania State college, who made the main address of the morning. Mr. Fitts, noted cattle specialist, spoke concerning economical dairy production and why dairymen can afford to purchase better sires.

In this address, Mr. Fitts explained in full some of the factors that the train had in its purpose, stating that if more and better sires would be added to the farms, the milk production would increase many times and the extra expense of a sire would be well worth the cost.

Brief Speaking Program.

Less than an hour was spent in the program of speeches as to give ample time to every one to tour the entire length of the train and view exhibits and examine the sires which were on board.

One of the exhibits, "The Most Expensive Sire in the World," turned out to be a scrub bull who spoke his story via an electrical attachment and a record.

Other exhibits showed cows eating half dollars and dollar bills flowing into the milk pail. Model farms were mapped and designed and diagrams on feeding and other dairy management were included in the various displays.

Representing the city were members of the city council, officers of the Chamber of Commerce and various business men. It is estimated that several hundred farmers and business men from the city attended the speaking program and viewed the cattle and farm exhibits.

At 12 o'clock the exhibit here was concluded and the train left for Beaver Falls where the exhibit will be shown this afternoon. Tomorrow the trip of the sire train is ended at the stop at Elizabeth.

the lead characters and both of them did well. Miss Weingartner has an unusual speaking voice which put her lines out across the lights in splendid shape, while Miss Blaha had a manner of wooing, although it was a vicarious wooing, that won a lot of the audience as well as the lady in question.

Sir Toby Belch (Martin Waldman) Sir Andrew Aguecheer (Walter Richael) and Fabian (Neil Sturdy) might be termed the Three Musketeers of Mirth and they supplied the comedy relief, along with the Clown (George Reynolds). James Smith took the part of Malvollo, one of those lads about whom you are not sure, whether to kiss him or kill him. Jimmy was clever. And of course the comedienne, Hazel Barret had her fling in the part of Maria.

The rest of the parts were not large ones but the young ladies and gentlemen who took them brought a lot to them. Joseph Aiken as Duke Orsino; Peggy Griffith as Valentine, Harriet Wallace as Curio, Edna Jackson as Sebastian, Edgar Thomas as Antonio, Thad Lutz as a sea captain, and Jack Holliday and Claude Crill as sailors did their work well, and to repeat, while it is a difficult task to hand high school students Shakespearean drama, yet under the tutelage of Miss Clara Hartsuff it was surprisingly well done.

Between acts the Girls Glee Club and the Boys Club sang several numbers under the direction of Miss Isabel Zehner. The clubs seem to get better each year, thanks to Miss Zehner's work.

The show will be repeated this evening with Mary Felton as Olivia, Hazel Barrett as Viola, Sylvia Martin as Maria, Otto Pearsall as Sir Toby Belch, Edward Smith as Sebastian and Alice Throop as the Clown.

matically gives the condemned slayer an indefinite stay of execution.

"Hoppe cannot be executed as long as his appeal is pending in the supreme court," Turner held. He had been asked for the opinion by Warden Thomas, after attorneys for Hoppe had informed that such was the case.

Turner also ruled that if the supreme court acts unfavorably it will be under the necessity of setting the new date of execution.

HAPPY OVER "OOMPAH'S" DEFEAT

Two members of the Smith family are extremely happy that their "Oompah" isn't the next president of the United States. They are Arthur and Walter Smith, children of Arthur and Mrs. Smith. They are happy because their grandfather will now be able to spend more time with them.

DEATH TOLL IN FACTORY BLAST NOW EIGHTEEN

(Continued From Page One)

inferno. State explosive experts called it "a vapor explosion".

Human Torches

Men transformed into human torches ran from the building while others fell dead.

The front of the factory was blown into the street and through this issued a great tongue of flame. Vapors from the chemical material stored inside, however, issued from the factory and when this vapor reached the human torches in the street other explosions followed the sheets of flame were sent toward five dwelling houses in the immediate neighborhood.

State officials stated that had it not been possible for the men with blazing clothing to get outside, the fire would have been confined within the building and the death toll would have been much smaller.

Day of Mourning

Tomorrow has been set aside as a general day of mourning in Lynn. Funerals of the eighteen known victims and that of a nineteenth, if the pieces of an arm and chest found in the street are identified as another body, will be held tomorrow from various churches.

The district attorney's office, beginning a probe this forenoon, was advised that some motion picture films were stored near some steampipes in the factory and it was possible that this was a contributing element in the explosion.

State fire Marshal Neal said that an inquest would be held at Lynn fire headquarters within a few days and that witnesses would be summoned.

Meanwhile, Mayor Ralph S. Bauer and members of the city council took steps to see that all light manufacturing plants in the city were removed from residential districts.

MOLTEN LAVA IN SICILY CAUSES DEATH OF FIVE

(Continued From Page One)

working frantically, digging enormous trenches to change the course of the molten streams so that they will head for the sea without hitting the city.

Railway connections between Catania and Messina have been severed. At the outskirts of Carrabba the lava was flowing at the rate of only about 15 yards an hour, but the molten rock was 12 feet high.

It is hoped that geographical conditions will slow down and possibly stop the relentless masses. Scientists, however, make no predictions in the matter. If the lava reaches the Ionian Sea it will be a phenomenon which has not occurred in two centuries.

The lava streams are being fed from 100 open fissures in the volcano. So long as these openings continue to belch forth lava the streams will continue to flow because of the pressure of the new masses erupting from the mountain.

Five Towns Destroyed

Five towns and villages burned up or partially destroyed, four men and one woman dead and 15,000 homeless was the toll today from the eruption. Mascali and Carrabba were destroyed and other towns are being evacuated, however, the flow of molten lava seemed to be decreasing this afternoon.

Ten Miles Long

LONDON, Nov. 9.—The lava torrent from Mt. Etna is now more than 10 miles long and a mile wide and is steadily expanding, said a Central News dispatch from Catania this evening. Contrary to earlier reports, the intensity of the eruption has not abated, the dispatch added.

No Doubt In Many Social Functions

MRS. HERBERT HOOVER

will follow the example of her distinguished predecessor, the beloved Dolly Madison, shown above. For it was the beautiful Dolly Madison that first saw the social resources of the wonderful music, the gleaming brass instruments, and the brilliant uniforms of the UNITED STATES MARINE BAND a century ago. It was to "Madison's March" played by the MARINE BAND that she moved with stately but demure tread down the hall of Long's Hotel, at the first Inaugural Ball ever held. Gowned in a yellow or buff velvet with a Paris turban of the same material, trimmed in bird of Paradise and wearing pearls, this gay bit of femininity serenely conscious of her charm, completely fascinated with her station, bewitched everyone who beheld her.

The New Years receptions, which are still continued and at which the MARINE BAND plays, were introduced by President and Dolly Madison.

Parents should see that their children have the opportunity to hear this famous, historic organization at the matinee at 2:30. 35c for pupils and $1.00 for adults.

ELECTION SHOWS NATION IS DRY

THIS recent national election went far toward settling the immediate status, in national politics, of the question of prohibition.

It is self evident that the American people, while perhaps conceding some abuses have arisen under the existing prohibition system, are willing it shall be changed only by its friends, and not by its enemies, if and when the time for change arrives.

It is unthinkable that either major party again will attempt to go wet, as a policy of outright opposition to prohibition. This country is dry, and it votes dry.

The wets have often speculated on what a national referendum would show, insisting the electorate was not as dry as pictured. Beclouded by other issues although it was, a sort of referendum was given them Tuesday.

They can read the returns as well as anyone else—a few wet cities with a big wet vote, versus an overwhelming preponderance of the country with a bigger dry vote. It is simple arithmetic.

If prohibition is to be modified, it will be modified by the drys, so far as the present political era is concerned. The drys will not let the wets do it.

IT WOULD BE A NOVELTY

LONDON too is launching a campaign against the jay-walker, but she is pursuing a method quite different from that commonly resorted to in countries having more dictatorial police than the proverbially courteous London "bobbies."

Posters and warning signs employed in the London campaign are couched in the words "Please cross here." The reasons for this designation are several. In the first place, England never succumbed as much as did this country to the arbitrary German system of "Verbotens." American laws, ordinances and regulations contain countless prohibitions, so it is natural for such campaigns as those against jay-walking to be waged with "Don'ts" from red signs and redder policemen.

In England they order this otherwise. Their instructions are more in the affirmative and those whose duty it is to enforce those instructions are invariably courteous, to the point that they leave the impression of having conferred a privilege instead of denying a right.

Should the London campaign prove more successful than have similar traffic drives in American cities, it can not be adduced as an argument for the adoption here of British methods. Though a nation so accustomed to being "bawled out" by traffic cops and to "Shalt-nots" might, because of the novelty of the thing, observe to the very letter a campaign conducted on the affirmative plan of the Londoners.

PROTECTING THE BIRDS

CREATING refuges or sanctuaries is proving more effective than legislating against hunting in the preservation of wild birds.

Urbanization of many broad regions is destroying lakes, swamps, streams and forests which are breeding places, havens and feeding grounds of wild fowl. The sweep of a forest fire, the draining of a lake and consequent loss of shelter for game destroy more birds than the unethical hunter and predatory animals.

If gaps made in the flocks of game birds every hunting season are to be filled up during the breeding season man must see to it that adequate breeding grounds are preserved or, if destroyed, restored or supplanted by new ones.

Wherever conditions are adapted to their requirements wild creatures will be found. Destroy their refuge and they will not return until it has been restored. Restore an old sanctuary and birds and other game will return as if by the call of some supernatural voice.

All know how easily one can attract wild birds to town yard or country garden by providing food, drink and protection regularly. They are quick to learn where they are wanted and just as instinctively know where they are unwanted.

What the nature lover can do in a small way in attracting birds and small game to his doorstep and arbor, can be accomplished in a large way by the creation of large sanctuaries.

In Comes Hoover.
With Wall St. Fireworks.
Prohibition and Cotton.
We Eat Too Little Sugar.

By ARTHUR G. BRISBANE (Copyright, 1928, by N. Y. American, Inc.)

Hoover is like George Washington, because Washington was an engineer. Like George Washington, Hoover is a man financially well off, not by any means as rich for our day as Washington was for his day, but independently rich.

Hoover was able to earn $50,000 a year as engineer before he was 30. He is not a spendthrift and has as much money as he needs. But he has not, and never will have, as much glory as he wants, which is a good thing for the people.

His wealth is of the kind of wealth that this country admires. Every dollar that he owns represents thousands made for others, many thousands added to productive wealth.

It was suggested here some time ago that after the election you would see fireworks in Wall Street. They started Wednesday, in what financial writers called "a Hoover market". Stock tables with plus signs attached tell what happened.

Oil stocks were especially cheerful. Herbert Hoover is an engineer, knows the importance of conserving natural resources, and may suggest ways to prevent oil waste, establishing coordination and wise marketing.

Don't sell good oil stock. Don't buy any bad ones offered by mail, or house-to-house canvassers, and don't gamble.

The "solid south" is broken for the first time since reconstruction days.

And Herbert Hoover, in whose honor it was broken, among dozens of other problems, undoubtedly will take up the cotton and textile problems energetically.

When the "Hoover market" opened Wednesday, cotton "slipped".

Florida, Texas and other southern states will look to Hoover for some cotton ideas, and will not be disappointed.

The Republican party is expected to gain eight seats in the senate, but it is not probable that Hoover will need them to carry out his plans.

With such a vote as his, congressmen will understand that the people want Hoover ideas carried out thoroughly.

This country will wonder what, if anything, Herbert Hoover will do about prohibition, which he describes as a "noble experiment."

Engineers believe in experiments, but do not continue them indefinitely, if they prove unsuccessful.

Nothing probably will be done about Volstead, until Hoover decides as to the success or non-success of that noble experiment.

The Democrats and Governor Smith, their leader, and his supporters, need not be ashamed of the vote piled up, about 18,000,000.

It is double the biggest vote ever given any Democratic candidate for president before. And it is 1,500,000 higher than the biggest vote ever given to a Republican candidate, Harding, who got 16,551,200 votes.

Governor Smith's hearty congratulations to Hoover express the right American feeling.

The thing now is for all Americans to get together and show Europe, Asia and Africa what the word prosperity really means.

This country, once the great sugar consuming nation of the world, now eats less sugar than it needs, a great deal less, as shown in investigation ordered by Earl D. Babst, head of the American Sugar Refining Co.

Sugar is necessary to health. Nations insufficiently supplied with sugar, as was shown in the big war, are nations partly starved.

Australia uses per capita 18 pounds of sugar more than the United States, and New Zealand used 15 pounds per year more than the United States.

This is due in part to the folly of women trying to get thin, told by ignorant specialists "sugar will make you fat."

Sugar will not make you fat. On the contrary, it will supply heat, and burn up waste tissue.

Children especially need sugar, and growing girls and boys need candy.

Sugar, considering its value to the body, is by far the cheapest food known to man.

And now especially, under prohibition, with many no longer getting from alcohol the carbohydrates formerly consumed, the national consumption should be restored to the old ratio.

Rothstein, the gambler, who "would

Hints and Dints

Sun sets tonight 4:48. Sun rises tomorrow 6:42.

An inquirer wants to know who is the leading Democrat in Lawrence county. We don't know who even the leading Republican is now.

In the old days when real Republicans were in charge of the party after a great Republican victory had occurred there would be a great jollification and some local orator, and we sure had good ones, would make speeches and there would be great enthusiasm. Nothing like that any more now. Once in a while the Democrats hold a jollification.

Too often there isn't much love lost between the father and mother the kids are taught to honor.

Glare: Brilliant light; also the look a woman gives you if you pull out too slowly when she toots to pass.

There is talk among a lot of Republicans now who are not in the party for personal gain, office or ten dollars at an election for "faithful service" to get the party back on the basis where some respect will be shown it by the voters. After an election like that of this week everybody should be a good Republican and never think of voting any other ticket and seeing to it that good candidates are brought out for office. If you let bosses set up candidates you are sure to get crooks.

There will be seven women in the next Congress, three more having been elected at the past election. We are sure Congress will see a great improvement with the women there to help carry on the work of the government.

IF A CONSCIENCE IS SAYING ANYTHING AT ALL, IT HURTS

When a man says his conscience is clear in the matter and he has nothing to regret, he is lying or fooling himself.

A man whose conscience is clear doesn't mention it. He doesn't think about it. The virtuous woman doesn't boast of her virtue, nor does an honorable man boast of his honor.

These things are like gentility. If you have it, you never think about it. If you haven't, all of your thinking avails nothing. And the fact that you think about it is proof that you haven't it.

An honest man accustomed to dealing with honest men never thinks of honesty. To him it is normal, like the coming of day, and calls for no more discussion.

The man whose conscience is clear is like the man whose digestion is good. He doesn't know it is there. He gives it no thought.

If a man is aware of having a conscience he has a troubled one. He isn't aware of having a stomach until it aches.

Every time we see a man and woman employed in The News office looking sweetly at each other, whispering during working hours and being seen together some in the evenings, we always figure on losing the woman through the matrimonial route.

As a precautionary measure when the word "obey" is stricken from the marriage ceremony, it might be well to stick in the word "arbitrate".

THAT'S REAL GRIEF.

Life may seem like a total loss

But most pathetic of 'em all's

We have noticed news items telling of women having special dresses and wraps made in which to go to the polls and vote on election day. This makes more business for those who make and sell women's clothes. It's getting so that people have to have different kinds of clothes for everything they do—but not much cloth in them.

We are always more or less sorry for some defeated candidates. Of course once in a while we really rejoice in the defeat of some and might help to bring that about, but one cannot fully appreciate the feeling of being a defeated candidate without being one. We know.

Dr. Crane's Editorial

FOR THE PROTECTION OF MAN

In former times a man had some protection against the wiles of a designing female who intended to trap him into matrimony.

A law was passed by the Parliament of Paris in 1770 to this effect:

"Whoever attracts into the bond of marriage any male subject of His Majesty by means of rouge or powder, perfumes, false teeth, false hair, steeled corsets, hooped petticoats, high heels or false hips, will be prosecuted for sorcery, and if convicted the marriage shall be declared null and void."

This law is still on the statute books and will stay there until some male tries to take advantage of it to escape from the unwelcome bonds of matrimony.

There is nothing said about deception on the other hand—about a man's deceiving a woman. But if marriage is in substance a civil contract the use of fraud in obtaining this contract ought to invalidate it.

What is a person to do when he is deceived into so important a step as matrimony? Many an unhappy wife or husband is seeking for means of escape from their unwelcome obligations. To compel the innocent victim to continue a relation which is undesirable is hardly protecting the rights of all concerned.

The only way, it seems, is to be extremely careful before entering into a contract which is so serious.

Undoubtedly as much harm is done by compelling a person to live in undesirable relations as is accomplished by the frequency of divorce, although every effort should be made to prevent divorce for trivial reasons.

Presidential Board Action On Rail Wages Is Commended

Findings Of First Body Of Sort Under Present Law Arouse New Interest In Labor Contest Which Is Long Drawn Out

Commendation is given to the findings of the first presidential board appointed under the present railroad labor act to settle a dispute. Its verdict that certain alternatives should be offered to the companies and to the brotherhoods is viewed as probably leading the way to a settlement. Acceptance by the interests arrayed in the controversy, however, is not compulsory. The roads represented are in the west and have 55,000 to 70,000 workers involved in the negotiations.

The opinion of the BINGHAMTON PRESS is summed up in the statement: "It is in the last degree improbable that the two brotherhoods will reject the findings of a board which has so fully and open-mindedly considered their contentions. That the carriers should reject it is, of course, unthinkable." The Press points out that "under the law the men are not obliged to accept the ruling of a presidential board, that body having no means of enforcing its decision," and reviewing the decision says: "One concession, and one of considerable moment, is made in the award. That is to make the increased pay, on either of the two propositions, retroactive to the beginning of the controversy in May last. Since the men at large are probably not responsible for the needless delay in obtaining relief, this is perhaps a just consideration, though it will bear more heavily on the carriers."

Emphasizing the fact that the present commission is "puzzled by the failure of the parties to the controversy to settle it by direct negotiations," the CHICAGO DAILY NEWS concludes that "the fact-finding board by its plain-spoken report has made morally impossible a suspension of transportation throughout the west as a result of the existing controversy." The Daily News argues: "Public opinion, which indirectly settles many questions, should take note of the statement of the board that the difference between the final offer of the western railroads and the real demands of the men 'amounts to from five to seven cents a day' and that this difference is 'too small to justify an interruption of transportation.' Can any rational person demur to this pertinent observation?"

"The award," according to the LOUISVILLE COURIER-JOURNAL, "virtually upheld the decision of the Board of Mediation and recommended that the workers should accept one of three propositions made by that board—a wage increase of 6½ per cent with no change in working rules, an increase of 7½ per cent and elimination of the union rule against 'double-headers', or a 7½ per cent increase and submission of a number of working rules to arbitration. The presidential board suggests the Interstate Commerce Commission as a proper body to act upon these technical matters. * * * The carriers desire to use their machinery of transportation to its utmost capacity, for which they cannot be blamed. * * * The third plan outlined, calling for further arbitration, was agreed to by the railroads and the brotherhoods, but was rejected by the chairmen of brotherhood local committees. Perhaps they have changed their minds."

"The report cannot be regarded with any large degree of optimism," is the adverse opinion of the PROVIDENCE JOURNAL, which asserts that "it follows the lines of least resistance," and contends that "inasmuch as the employes have insisted upon the retention of the rules in question ever since the controversy started months ago, and have agitated this phase of the dispute at times almost to the exclusion of the wage issue, it will be surprising if they do not accept the alternative that if the rules are not abrogated, the managements are requested to raise wages by only 6½ per cent." The Journal advises as to the position of the executives: "In one of the most prosperous periods in our history, generally speaking, the carriers, with all their improved facilities, have not been able to earn a net income comparable to the earnings of industrial corporations that have spent neither time nor money in any equivalent degree."

The point that "precisely the same alternatives are offered the western railroad conductors and trainmen that could have been had at any time during the past three months" is emphasized by the NEWARK EVENING NEWS, which refers to the 30 days within which the parties to the dispute may give their decisions, and concludes as to the time allowed: "Before it has elapsed, it is to be hoped and expected that common sense and good judgment will displace the attitude which resulted in a strike vote being taken in August, although its exact result has not yet been publicly recorded."

President Coolidge's expression of confidence that when the conclusions are studied by the parties at interest, a satisfactory adjustment of the controversy will result" is quoted by the CHARLOTTE OBSERVER, with the comment that "an eventuality of this kind would cause the country to rejoice." That paper also give attention to the fact that each of the propositions offered "includes continuation of the existing differentials for mountain and other special service, and addition of the requested increase to baggagemen for mail, express and dynamo service."

The possibility of "a severance of all relations" is viewed as a matter of concern by the ST. JOSEPH NEWS with the assertion that "an amicable adjustment is highly desirable, else there may be something consequential to worry about." The News-Press agrees with the assumption that "the report of the board leaves the situation about where it was."

Serious possibilities are discussed by the INDIANAPOLIS NEWS, with the judgment that "whether a crisis is averted depends primarily on the fashion in which the opposing groups choose to deal with the emergency board's findings." That paper states that the theory of this legislation "is that with all the dominant factors investigated and made familiar to the people—and to the parties to controversy—a crystallization of sentiment will appear in sufficient degree to insure a peaceful solution."

Criticising the provisions, the BALTIMORE SUN argues: "The fact that a compromise may be reached is not complete proof that the law works equitably from the standpoint of the public. It is interested in prevention of strikes, but it is also interested in knowing whether strikes are averted by imposition of unreasonable burdens on traffic."

The World AND THE Mud Puddles

NOT A COOK TOUR.

An ancient sea chest which once belonged to Captain Cook made its appearance in a London salesroom recently. Although it dates from the early Eighteenth Century and is much battered and travel stained, it is a stout old relic, owing to its preservation partly to its covering of leather thickly studded with brass-headed nails.

In addition to containing at one time the most personal of Cook's belongings, it would in all probability have accommodated the records of observation by which he contributed so much valuable knowledge to navigation, geography and astronomy.

The chest was given by Captain Cook to his friend, Joseph Bilcliffe of Usselby, Lincolnshire, shortly after the explorer's return in 1775, from one of his voyages to the antipodes, and later passed into the hands of Sir W. H. Elliott, whose father, Captain John Elliott, accompanied Cook on several voyages.

TO OWN A HOME

To own a home and all that's in it,
Here is man's dream for every minute.

Four walls aglow with love and laughter:
Here is the goal which all are after.

To own a home enriched with beauty:
Here is the joy which lightens duty.

A little garden, watched and tended,
An arm chair when the days are ended.

A patch of lawn the dew caresses,
These are the treasures man possesses.

These are the source of all his dreaming,
The rich fulfillment of his scheming.

World over man goes out to labor
To own a home and play the neighbor.

Happy the hearts who look at flowers
And proudly say: "These joys are ours."

Baseball's Biggest Trade

In what is regarded as the biggest baseball deal in history Rogers Hornsby baseball's most traded player goes to the Chicago Cubs. In addition to five players the Braves according to reports received enough cash to pay their current bills and a mortgage on the park.

The Wrigley fortune that chewing gum made will not be spared, it appears in the effort of the owners of the Cubs to win a pennant. A year ago it was Kiki Cuyler, most valuable player of the year before, who was added to the Cubs roster as insurance against the pennat flying in any other city but Chicago. But that calculation somehow went astray and Hornsby generally admitted to be the star of the entire National league is now acquired. Failing in their attempt to land the pennant in 1929 the Cubs will probably buy Ruth and Gehrig.

Already the National league stage is being set for another close fight next year. No fewer than four clubs should figure prominently in the campaign from the beginning and now that Sunday baseball has been authorized by popular vote in Massachusetts the Braves hope to increase their strength and again become a factor in league affairs. Even the lowly Phillies have acquired a crop of young players in the past year and expect to get somewhere.

Thus far since the close of the playing season the National league has held the center of the baseball stage. While the various clubs in that organization are clearly looking ahead American League affairs seem to be at a standstill. Cleveland and several other American League cities would read with satisfaction of some important player deals calculated to create more nearly equal competitive conditions in the younger baseball organizations next year.—Cleveland Plain Dealer

Pig Iron Prices Soar; Steel Market Is Strong

The Iron Age in its weekly summary of the iron and steel trade today will say:

With prices swinging upward, the pig iron market shows vitality suggestive of boom conditions. The finished steel market is also strong with an advance of $2 to $3 a ton on sheets an early probability, but mill backlogs continue to taper, following exceptionally heavy shipments in the past month.

Unfilled tonnage, however, has been reduced so little that production is not materially affected, and fresh demands springing up from the railroads and other sources are of promising size.

The one index that seems to point to a less active market situation is scrap. Heavy melting steel at Pittsburg has declined 25c a ton for the second time in two weeks, and at Philadelphia it has dropped 50c a ton.

With the large shipments of finished steel in October, it will be surprising if ingot statistics for that month do no show an output at least equal to the tonnage for March, the previous high month of the year. November steel production points to a gradual recession, activity now ranging from 85 to 90 per cent. The average for Steel Corporation plants has declined to 85 per cent, partly because of the shutting down of the Gary rail mills, bringing the rate of the Chicago subsidiary down to 75 per cent.

That the setback in the Chicago district is only temporary is indicated by sales of the week, which were the highest so far this year and with one exception the largest in three years. Orders for 185,000 tons of rails formed an important part of the total. Rail bookings for the country exceeded 290,000 tons, of which the New York Central accounted for 191,550 tons—70 per cent for immediate specification and the remainder on option. Other orders included 48,000 tons placed by the St. Paul and 5000 tons purchased by the Monon.

Pending railroad equipment business, swelled by a Wabash inquiry for 2000 box cars, now calls for a total of nearly 10,000 cars, requiring 140,000 tons of steel. The Santa Fe is expected to enter the market for 6000 cars and the Illinois Central for 2500.

Demand for steel from the automobile industry has declined from its recent peak, but heavy buying is expected to set in again by December 1. Meanwhile, Ford output has increased to 6000 cars a day, and the Chevrolet company has released steel specifications for 125,000 cars of its new model, on which production will start shortly.

Line pipe business, which has been an important tonnage item this year, promises to make further heavy drafts on the mills. Figures are being taken on a gas line from Louisiana to St. Louis, calling for 115,000 tons, and another from Louisiana to Birmingham, requiring 40,000 tons. Gas lines in prospect, but not definitely before the trade, include one for the Texas Corporation from Tulsa, Okla., to Lockport, Ill., involving 60,000 tons, and a 350-mile line for the Western Natural Gas Co. from Wyoming to Salt Lake City.

Pig iron prices have advanced 50c a ton at Chicago for the second time in two weeks, and equal increases have been registered at Cleveland and St. Louis. Prices for foundry and malleable pig iron at Cleveland are now $2 to $2.50 a ton higher than in midsummer.

Despite the pressing demand for pig iron, complete blast furnace returns for October show a loss of three active merchant stacks during the month. This was canceled by a net gain of three steel works furnaces the total number of active stacks November 1, at 197, being exactly the same as on October 1. The average operating rate, however, increased from 106,755 tons on October 1 to 108,800 tons a day on November 1.

Marine Band Will Present Excellent Matinee Program

Nine Excellent Numbers On Program For Benefit Of School Pupils

The program for the Marine band matinee in The Cathedral on next Monday afternoon has been received and from its contents it is obvious that Captain Branson and his men are going to give the students who are fortunate enough to hear the program, an afternoon that they will not soon forget. There are nine excellent numbers on the scheduled program and Captain Branson promises that if the students like the band—and who wouldn't like the famous "President's Own"—that there will be as many more encores. The overture to the immortal opera "The Flying Dutchman" by Richard Wagner opens the program and the Marine band knows well how to interpret that great master of the music-drama. Several years ago, on their last visit to New Castle, when they played the "Tannhauser" overture by Wagner, people in the rear of the Franklin junior high school auditorium, which had just been completed, were heard to say "that one number was worth the price of admission."

The second number on the matinee program is by Arthur S. Whitcomb, first assistant conductor of the band and the solo cornetist. Mr. Whitcomb will play "The Secret" Polka Brilliante by John Hazel. Next comes our own Victor Herbert's "Al Fresco" followed by Wilbur D. Kieffer's xylophone interpretation of Anton Rubenstein's "Valse Caprice". The last number before the intermission is the Suite "Neapolitan Scenes" by Jules Massenet.

The first number after intermission, "Northern Rhapsody" by Lucius Hosmer, will probably be one of the most popular numbers of the afternoon. In this clever number Hosmer has introduced some of the most popular country dances of old New England, has weaved an original treatment of "Home Sweet Home" and has concluded with a three counter melody treatment in which "Yankee Doodle" is the basis.

It is not often that you find two brothers in the same band, both playing slide trombones and both nationally known soloists, but in the seventh number the students will hear Arthur Pryor's "Thoughts of Love", a trombone solo by Hervey J. Clark, younger brother of the famous Robert E. Clark who will play at the evening performance. No. 8 is Lake's "Parade of the Gendarmes" and Meyerbeyer's "Torchlight Dance" closes the program.

This program is a compliment to the cultural abilities, musically speaking, of the New Castle and Lawrence county students for it contains a high type of music which will be interspersed with encores of a more popular nature. Parents should instruct the younger children on how to behave at such a program and the older students should conduct themselves according to past reputation for it will be remembered that Henri Verbrugghen, conductor of the Minneapolis orchestra, voluntarily announced from The Cathedral stage during a concert two years ago that the New Castle students were the best audience to which he had ever played. In conclusion, The News urges that every student that goes to The Cathedral on Monday afternoon to show due respect to his or her great country, and incidentally for the great United States Marine band on the stage, by standing at "attention" during the playing of the Star Spangled Banner at the close of the concert.

Hoover Dispatches Message To Iowans Through Governor

(International News Service)

PALO ALTO, Cal., Nov. 9. — Herbert Hoover Thursday sent the following telegram to Governor John Hammill of Iowa, who is master of ceremonies at the victory celebration in West Branch, Iowa, birthplace of the president-elect.

"Will you convey my greeting to the people of West Branch and the State of Iowa. I am grateful for the support which my own state has given to the cause of the party and for the neighborly honor which they have rendered me."

Slayer On Stand Accuses Witness Of Actual Murder

(International News Service)

LINCOLN, Ill., Nov. 9.—Clarence Minnick of Atlanta, on trial here as the slayer of Ephraim Vannoy, aged Logan county farmer, taking the witness stand in his own defense Thursday, startled the courtroom when he accused the state's star witness, Jefferson Booker of Lincoln, as the man who did the shooting.

Booker, with Minnick the night of the shooting, declared the man on trial shot Vannoy in the course of a robbery. Minnick accused Booker of slaying the farmer when he resisted an attempt to rob him.

ALL $22.50

Made in the Richman Factories—Sold Direct to You Without a Middleman's Profit

You Pay Only One Price at Richman's—$22.50 for Any Suit, Overcoat or Tuxedo Suit You Choose

LOW PRICE is the only thing Richman's Clothes have in common with other clothes made to sell at, or near, $22.50. Aside from this, they are in a class of their own. The world's largest direct-from-factory sales and production command the artistry and skill of the best designing and manufacturing talent in the country. The cash purchase of over 4,000,000 yards of cloth, yearly, procures the finest weaves of mills noted for the quality of their fabrics. And Richman workers, who own a $6,000,000.00 interest in this business, are famed far and wide for their efficiency and conscientious workmanship. That's why the superiority of Richman's Clothes is so readily apparent to men who appreciate authentic style, rich materials and fine tailoring.

Overcoats

The greatest showing of overcoats we have been able to offer in our half century of good clothes making—greatest in variety, quality and value.

Box, Ulster, Chesterfield, Raglan and Trench models—Dress coats with velvet collars—so great a variety of new weaves, patterns, shades and mixtures that any man will readily find what he likes in his correct size.

Suits

Hundreds to choose from in every size and model—single and double-breasted suits—peak or notch lapels—worsteds, cassimeres, twists and cheviots in all the new patterns and fashionable shades of gray, brown and blue. You'll see everything that's new, and nothing that is not new. Values that will amaze the man who thinks quality must carry a high price.

Senator Curtis Warmly Greeted To Washington

Vice President-Elect Reaches Washington And Gets Fine Welcome

(International News Service)

WASHINGTON, Nov. 9.—Tired, but happy and smiling, Senator Curtis of Kansas, vice president-elect, came back to familiar scenes Thursday to receive the plaudits of friends and admirers over his election.

He was the center of an impromptu reception in his office in the Senate office building. Friends crowded about him. A sheaf of telegrams three feet high was piled on his desk. He glanced hurriedly through them and said he would answer every one.

Senator Curtis did not amplify his statement of yesterday when he told how happy he was over the success of the Republican ticket.

A woman, Miss Lola Williams, probably will be the new vice president's secretary. She has served him in the senate and was active in the campaign.

Police Captain In Philadelphia Fired

(International News Service)

PHILADELPHIA, Nov. 9.—Captain Charles Levy was dismissed Thursday by the civil service commission, local police trial board, on charges filed by the special "racket" jury alleging Levy was "unfit to hold any public office."

He is the 14th of the 21 police officials placed on trial before the board to be "fired."

Report Election Difficulties In State Of Texas

(International News Service)

SAN ANTONIO, Texas, Nov. 9. — Excitement is raging in Hidalgo county over the result of Tuesday election, according to reports received here from Edinburg. Telegrams have been sent to Governor Dan Moody requesting that martial law be invoked in the county in order to secure a fair count of the ballots cast Tuesday, it was reported.

The Mercedes ballot box is locked in the courthouse at Edinburg for safekeeping, and Ranger Captain Frank Hamer is reported guarding the election judges at Mercedes.

Candidates on the Citizens Republican ticket, whose names were barred from the official ballot, claim they have a lead of approximately 1200 votes over the Democratic incumbents in the county offices. They are charging that the election officials are failing to deliver a final count of the ballots.

No Telephone Girls Nor Police Wanted

HODGES, S. C., Nov. 9.—Twelve stores, two hotels, a bank and three churches but not a single telephone or a policeman, is the boast of this South Carolina town of several hundred population. Residents declare with satisfaction that the town has not been patrolled for law-breakers for 12 years.

There are plenty of radios and automobiles in Hodges and a little more than 12 years ago, citizens say, there were about 30 telephones in the community. The exchange was discontinued, however, and since then the town has been without telephones.

"Strangers miss them worse than we do," citizens declare.

Allege Indiana Votes Illegal

(International News Service)

INDIANAPOLIS, Ind., Nov. 9. — Reports of alleged election irregularities in Lake, Tippecanoe and Vanderburgh counties were received at a conference here Thursday between R. Earl Peters, Democratic state chairman, Frank C. Dailey, defeated Democratic gubernatorial candidate, Albert Stump, defeated senatorial aspirant, and other Democratic leaders.

The reports alleged that 20,000 to 30,000 "floaters" were imported to Lake county from Chicago to swell the ranks of Republican voters there and that 3,000 or more students of Purdue University voted illegally.

Better Sires Train Makes Two Stops In Mercer County Towns

Halts At Sandy Lake And Greenville Thursday Morning And Afternoon

MERCER, Pa., Nov. 9.—The better sires dairy train of the New York Central railroad, working in co-operation with the U. S. Department of Agriculture and State College, made two stops in Mercer county Thursday.

The train was at Sandy Lake from 8:30 a. m. to noon and at Greenville from 1:30 p. m. to five p. m.

The plan of the railroad company is perhaps the most unique of any ever offered as a benefit to the public by a corporation.

They offer the buying of dairy breed bulls of the best known lineage at prices that are not only low, but they will take old sires in trade and make easy payments possible.

In both towns civic organizations are assisting farmers in making these purchases.

Rev. Haverfield To Give Address In Reformed Church

Rev. Ross M. Haverfield, pastor of Westfield Presbyterian church, will speak in the Reformed Presbyterian church, corner of Oak and Pine streets, Sabbath evening at 7:45.

The meeting is conducted under the auspices of the Lawrence County Christian Endeavor Union. The meeting will be in charge of the Christian Endeavor Society of the church.

In connection with the address given by Rev. Haverfield an attractive program has been arranged. Societies of other churches are invited to attend.

not tell who killed him," is buried in a $10,000 bronze coffin.

A man from Chicago who knows gamblers, gunmen and criminals, generally, says: "Don't take too seriously the yarn that the underworld never squeals.

"The underworld is made up largely of squealers, 'stool pigeons' the police call them, always ready to betray their fellows. Detectives make it a point not to betray the 'stool pigeon' or tell where they get information. That, incidentally, makes them seem like a great detective, when all they do is to arrest somebody betrayed by a friend."

A sympathetic newspaper headline writer speaks of the "overburdened ether" carrying election news to 30,000,000 radio listeners.

That writer forgets the old true statement that legions of angels could dance on the point of a needle, if they were angels of the right size.

The ether wouldn't be overburdened with messages if they were sent to a trillion places at once, or ten times that.

We forget human beings are gigantic creatures. The unit of size is the electron.

Ten million angels the size of an atom, made up of electrons revolving around a central proton billions of times in a second, could be located in one corner of your eye and you wouldn't know it.

Man is a big thing. His imagination is not.

Alaska Is New Scenic Goal Of Future Tourist

By JOHN RANDOLPH
International News Service Staff Correspondent

WASHINGTON, Nov. 9. — A new American scenic paradise has been discovered in Alaska, according to the National Geographic Society.

This Eden of natural wonders is the Mount Pavlof region of the Alaska Peninsula, from which Geographic Society expedition, headed by Dr. Thomas A. Jaggar, has just returned, and the wonders of which Jaggar declares, rival those of the "Valley of Ten Thousand Smokes," also in Alaska.

During the summer exploration, Jaggar's telegraphic report to the society says, the expedition discovered gigantic volcano cones, a lake country of enormous extent and great beauty, and teeming game preserves which had never before been explored.

Big Hidden Lake

The expedition sailed through Pavlof Bay to Canoe Bay, an unexplored, landlocked body of water described by Jaggar as a "baby Mediterranean." The party proceeded north from there to the Bearing Sea and west to Port Moller, mapping the territory. Here they found hundreds of lakes scattered through barren and treeless plains crossed by low ridges.

Old maps of the area were found to be almost useless. Mountains and bays were misplaced and six lakes shown near Nelson's Lagoon turned out to be no less than 500 small lakes and ponds. Otter Bay, it was found, is really a valley.

Though often proceeding through the most barren country and hindered by arctic storms, the expedition also found valleys of riotous beauty, covered with a vivid profusion of arctic flowers.

The expedition encamped on Canoe Bay, where Jaggar employed a specially constructed steel amphibian boat to explore hundreds of miles of shore line. Its enclosed body and watertight compartments made it suitable for traveling on both land and water, and at night Jaggar used it as a sleeping cabin. It could run safely ashore through surf and proceed across a headland to the water beyond.

Wonderful Scenery

Near his camp on Canoe Bay were the Aghileen Pinnacles, which Jaggar describes as "something unbelievable, so fantastic, so marvelous in sculpture, so delicate in outline that nothing in scenery elsewhere remotely resembles it. Jutting black minarets, spires, columns in clusters, towers, domes, snowdrifts in the crannies. Individual steeples rise from the great square tower in the middle of the cathedral mass so slender, so utterly straight sided, like the Campanile, only thinner, that it seems incedible they do not fall with the first breath of wind. Yet they have stood for centuries of Arctic gales from the Bering Sea."

Americans Surprise German Bar Tenders

Tourists Order Only Iced Water To Drink With Their Meals

(International News Service)

BERLIN, Nov. 9.—There is disappointment among the barkeeps of Germany. The horrors of American prohibition are becoming noticeable in Germany as well.

No longer do the American tourists plunge wild-eyed into the bars demanding a quick drink.

On the contrary, most of them drink ice water with their meals. A few may order a cocktail, but most of them stick to non-alcoholic drinks.

They do not even order mineral water, which is the only respectable table water in Europe. They ask for plain water, and the first question of many tourists arriving at a hotel is: "Is your water good?"

Apparently, say the German hotel managers, the American tourists now coming to Germany are of the solid bourgeois class which is careful with its money.

Even a good party man may at times regret that his party's lies aren't as convincing as the other sides.

Find Duplicate Of Liberty Bell

Exact Replica Of America's Bell Is Found In Carpathian Hills

(International News Service)

LONDON, Nov. 9.—An exact replica of the American Liberty Bell in Independence Hall, Philadelphia has been discovered in Uzhored capital of Carpathian, Russia, according to dispatches from Prague.

The discovery was made by Edward T. Heyn, formerly American vice-consul in Reichenberg.

Called the Liberty Bell of Czechoslovakia it has long been sought by Czechoslovak officials. It was cast in the United States and brought over for the signing of the last Czechoslovak declaration of Independence at which time it was rung by the school children. For a time it was kept in government house in Prague but mysteriously disappeared several years ago.

Acting on a hint from a lumber dealer Mr. Heyn accompanied by Anthony Ambrose president of the Slovak-American bank for Czechoslovakia went to Uzhord and found the bell buried in a wooden framework in the court yard of the government house. It was covered with dust and chickens were roosting on its edges

It is now being brought back to Prague in state under a military escort.

Crude Oil Prices Are Given Boost

(International News Service)

PITTSBURGH, Nov. 9.—Increases of 15 cents each per barrel in six different grades of crude oil were announced today by the Joseph Seep agency, purchasers for Standard Oil.

New prices are:

New York Transit, $3.60.
Bradford District, $3.60.
National Transit, $3.50.
Southwest, Pa., Lines, $3.50.
Eureka Lines, $3.40.
Buckeye Lines, $3.25.
All other prices remained the same.

Soviet Settlers Doomed To Death

Fifty On Wrangel Island Face Certain Death From Disease

(International News Service)

MOSCOW, Nov. 9.—Fifty settlers on Wrangel Island who volunteered to brave the perils of the Arctic to validate Soviet Russia's claims to that bleak speck of land are facing almost certain death from disease. All attempts to get fresh food and drugs to the little band have failed. The last radio reports from the colony, picked up early in the summer, indicated that virtually all of the settlers were suffering from scurvy.

Winter set in toward the end of September. The last icebreaker, the Stavropol, started from the Siberian coast with a cargo of food, clothing and medicine late in August. It got to within 60 miles of Wrangel Island and was stopped by impenetrable ice.

Two airplane expeditions sent out previously were forced to land on the ice before reaching the island. A third expedition will be attempted if weather permits.

BOY SCOUT Activities

SCOUT LEADERS NOTICE

The training course for Scout leaders which was to be held at Camp Phillips in the Charles McConnell cabin Saturday, Nov. 10th, has been postponed. There will be a special meeting of the Scout leaders at Scout headquarters, Greer building, Monday evening, Nov. 19, at 7:30, at which time the training committee will have the plans ready to submit to the leaders for adoption or rejection.

Anniversary Week At Union Baptist

Congregation To Celebrate Eighth Anniversary Of Their Pastor, Rev. Henderson

Plans have been completed for the celebration of the eighth anniversary of the pastorate of Rev. C. D. Henderson of the Union Baptist church, Grant street, which will be conducted for one week, beginning Sunday afternoon, November 11, and continuing until November 18.

Those taking part in the special services include the following ministers: Sunday afternoon at three o'clock, Rev. W. L. Engram of St. Paul's Baptist church will preach; Monday evening Rev. Franklin of the Free Will Baptist; Tuesday evening, Rev. A. C. Bell, St. Luke's A. M. E. Zion; Wednesday evening, Rev. W. M. Hodge, Bethel; Thursday evening, lecture by Rev. Henderson; Friday, Rev. E. P. Tunney of Rochester, Pa.

The evening services will begin at eight o'clock. Congratulations and choirs of the various churches will also attend.

Chest Headquarters To Close Saturday

Further Business Will Be Transacted At Cathedral, Says Peairs

Community Chest headquarters on the third floor of the Greer building will close Saturday morning, November 10, it is announced today by Herbert Peairs, the director of the 1928-29 drive.

All details will be finished late this afternoon and all that remains for the people of the city to do, states Mr. Peairs, is to pay their pledges when they fall due.

Any further business concerning the chest campaign which may come up from time to time will be taken care of by Mr. Peairs at his office at The Cathedral.

Believes That Break Indicates New Political Interest In South

INDUSTRIAL MOVES AWAKENING SOUTH

States Beginning To Realize Need Of Republican Policies

By LAWRENCE SULLIVAN
International News Service Staff Correspondent

PALO ALTO, Cal., Nov. 9.—President-Elect Hoover is hopeful that the "solid South" is an obsolete term in American political jargon.

He sees the disintegration of the old party alliances below the Mason-Dixon line in last Tuesday's election as marking a milestone in United States history.

He believes that the political forces which put fifty new electoral votes in the Republican column from Virginia, North Carolina, Florida and Texas are permanent and hopes to consolidate the Republican position in the enemy territory with a view to re-establishing in genuine form the two-party system throughout the entire South.

Political intimates of the president-elect here are authority for the fact that of all the pleasing elements in the final election returns before him today, none affords Hoover so much gratification as the break in Dixie.

Sees New Interest

His satisfaction arises they declare, because he foresees a quickening of political interest and a stimulus to political competition for the entire nation in the more keenly competitive alignment expected to develop from the history making results south of the Potomac.

Hoover is confident that the peculiar problems of the region can be dealt with as well by a permanent Republican organization as are the special local interests of every other section and is hopeful that he may influence the development of party organizations in the several Southern states in a way which will carry this assurance to the Southern voters.

It is no secret among Republicans that a major aim of the campaign strategy was to crack the "Solid South." Hoover himself appealed for the abandonment of sectional political thinking in three campaign utterances.

New Conditions

The rapid industrialization of the South, and the increasing diversity of agricultural production both tend, in Hoover's estimate of the situation, to enliven interest in the Republican party there. It is pointed out that three of the four states to depart from the traditional Democratic allegiance are noted for tremandous increases in protected—industry trade since the war.

Hoover foresees, with the continued expansion of industry throughout the South, an increasing interest in Republican economic policies.

Devoting himself with his wanted efficiency and intensity to "complete and absolute rest" following his arduous campaign Hoover has not yet given thought to the details of any specific plan for rebuilding the Republican party in the South. It is highly probable however, that this will be one of the first matters to receive his attention when he again turns to the problems which are his as president-elect and leader of his party.

Meanwhile, he will not accept the suggestions of Republican leaders in half a dozen Southern cities who have urged him by telegraph during the last two days to consolidate the Republican gains in their state by personal appearances as president-elect. Hoover is convinced that all permanent gains in the South must be won by the same general appeal which the party presents to the nation at large. That is to be the cardinal policy of the Republican reconstruction program in the South.

Discussion Group Has Weekly Meeting

Nine Women Are Represented At Round Table Group Meeting

Nine representatives from the welfare and social service institutions of New Castle attended a meeting of the Community Chest Round Table discussion group, at the headquarters of the Associated Charities.

Routine business was transacted, and new cases were discussed by the members of the group. The next meeting of the Round Table will take place Thursday afternoon, November 15, at one o'clock at the Associated Charities, 8½ East street.

Those agencies represented at the last meeting were the county poor district, the International Institute for Foreign Women, the American Red Cross, the State Department of Health, the American Sheet and Tin Plate company, the Carnegie Steel company, the Lawrence county Tuberculosis Society and the Associated Charities.

Plan Observance Of National Book Week At Public Library

Arrange Special Children's And Adult's Book Exhibits For Next Week

In observance of National Book week from November 11 to 17, there will be a special exhibit of children's and adult's books at the New Castle public library during that period of time, states Miss Alice M. Sterling chief librarian.

Special emphasis will be placed upon the selection and exhibit of the children's books in this exhibit according to the statement of the librarion and adults choosing new books for children will find many helps here.

The statement of the librarian is that "all the best types of children's literature from the picture book age to high school years" will be exhibited." Many of the children's favorites are included as well as books of the present season; picture books, fairy tales, books for Boy Scouts and for Girl Scouts, books of travel and books about things to make and do."

Every one is invited to this exhibition in the library during book week. Parents and teachers are especially asked to view the display which will be shown on the second floor of the library.

Announcement of the week's observance has been mailed to women's Reading Circles, Civic clubs, school principals and ministers in an effort to make this one of the most successful book weeks.

The book week exhibit will be of especial importance to those who are anticipating buying children's and adult books in the near future.

District Conference In College Town

Takes Place In Methodist Church —Other News Of New Wilmington

(Special To The News)

NEW WILMINGTON, Nov. 9.—Today the annual fall meeting of the New Castle district of the Erie conference of the Methodist chruch takes place at the local Methodist church. Featuring the meeting will be the presence of Bishop Herbert E. Welsh who will come to this district conference in his first visit to the New Castle district.

It is expected that approximately 40 Methodist ministers in the district will be present. Lunch and dinner will be served to the delegates in the church dining hall. The program follows:

Morning.

10:00—Devotions, R. S. Naylor.

10:20—Business.

10:30—The Master's demand, "Follow Me". (a) To Complete Surrender, F. H. Frampton; (b) To Service, J. B. Edwards; (c) To Sacrifice, L. W. Miller.

11:00—Round table discussion. (a) Deepening the Spiritual Life," C. E. Petrie; (b) Creating Interest in World Service, I. E. Rossell.

Afternoon.

1:15—Devotions, J. L. Petrie.

1:25—Cribbs-Smith Homes Campaign, C. G. Farr.

2:00—Developing a Church, C. C. Mohney. Discussion, J. E. Iams.

2:45—Making the Most of the Sacraments. (a) Baptisms, F. S. Neigh; (b) Holy Communion, H. C. Weaver. Intermission.

3:15—Impressions of the Holy Land, S. L. Maxwell. Solo, James Bensinger.

4:00—Cultivation addresses, representatives of Board of Home Missions.

Evening.

7:30—Devotions, R. C. McMinn. Address, Bishop Welch.

Preliminary to the conference, the official board of the local church held a meeting Wednesday evening at which all the routine business was taken up. The Rev. V. L. Bloomquist, pastor of the church, looks for a banner year for the local congregation.

A citizens meeting and banquet has been arranged for the residents of the college town for the evening of November 19 in the dining hall of the U. P. church. At this meeting the question of the proposed improvement in the local fire department will be discussed.

It has been arranged that Mayor Frank Gilbert and Fire Chief Fred Vanderholt, both of Sharon, will be present and will talk to the New Wilmington citizens on the subjects of fire-fighting and fire prevention.

Another question that will be discussed at the meeting is that which deals with the local juvenile recreation problem. For an intelligent survey of this problem, the town will hear Miss Irene Kramer of the Slippery Rock State Teachers college give a talk on "Playground Work".

No subscriptions or collections will be taken at the banquet which is being put on for the one and only reason to get an intelligent presentation of the borough problems before the people.

The local Thursday club held its silver anniversary meeting yesterday afternoon at the home of Mrs. Robert Stewart. Many people attended the meeting, some coming from out of town to attend this 25th year meeting of the club with which they were once affiliated.

Allen Moore, who is a resident of Illinois, returned here to visit his parents, Mr. and Mrs. W. A. Moore.

Student Prospector Finds Arizona Gold

CHICAGO, Nov. 9.—Donald S. Hammer, graduate student at Northwestern university, knows the difference between fool's gold and the real stuff.

When Hammer was graduated from Iowa State college in 1926 he wanted gold to carry on further study. So he and a pal hit out for the Lonesome valley in Arizona. They took with them a pack train of burros, some beans and plenty of prospecting equipment.

For a year they sifted sands and dipped their pans into beds of streams and when they returned they brought enough gold for Hammer to enroll in the school of commerce at Northwestern. His partner married.

"There's plenty of gold yet in Arizona for one who will work for it," says the student-prospector. "But you've got to stand the sand storms and the snakes and the intense heat I thought I'd struck it rich several times, but each time the stuff just disappeared."

The headlines told of another tong war the other day and the lady next door wanted to know if there never was going to be peace among the icemen.—The Wichita Beacon.

Exclusive Central Press Dispatch to The New Castle News

NEW YORK, Nov. 9.—There is a prospering speakeasy in the vicinity of a powerful New York newspaper which has uptown offices. The owner of the joint just received this threatening message from the publisher of the sheet:

"Members of our uptown staff are frequenting your place between working hours and are getting drunk. Unless you refuse to sell hard liquor to any of them I shall have your place closed."

As a matter of fact, the place is owned by a member of the staff.

A PROBABLE HIT

The intolerant, the professional evangelists and the narrow-minded are rebuked in fitting fashion by Harry Wagstaff Gribble, whose spellbinding drama, "Revolt," is proffered at the Vanderbilt Theater. The premiere spectators appeared to find most of it taut and compelling dramatic fare, for they interrupted the proceedings several times with outbursts of genuine handclapping which it merited.

With a first act that romps from the moment the asbestos lifts and a second episode crowded with highly amusing comedy relief and gripping drama, "Revolt" arrests the eye and the ear, winding up with a two-scene finale that is none the less interesting even if the unhappy denouement is unfolded at a retarded tempo.

It revolves around the Rev. Barnabas Ford and his son Paul and his three virtuous daughters, Faith, Hope and Charity. Bereft of a mother who passed away at an early age in an asylum, the girls are closeted in the residence adjacent to their father's house of worship, where "the facts of life" and the devil may not easily find refuge.

The son returns from college for a holiday and is rebuffed by his father. His devoted sister Hope had already asserted herself, only to have the reverend instruct his physician to inspect her brain. The world and its people are mad, complained Ford, and when he plotted to bring back his straying flock with a girl child evangelist, who won 200 Passaic converts, most of whom were her school chums, and the stunt failed, Ford became reconciled to the fact that his method of preaching was not modern, and he went to his study, where he committed suicide.

It is Mr. Gribble's theory, and a logical one, that the hysteria aroused by professional evangelists and sensational preachers and others can be shattered. "Once the spell is broken," observes Mr. Gribble, "people come to their senses," and there are several engaging incidents in the play which aroused the audience to a pitch of enthusiastic frenzy. "Revolt," therefore, appears to be a hit.

The cast is splendid. It is difficult to single out the outstanding player. Perhaps the performance by Ackland Powell as the son is the best. Hugh Buckler's portrayal of the bitter and deranged preacher was also excellent, which might be recorded of Elizabeth Allen as Hope, Eunice Stoddard as Charity, Charlotte Denniston as Faith and the others, who are Helene Lackaye, Anita Fugazy, Elliott Rothe, A. G. Andrews and Paul Gilfoyle.

It is all done with great dignity and good taste, although some probably will argue otherwise, for several daring and religious exposes are provided. But it is a courageous piece of work, done nobly, and rates the support of the intelligent.

William Powell is listed as the sponsor, but Times Square will tell you that Lew Levenson is his name. Mr. Levenson is an exploiter for productions, and "Revolt" marks his debut in the producing business. He should go far, considering his fine start.

Roaming Round With Richards

Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle

This man Shakespeare was considerable of a playwright, if you get what I mean. And the pity of it all is that he passed on before he had a chance to cash in on his greatness. If he were alive today Bill would have a town house and a country home with a flock of automobiles and a yacht. As it was he probably died owing the tavern keeper for his week's lunch.

A weird genius and a versatile dramatist. Comedy, tragedy, mystery, he had them all. The Merchant of Venice, A Midsummer Night's Dream, Two Gentlemen of Verona, Merry Wives of Windsor, Othello, King Lear, Hamlet, Twelfth Night, these and a lot more he wrote and probably got less for any three of them than a modern playwright gets for taking the blindfold test for cigarettes.

I like Shakespearean drama. Perhaps the play that stands out most vividly in my recollection is John Barrymore in "Hamlet". Differ with me if you will, but it's my idea that this production was the finest bit of work the American stage has seen in 20 years.

One of the things I like about Shakespeare is the familiarity of it all. Ever sit through Hamlet? You'll recognize a dozen lines that you use almost daily. Or, for instance, "Twelfth Night", which the high school students presented last night. Of course you recognized that line, "some men are born great, others achieve greatness and others have greatness thrust upon them." The words read from the counterfeit letter by Malvolio, supposed to have been written by Olivia.

Hamlet fairly bristles with quotations that we use constantly, and if you are familiar with your Shakespeare, as you should be, you know the amazing versatility of the old Bard of Avon.

All of which is prefatory to the statement that last night's roaming was up at the high school play. Only a Clara Hartsuff could train high school students to the point where they could present "Twelfth Night" and not be ridiculous. No scenery, save a few screens, no modern theme, no modern lines, that takes ability to do, folks.

May I suggest that tomorrow is Poppy Day? Whether you served or whether you had to serve at home during the war makes no difference tomorrow. The lads who served will have poppies. You should have one, too. Don't turn the poppy girls down.

THE NEWS, BY MAIL, ONE YEAR $5.00

The Way OF THE World

By GROVE PATTERSON

MAYO ON CANCER

You cannot pick up newspapers from five different cities without finding many news items concerning health. Shrewd editors want news of this type.

If one of the Mayos says that progress against cancer is being made, thanks to surgery and radium, the news is given generous circulation. Normal people devour health news. It concerns themselves, the chief suoject in which they are interested.

* * *

PROOF

Testimony on how the average person reads health items is given by Dr. George H. Bigelow, Massachusetts health commissioner. Dr. Bigelow says three-fourths of the people who went to Massachusetts' cancer clinic did so because of newspaper articles.

* * *

MOVIES

This column is printed in black ink on white paper. Do you realize this is a happy combination of color for eye health? If you don't think so make a practical test. Read colored printed matter, such as bill board or circular advertisements, for an hour. Then read your newspaper for an hour. You will discover that the black newspaper print is much less tiring to your eyes than the loud-colored circulars.

The men who are making movies out in Hollywood have been retaining eye specialists to solve the problems of the movies relating to the eyes. They want you to feel that it is less fatiguing to watch a movie for three hours than to stay home and read a book.

* * *

GOODBYE DIPPERS

Health is dictating a change in the ice cream industry. More and more, ice cream is being sold in individually wrapped packages and less by the dipper. The public has the notion some soda fountain clerks are not careful to keep the dippers clean.

* * *

GROUCHES

Other things disturb our health. Politics, fashion and the nervous excitement under which we live contribute to grouches and headaches. Politics often prevent our health commissioners from functioning efficiently. Fashion reacts on the birthrate, and irregular, noisy living hastens death.

Wise is the man who gives attention to his health. It is his choicest possession.

Returns Show That College Bond Issue Is Behind In State

Unofficial Returns Show That Issue Is Losing By 24,000 Votes

(International News Service)

STATE COLLEGE, Pa., Nov. 9.—Unofficial reports from 51 counties, 37 of them complete, show the State College bond issue 23,780 votes behind The loan lost by 11,445 in York county and by 5,100 in Cambria, upsetting local calculations.

In about half of Pittsburgh districts the issue is 10,000 behind. The biggest majorities came from Lackawanna, over 15,000 and over 9,000 from Blair. Philadelphia lost by 30,000.

Bootlegger Uses Walking Stick

STOCKHOLM, Nov. 9.—The flask is by no means a modern invention it has been brought out in Sweden where an old walking stick, holding a container for liquids was recently discovered at Norberg in the province of Vestmanland.

The intricate cane consisting of a metal tube with rich ornamentations in silver, boasts not only of a beverage flask but a mirror and a snuff box as well.

To prevent pilifering the compartments are protected by intricate locks. The stick was made 50 years ago by a metal worker named Anderson for his personal use and is now in the possession of his son George Anderson.

Robber Gives Woman Money For Her Baby

CINCINNATI, Nov. 9.—As three men robbing the Erie avenue bank of $800 were making their escape, Mrs. Mary Baehr, one of the depositors to enter the bank during the holdup, halted them, saying:

"I only want to draw out some money for my baby," as she looked at one of the men whose pocket was bulging with currency. "He's sick and I need it."

Placing his hand in his pocket the man drew out three $1 bills and gave them to her.

"Hope he gets well," he told her as the three scurried to their automobile.

Last Monitor Has Been Issued

The Monitor, a school paper published by the students of the senior high school was put on sale for the last time Wednesday. Due to the fact that the students voted on discontinuing the Monitor, an annual will be published at the end of every semester, replacing the paper.

Five hundred copies were published for the last time but only 350 were available with the remaining number being used as exchanges, to the advertisers, and to the reportorial staff.

Ex-Wife Pays Husband's Bills

Restaurant Keeper Pays Bills Of Remarried Husband When He Is Sick

PROF. JERRY THOMAS TELLS HOW TO DO IT

By IONE QUINBY
(Exclusive Central Press Dispatch to The New Castle News)

CHICAGO Nov. 9.—The story of Pauline is a bit of city drama. Pauline is the little French proprietress of the best eating place on the north side. Her steaks melt in one's mouth. The soup and cocktail are worthy a place on the table of the gods. Pauline's place is full of atmosphere—red-checked tablecloths, music that is different, and food that is food! But to Pauline again! A few years ago she was married, with two children and a husband. She and her husband separated, he taking the boy and she the girl.

The husband moved to Pennsylvania, married again and has a new baby. A year ago Pauline, wanting to see her boy, paid him a visit. She found the husband ill with cancer and out of work. The wife was ill, too, and there was no money. Pauline took the new baby in her arms, cuddled and sang to it, then came home, and ever since, twice a week, she sends them a nice little check. All the food, rent, doctor bills of this little family are being paid by the French ex-wife, who conducts a little Bohemian place where careless gaiety is the watchword.

Chicagoans hurrying from their skyscraper apartments to their skyscraper offices swing from strap to strap on the intervening elevated trains. A few rides during a rush hour reminds one that if human beings didn't come from monkeys, at least they are making good at cliff dwelling and strap swinging. Persons visiting the city will find elevated riding a pleasant way to get about the city if they use judgment and board the trains between rush hours. After nine in the morning and before five at night is the time to ride if you expect a seat.

The most enticing meat market in the Loop is one where hams, thurlingers, porterhouse steaks, slabs of bacon and fish are all made of candy. A butcher dressed in white cap and apron stands at the meat counter, ready to slice off steaks, hams and what not, or to wrap up fish for Friday night suppers. The place is decorated with advertisements just like a meat market.

A young society woman, Mildred Fitzhugh, was very nearly arrested the other day for driving a stolen car. Her friend, Mrs. Billy Swift, of the packinghouse Swifts, called her up and told her she could use her car while she was away for the week. "I'll leave it down at the Northwestern station at Lake Forest," she said. Miss Fitzhugh went for the car, picked out one which she thought belonged to Mrs. Swift, and merrily drove away. After four days she found it was a car that was being looked for in three states. The Swift car had spent four nights out in the street.

Although adventuresses are usually spoken of as pretty in the public prints, the beautiful flapper bandit, murderess or shoplifter is actually in the minority. At a gathering of murderesses in the Cook county jail several years back there were only two comely women present and they possessed beauty of a superficial type. The other 11 were homely, ill-tempered and bedraggled.

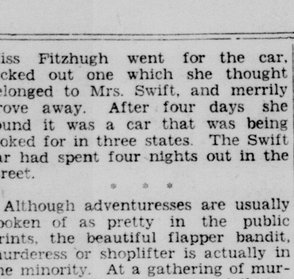
Recipes for mint juleps, apricot cocktails and numerous other drinks are being put into book form. They are considerably more popular than the "White House Cook Book", and have a place of honor in the family living room that the cook book never dreamed of having. A new one is "How to Mix Drinks", by Jerry Thomas, a former bartender. It is illustrated with reproductions of bartenders of America.

Irish To Set Example In Modesty Of Dress

BELFAST, Nov. 9.—That the length of the skirt is a true barometer of national degeneracy is the view held by the Irish modest dress crusade which has attained a membership of nearly 9,000. The crusade is also aimed at immodest postures, loud speaking or laughter in public and coarse or irreverent exclamations.

Members of the movement abstain from alcoholic drinks at dances or entertainment, from improper motion picture shows, from immodesty in sea bathing and from improper dancing. They must not attend all-night dances without proper supervision. Smoking is forbidden.



Keep Skin Clear

If your skin is not fresh, smooth and unblemished, here is an easy way to clear it: Spread on a little Resinol, letting it remain overnight. Then wash off with Resinol Soap. Do this once a day. Animals Get Big Money In Movies

Chicago Man Lives On Salaries Of Pet Animals He Trains

RENTS CANARY BIRDS FOR ENTERTAINMENTS

By IONE QUINBY
(Exclusive Central Press Dispatch to The New Castle News)

CHICAGO, Nov. 9.—An Interesting story might be written around the professions of dumb animals in a big city. There is a man I know who keeps a school in which he guarantees to train animals for various professions.

One of the most remunerative professions open to animals, and by far the most popular, is that of acting in the movies. Clever animals who make good in Hollywood pull down good salaries. One man in Chicago lives off the proceeds of white mice, trained chickens and a collie dog. When winter comes he lives in Hollywood, collecting the salaries of his pets by way of a yearly contract. In the summer he returns to Chicago. His mice get several dollars a day, the chickens get $15, and the trained dog earns from $10 to $25 a day. Stars such as Strongheart and Rin-tin-tin, of course, get more.

The scale for pigs and dray horses as movie extras is $2.50 a day. Lions and bears make plenty, and ducks, cats and trick horses earn good salaries. Chicago has agents who give tryouts and secure contracts for animal actors. Their advice is not to take pets to Hollywood promiscuously, but to secure the contract first.

* * *

An animal who has a nice fat contract is Millie, the donkey opera star, known to thousands of Chicago opera lovers, who has appeared in performances of "Pagliacci" for several seasons. She is probably the most feted and honored donkey in the world.

* * *

Canary birds are often rented out for entertainments and society fetes. A wealthy woman, for instance, gave an indoor garden party last year and hung 200 canary prima donnas about the ballroom. The scenic effect was that of a marvelous garden with trees, an improvised pink fountain, and hundreds of birds singing. The canaries are trained by the thousands in Chicago. I know a man who teaches several thousand a year to sing sweeter notes to the tune of a bird organ.

* * *

Another professional animal is the mouser. There is one at the new city police station who is going to be pensioned next year. She has been catching mice and rats at the station for 19 years. Alderman Thomas Byrnes has announced his intention to present a resolution to pension her. If she hangs on until next year she will be the first cat ever to be pensioned.

* * *

Because of the epidemic of banditis in Chicago, many owners of magnificent jewels have worn imitations to operas in seasons past. Millions of dollars' worth of diamonds, emeralds and pearls recline in private vaults and are only worn at special affairs, carefully guarded. This year, however, thanks to a precedent set by Mrs. E. T. Stotesbury of the East, the real jewels are going to be worn to opera, it is whispered. In each box, however, the owner of jewels will entertain one or more gunmen of the type known as private detectives.

* * *

Chicago consumes daily an average of 100,000 pies of all makes. The sandwich shops which sell standard luncheons of sandwiches, coffee and apple pie, have put it into the ascendancy. Chicagoans form habits easily—particularly in regard to eating. Due at the office, shop or factory at a certain hour, and released at the same time each day for luncheon, the majority of people live according to routine. The clock strikes 12 and they start the noon bread line to various loop lunch counters. Living by time clock necessitates quick lunches, and it is easier to sit down to a sandwich, cup of coffee and apple pie than any other type of lunch.

Britain Builds Ship In Secrecy

Mammoth Ocean Liner Is Being Constructed At Belfast, Costs Millions

(International News Service)

BELFAST, Nov. 9.—Desperate attempts to retain British supremacy are now being made in the shipyards of this city.

The chief effort is being concentrated on the world's greatest ship, the "mystery" Oceanic of 60,000 tons register. Her cost will be around $30,000,000 and she is intended to combat the challenge of any other nation.

To Observe Sixth Pastorate Of Rev. W. W. Nelson

On Sunday, Nov. 11, Rev. W. W. Nelson will celebrate his sixth anniversary as pastor of the Second Baptist church of New Castle.

During the pastorate of Rev. Nelson 391 members have been added to the church. The old frame building on West Falls street has been replaced by a new brick edifice, well equipped, on West Falls street, at a cost of nearly $50,000. Over $91,000 has been raised by the members of the congregation and friends.

The program for Sunday is as follows: sermon by the pastor at 11 o'clock. At three p. m. the anniversary sermon will be delivered by Rev. S. P. Phillips, pastor of the Tabernacle Baptist church of Youngstown. Dr. A. J. Payne of Philadelphia will preach at 7:30. On Wednesday evening, Nov. 14, Dr. L. J. Pollard will preach the closing sermon.

WORKMAN INSTANTLY KILLED BY TRUCK

ALTOONA, Pa., Nov. 9.—Struck by a mail truck on Broad avenue this morning, Harry Hetrick, aged 59, was almost instantly killed on his way to work in the Pennsylvania blacksmith shop. He stepped from the curb in front of the fast-moving truck.

Pennsylvanians Want Voting Machines, Say Amendment Is Passed

State Optional Voting Machine Amendment Believed Only Winner Tuesday

Vote On Making Pittsburgh Metropolis Is Still In Doubt Today

By S. I. NEIMAN,
International News Service Staff Correspondent

PITTSBURGH, Nov. 9.—The proposed amendment to the state constitution providing for the optional use of voting machines and its companion amendment, providing for the division of election districts which pave the way for voting machines appeared the only ones of the fourteen amendments which are certain of passage, on the face of returns tabulated today.

While it appeared that Pennsylvania voters also had approved the Pittsburgh metropolitan plan and there was a bare majority for amendment No. 12, pertaining to reciprocal tax inheritance exemptions, the fate of these two was still in doubt.

On the face of the slowly increasing returns, there was a faint possibility that the proposed $8,000,000 State College bond issue alone might yet carry, but small hope was held out for the other four bond issues, including a $50,000,000 highway improvement program; one providing for state forest purchases; a welfare institution issue and one for National Guard armories.

Reason for Defeat.

Many reasons for the defeat of the bond issues were advanced by observers here. It was thought that the opposition of State Treasurer Samuel L. Lewis bore considerable weight with the electorate, and the stand of Gov. John S. Fisher against all but the highway bond issue also figured.

It was pointed out that the apparent majority in favor of the greater Pittsburgh amendment was polled largely in Pittsburgh and Philadelphia.

Printing Issue Beaten.

The International News Service tabulation showed that the amendment providing for state printing was apparently snowed under by a 3-to-1 vote. There was little if any interest outside of Pittsburgh and Philadelphia in amendments 7 and 11, pertaining to Pittsburgh tax assessments and the Philadelphia bonded debt. The apparent defeat of these two was centered largely in the respective cities.

The unprecedented interest in the presidential election Tuesday doubtless cut into the amendment vote to a considerable extent, and there was a flood of "straight" negative votes on these involved issues.

Election districts were unusually slow in tabulating the returns on the amendment vote, and consequently the state tabulation was a long drawn out affair. It may be several days before the poll is completed.

Part Of Division Street Resurfaced

Small Sanitary Sewer Also Laid In Arlington, Burns States

Councilman Clayton Reeves during council session at city hall today informed council that resurfacing of a portion of Division street and construction of a small sanitary sewer in Arlington avenue was necessary.

Council replied that in the future Mr. Reeves should obtain authority from councilmanic colleagues before resurfacing streets and building sewers.

Council some time ago purchased 50 tons of material for repair work in Hamilton street, Croton avenue and Grant street and the resolution read "and so forth."

Reeves had the street department resurface a section of Division street which was bad and when he asked Councilman Burns to charge the cost to the fund for "new improvements" Burns demurred, stating that the cost should be charged to "repairs and maintenance."

Colleagues told Mr. Reeves he should have obtained permission for the resurfacing, then passed a motion ratifying his action. The motion also provided that the cost be transferred from the fund for repairs to streets to the fund for new improvements.

The cost of the sewer and resurfacing is about $900.

Armistice Day's Message

Brass Tacks On The Sunday School Lesson

The Golden Text

By Dr. ALVIN E. BELL.

November 11, 1918, is certainly one of the most memorable dates of modern times. The celebration of its tenth anniversary on the Lord's day suggests the fact that loyalty to God as expressed in religion points the way to loyalty to country as expressed in patriotism.

Our lesson is taken from that practical section of the epistle to the Romans with which Paul closes that wonderful letter. In the first eleven chapters of Romans Paul deals with the great fundamental doctrines of Christianity, viz., condemnation because of sin, justification through faith in Jesus Christ santification in Christ, grolification with Christ and restoration even for Israel through Christ.

Life the Fruit of Doctrine.

Not until Paul has set forth these great doctrines which in the opening verse of our lesson he refers to as "the mercies of God" does he turn to the practical matters of Christian living and when he does so he connects the two directly and inseparably with that characteristic word "therefore" which is found in all his great doctrinal epistles like a golden hinge connecting Christian doctrine and practice: "I beseech you, therefore brethren by the mercies of God to present your bodie. a living sacrifice, holy acceptable to God which is your spiritual service. And be not fashioned according to this world; but be ye transformed by the renewing of your mind that ye may prove what is the good and acceptable and perfect will of God." This sort of a life dedicated to God as a living sacrifice is the fruit borne by the mercies of God expressed in the sacrificial death of Christ. So always doctrine and life are connected as root and fruit.

Similiarly true patriotism must be rooted in and nourished by an appreciation of the fact that our heritage as American citizens has come down to us through the lofty devotion and supreme sacrifice of a long line of heroes who laid down their very lives for our country. Their willingness to sacrifice even their lives for their country is our strongest incentive to live for that same country. Any other incentive for true patriotism is inadequate. Their sacrificial death for our America demands our sacrificial living for America and shames any lesser consecration.

A Call to Peace.

Whether they were too idealistic or not the fact remains that our boys who laid down tehir lives prior to and following that first Armistice Day in 1918 did it in the noble enthusiasm of a crusade to end war forever on the earth. It therefore remains for us the living to highly resolve that in that noble cause of world peace they shall not have died in vain.

Let Americt therefore lead the nations of the world by applying to international affairs Paul's injunction in this lesson, "If it be possible, as much as in you lieth be at peace with all men. Avenge not yourselves, beloved, but give place unto wrath." America gave a splendid exemplification of this at the close of the Boxer uprising in China when she chose to use the indemnity paid by China to educate Chinese youth in American institutions of learning. By so doing America sought to "overcome evil with good" as our golden text teaches. It is high time that the nations of the world were learning that these injunctions of God's word apply to nations no less than to individuals. Our Armistice Day prayer may well be voiced in those well-known words of Kipling's "Recessional," "Lord God of hosts be with us yet, lest we forget, lest we forget."

(The International Uniform Lesson for November 11 is Romans 12:1-21, the subject being "Peace and Good Will Among Men" and the Golden Text, "Romans 12:21: "Be not overcome of evil but overcome evil with good.")

Cincinnati Police Investigate Death Of Two In Box Car

(International News Service)

CINCINNATI, O., Nov. 9.—Cincinnati detectives were confronted with a baffling murder mystery Thursday when two bodies, one believed to be that of Dewey Day of Hartshorn, Okla., and the other unidentified, were found in a box car in the Pennsylvania railroad freight yards here.

Papers found in the pockets of the man believed to be Day identified him as a first aid expert in mines. They were issued by the Bureau of Mines at Washington and bore the notation "In case of accident notify Mrs. Eva Day at Hartshorn, Oklahoma".

EXPLODING STILL BURNS OLD HOUSE

DENNISON, O., Nov. 9.—His belief that the fire which destroyed the unoccupied dwelling here last Saturday belonging to Constantino Riccardi, Canton, was caused by the explosion of a still, was announced today by S. Report Big Oil Fire Is Raging In California

Fire And Explosion Occur As Mammoth Well Is "Shot In" Today

COMMUNICATION VERY LIMITED

(International News Service)

WHITTIER, Cal., Nov. 9.—Many lives were believed endangered early today when the Texaco oil well, known as the Bellevue No. 1, located in the Santa Fe Springs oil field near here, blew off with a terrific percussion and started a huge conflagration.

The flames, leaping up with lightning rapidity ten minutes after the gusher was opened for the first time, were visible for miles around. Hundreds of oil workers and their families were reported to have fled their dwellings, immediately adjacent to the field, and to have sought safety.

Messages Meager

No deaths or injuries have been reported thus far. Means of communication with the oil field are limited.

The great fire, it was reported, was carried on a breeze to other nearby wells and seven or eight derricks were believed to be in flames.

Fire-fighters were rushed to the scene and began a desperate battle to check the giant conflagration.

The blast, which preceded the blaze, occurred at 3:20 a. m., Captain O. H. Mathis, of the Whittier police, reported to International News Service. An alarm spread swiftly through the oil settlement and reached Whittier, Captain Mathis said, within a few minutes after the explosion.

Telephone and telegraph wires were reported down in the vicinity. The damage to the lines, however, was slight and quickly repaired, officials of the Southern California Telephone Company reported.

The burning well is the property of the Texas Oil Corporation. Ten minutes before the blast, it had just "come in."

The Santa Fe springs oil field is a wilderness of derricks.

Detectives Search New York City In Rothstein Murder

Slayer Of Arnold Rothstein Is Known To Police And Rigid Search Starts

(International News Service)

NEW YORK, Nov. 9.—District Attorney Joab H. Banton declared today that the identity of Arnold Rothstein's slayer has been known to the police for twenty-four hours, and that two thousand detectives are at this moment combing New York for him, and guarding all exits from the city.

The district attorney declined to supply any hint as to the identity of the suspect. Asked if the man was a friend or former associate of the slain gambler, Banton said: "I cannot answer that question at this time."

Meanwhile, Chief Medical Examiner Charles Norris made known that an autopsy on Rothstein's body had revealed the gambler was shot while sitting down, bearing out the theory that he was attacked unawares, possibly while playing poker or discussing with his creditors his enormous stud poker debts.

It was understood that in addition to Rothstein's attorney, Maurice Cantor, the district attorney was to question members of the gambler's family and other intimates of Rothstein in the hope of determining whether or not any "death bed" statements had been made naming the slayer.

Enthronement Of Japan's Emperor Is Splendid Fete

Emperor Hirohito To Be Officially Enthroned As Ruler On Saturday

(International News Service)

KYOTO, Japan, Nov. 9—Thousands of visitors poured into Kyoto today for the enthronement of Emperor Hirohito tomorrow. This ancient city, formerly the capital of the empire, was filled with soldiers and the imperial colors fluttered everywhere. The enthronement ceremonies tomorrow will be divided into two parts and will last the greater part of the day. Although Hirohito has been ruler of Japan, first as regent and then as successor to his father, the late emperor, for seven years, the official ascension to the throne was postponed until today.

Grand banquets and feats will be held for the next few days, attended by princes and princesses of the blood, government officials and high dignitaries and foreign envoys.

At one banquet a song composed by the first emperor will be sung. It was written to inspire the martial spirit of the first emperor's warriors.

Artificial flowers, made of silver leaf, will be distributed to the dancers.

Republicans Will Have Majority In Congress, Shown

(International News Service)

WASHINGTON, Nov. 9.—The Republicans will have a paper majority of 15 in the senate and 99 in the house, according to the first unofficial list of the new congress announced today by William Tyler Page, clerk of the house.

Page's list showed:

Senate—Republicans, 55; Democrats, 39; Farmer-Labor 1; and one vacancy (the contested seat of William S. Vare of Pennsylvania).

House—Republicans, 267; Democrats, 167; Farmer-Labor 1.

Premier Poincaire Will Attempt To Form New Cabinet

(International News Service)

PARIS, Nov. 9.—Putting aside his resentment over the manner in which the radical socialists had maneuvered the downfall of his government on Tuesday, former Premier Raymond Poincare this afternoon consented to undertake the formation of a new ministry. His decision was announced after a long conference with President Domergue, of the French Republic. It was understood that the premier-designate will try to form a coalition government although it is not certain that radical Socialists will have any posts in it.

M. Poincare said he would assume the two posts he held in the old government—the premiership and the ministry of finance. At 5 o'clock this afternoon he sent out a hurried call for all the members of the preceding cabinet to assemble at once for a conference except the four radicals who had tendered individual resignations on Tuesday. They are Edouard Herriot, former minister of education; Albert Sarraut, former minister of interior; Henri Queille, former minister of agriculture, and Leon Perrier, former minister of colonies.

Former Minister of pensions, Louis Marin, also was excluded from those invited to the conference.

Many a neighbor's dog is a howling success.

Additional Numbers Of Marines Will Be Removed From China

(International News Service)

WASHINGTON, Nov. 9.—Additional U. S. marines shortly will be withdrawn from China, Secretary of State Kellogg announced today after a conference with Secretary of Navy Wilbur.

The number and the places from which the marines will be withdrawn are to be decided later.

For several months the United States has been gradually reducing its armed forces in China. The force totaled approximately 5,000 last year.

City To Build Storm Sewer

City Clerk To Ask For Bids On Sewer To Run To Big Run

Council met in city hall today and approved plans and specifications for a storm sewer in Moravia street between Furnace street and Big Run and in Lutton street between Moravia and Mercer, with an extension at South Mill street. This action was followed by Councilman Davies motion, which passed, directing the city clerk to advertise for bids.

Recently council passed an ordinance providing for a $50,000 bond issue. The issue was sold and council wants to proceed as soon as possible with the work.

Yale Greeks Join "Fraternity Row"

Alpha Delta Phi Will Build New Home Costing Around $150,000

(International News Service)

NEW HAVEN, Conn., Nov. 9.—The Alpha Delta Phi fraternity in Yale is joining many others in building a new home in "Fraternity Row" the new group of society buildings which all such extra-activities of students are being concentrated in one district. Alpha Delta Phi will spend upward of $150,000 for a building resembling a dwelling house in the modern Tudor style. Meanwhile the new Chi Psi house is rapidly taking form in the group and is expected to be ready for use in the spring. Alpha Delta Phi work will start early in the winter.

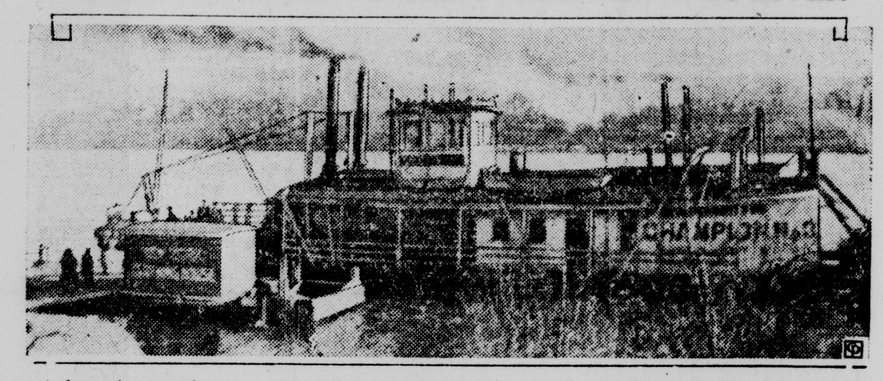
BRIDGE REPLACES ANCIENT FERRY ON OHIO RIVER



A ferry, in operation more than 125 years, between Pomeroy, O., and Mason, W. Va., ever since the first settlers arrived, is to pass out of existence with the dedication, Nov. 12, of a $1,000,000 bridge, spanning the Ohio river a few miles distance from Point Pleasant, W. Va., to Gallipolis, O. The first ferry was a crude canoe, followed by a dugout, flat, horse ferry and steam boat. The last of these, above, has been relieved of its franchise by the bridge firm.

English Women Grow Keen On Bridge; Playing Stops Scandal

(International News Service)

LONDON, Nov. 9.—"Cards instead of tea-cup scandal" is the slogan of the Marchioness of Winchester.

"Auction bridge is growing in favor enormously among women and I think it is a very good thing" says the Marchioness. "Devotion to the game has stopped a good deal of scandal talk over the teacup. It has given thousands of women a new interest to cultivate at home and in many cases a pleasant diversion after the fatigue of their work."

"I am a keen bridge player myself and I know its value."

Gas Tax Brings Much For Roads

More Than 258 Billions Is Realized From Three Cent Tax On Gas

(International News Service)

WASHINGTON, Nov. 9.—An average gasoline tax of 3.19 cents a gallon under a direct taxation system in 44 states in 1927 bought more than $258,000,000 worth of good roads, according to an analysis made by the American Motorists' association.

Twenty-four states increased their gasoline tax during the year in an effort to build more and better roads the analysis showed, the 1927 average of 3.19 cents a gallon tax being .63 cent increase over he preceding year.

Of the money raised by gas tax for roads, nearly $200,000,000 was spent on state highways. More than $55,000,000 went into local roads and $10,000,000 was appropriated to state and county road pavements.

TOO HOT

The young man was singing at the village concert.

The audience sat hushed while his tenor voice boomed out beneath the rafters.

"Ah!" he thought. "I have captured their emotions with my song!"

He turned his head proudly, then his expression changed. There was a pained look on the face of his accompanist.

What was the matter? Was he singing the wrong words? Or—surely he was not out of tune?

Anxiously he sidled up to the other.

"Am I going wrong," he whispered between the verses.

The pianist looked up from his score. There were tears in his eyes.

"No," was the agonized reply; "but I'm sittin' on my pipe, and it's still lit!"—Answers, London.

Germans Object To Tourists' Practice

Should Not Take Skulls And Bones From Battlefields, Say Vets

(International News Service)

BERLIN, Nov. 9.—The German war veterans organization "Kyffhaeuser" has petitioned the German Foreign office to take diplomatic steps to prevent American tourists visiting the battlefields in France from taking along skulls and bones of fallen soldiers as "souvenirs."

"This is a shameless and impious behavior which violates the holiest feelings of our war veterans and especially of the families of the dead" the petition reads.

Twenty-Five Seek Tabernacle Altar

Immense Crowd Attends Evangelistic Service On Thursday Night

SECOND COMING OF CHRIST THEME

There was an unusual outpouring of the people of the city and county Thursday evening at Everybody's tabernacle, South Mill street at Division street, when Evangelist C. H. Erickson continued his sermon of last Thursday night on "The Second Coming of Christ." The immense tabernacle was almost filled, marking it as being the greatest Thursday evening service of the eight weeks that the tabernacle has been the scene of the evangelistic meetings.

Inspired by the wonderful address of Evangelist Erickson, also the fine singing, when the call was given for those who desired to lead a better life to come forward, there were 25 persons made a public profession of the renewal of their faith in Jesus Christ and walked to the front of the tabernacle, where the evangelist and assisting clergymen of the city and workers, had prayer with them.

The evangelist said among other things last night in resuming his sermon on "The Second Coming of Christ," "I believe that he is coming back. He promised this and the Bible is filled with mention of his second coming. Certainly, if we believe in the Bible we must also believe that this prophecy is true.

"The Bible proves itself. In spite of the efforts of infidels and others the Bible has never been downed and it never will be. The Bible was written through the inspiration of God. It was God that made it possible to fortell the things that were to come. No man could have written and foretold of these things and had them proven true. I thank God for the inspiration that made the writings of the Bible possible. God makes no promises that he does not fullfill.'

"I believe in the second coming of Christ. The devil would hold us back but would also push us on into chaos if possible to get us away from that type of faith."

"The Bible does not promise that we shall not die but it does promise that we may be healed of all our diseases. There are those who in past years went so far as to set a date, dispose of their property and do other foolish things. The date came and the hour but the second coming did not occur.

"I'll risk my salvation on the truth of God in telling of this second coming of Christ. God has said that he would. Thank God for the peace that comes with being ready. Should he come this moment I feel that I have done those things which will permit me to believe that I am ready. I'd rather have Jesus Christ than be left behind."

The evangelist then went into that phase of the second coming in which the Bible tells the signs by which it may be known that the time is approaching when he will come. He quoted various parts of the Bible where this is foretold.

"I see in the modernistic teachings of some, less to be respected than in Bob Ingersol, the noted infidel. The churches are letting down. Our colleges are filled with those teachings that lead to unbelief.I believe in the Bible as it is. Its prophecies are many and some of them have even been proven in our time.

"I believe that the second coming of Christ is not far off. I even believe that it is possible that some of us here may live to see his coming. Let us be prepared for his coming, when that time does come."

The invitation was then extended to those present who felt that it was time to change their mode of living and make peace with their maker and before this part of the service was over there were 25 persons at the altar, where they gave themselves to God and received the encouragement and prayers of those workers assisting Evangelist Erickson.

As usual during the invitation period the singing was led by the colored quintet and included such numbers as "Why Should You do Without Him?" "Are You Coming Home Tonight?" "Yes I'm Coming Home," "I'll Surrender All" and "O How I Love Jesus."

At teh close of this part of the service Evangelist Erickson announced that there had never been an evenig since the meetings opened September 23 on which the invitation had not been given and on which there had not been some persons go forward, the highest being one night when 42 came forward.

Anointing and healing of those who were suffering from various ills then took place and ten persons in all were anointed for all types of afflictions and several reported immediate relief. During this period of the service the song "The Great Physician is Now Here' was rendered by all. The service was closed with prayer by Rev. Abram Shaffer.

The service was opened with the usual congregational singing directed by Mrs. C. H. Erickson. The Alliance Colored Quintet then followed with a number of selections.

Featuring the evening was the presentation of a check for $10 in behalf of a class of the New Bedford M. E. church. "Obstacles of Faith" will be the topic this evenig at 7:30 o'clock. Saturday evening Evangelist Erickson states will be another of those special request nights. Sunday afternoon he will preach again on "The Holy Spirit.'

During the service Thursday evenig Mrs. Erickson rendere a special solo "There's No Disappointment in Heaven."

CONSTIPATION CAUSES NIGHTMARE DAYS

But the road to relief is simple

What a terrible thing it is to drag through the days! Dead-tired. Listless. With aching head and drooping shoulders — telltale symptoms of neglect! Yet, constipation is making life just such a round of despair for thousands of men and women. And leading to serious disease in the end.

What a pity they don't know that ALL-BRAN is guaranteed to give prompt relief—safe and easy prevention. Kellogg's ALL-BRAN is 100% bran — 100% effective. Doctors recommend it. Two tablespoonfuls daily — chronic cases, with every meal.

A delicious, healthful cereal—in place of habit-forming drugs. Serve with milk or cream, or with fruit or honey added. Use in cooking too. Sold at all grocers. Made by Kellogg in Battle Creek.

PETER'S ADVENTURES in ANIMAL LAND

BY MRS. FLORENCE SMITH VINCENT

FOOLING THE BUSHMEN BY A CLEVER TRICK

"As she told of the trouble she'd had, tears came to Susan Straw-Neck's eyes.

"'I wandered on and on, frightened and lonely. How I did long for a sight of their bills and tails moving in jerks as the family fed! How often I had laughed at them as I stood on some hummock and watched them.

"'My family is one of the largest in all bird-land and when the folks feed they pack together just as closely as they can squeeze and you would think that all the birds were moving at the same time at some given command. But they are not. Each uses his bill and his tail as he wishes—it just looks that way. But if I had seen the moving mass then I wouldn't have laughed! No sir, I would have cried for joy!

"Suddenly I heard a wild whoop and out from the bush dashed those horrid naked savages. I saw at once that it was I they were after, and I tried to fly, but my wings were wet and I could not use them.

"'Then I took to my legs and ran up hill and I was just about ready to drop when I thought of a trick that would fool them. I darted among that clump of trees over there, and, of course, in they came after me, crashing down the brush and making a terrible racket.

INSTEAD OF COMING BACK TO LOOK FOR ME THEY RAN OUT OF THE BRUSH.

"'I didn't linger long in the clump, though. I ran out on the other side and around the edge of the brush and in again at the very place I had just entered, close upon the very heels of my pursuers, who never dreamed I would do a thing like that.

"'Instead of coming back to look for me they ran out of the brush, as they thought, close upon my tail. And in that brush which they had left, I crouched until dark came and the savages went home.'

"Cormorant's companion stopped for breath, but Cormorant was so interested in the adventure of the four brothers that he begged her to continue.

"'Did Golden-Collar and Miss Susan Straw-Neck really marry and settle down way out there on the plains?' asked he. 'Didn't she ever find her own people?'

"'She never went to look for them,' relied Ibis. 'She was too busy housekeeping, and by and by some dear little nestlings came to live in the beautiful home that she and Golden-Collar had built.

"'Then neither she nor her husband could think of much else but finding enough food to make the babies fat and teaching them the things that every little Ibis should know.

"'But one day, so the story goes, Susan Straw-Neck was housecleaning while Papa Golden-Collar was showing the children the proper way to catch a grasshopper on the jump, when Susan saw in the distance a crowd of birds, and even far off as they were, there was something about them that seemed familiar.

"'Susan could not wait until they had reached her, but ran to meet them, and when she had gone only half way she was quite sure that the strangers were no strangers at all, but her own dear brothers and sisters. She took to her wings and appeared among them quite out of breath.'"

FOUR PERSONS MEET VIOLENT DEATHS AT YOUNGSTOWN

YOUNGSTOWN, O., Nov. 9.—Three persons are dead in traffic accidents here. Mrs. Louise Seidel, 69, was a passenger in an automobile which sideswiped another. George Gilda, 25, died from injuries received when his machine crashed into a street car. Cort Frye, seven, paper carrier, was killed when struck by a car while carrying papers.

Clarence Wiggins, 35, was killed at the plant of the Youngstown Sheet and Tube Company when a charge of dynamite exploded prematurely. He had been with the company all of his life.

How irritating to hear youth complain that the day of opportunity is past when there may be a vacancy on Philadelphia police force any day.

New Band Uniforms Arrive At School

Principal F. L. Orth of the senior high announced today that the new flashy band uniforms for the band have been received.

The New Castle band will wear the uniforms for the first time on Saturday at Greensburg where the New Castle football team meets the Greensburg team. Principal Orth also stated that the suits were in perfect shape and that they had not been damaged on the way.

Science Club Is Formed At George Washington High

Frank Baldwin President And Clyde Gibson, Jr., Secretary

One of the most prominent organizations at George Washington Junior High School is the Science club, newly organized under the supervision of Ralph Lingerman, the Science instructor. The club, as the name suggests, has to do with the study of scientific subjects and events of note.

In the meeting on Tuesday the election of officers was the main business, Frank Baldwin was elected president; Clyde Gibson, secretary. After the election a lengthy discussion took place and topics of interest were discussed. The subject of magazine subscriptions was first brought up and it was decided that subscription blanks be procured for certain scientific magazines to use in club discussion.

Future program and activities were talked of and suggestions made concerning trips to be taken. After some suggestions for a name for the club the meeting was adjourned.

POSTOFFICE AUXILIARY MEETS

Members of the ladies' auxiliary of the New Castle association of the Federation of Postoffice Clerks met at the home of Mrs. Clyde Stevens, Du-Shane street, on Thursday afternoon.

The regular auxiliary meeting took place with 10 members in attendance. A letter from the secretary of the National Association of Postoffice Clerks was read and other matters of routine business discussed. Following the meeting refreshments were served by the hostess, assisted by Mrs. George Owen.

The next gathering fo the auxiliary will occur at the home of Mrs. William McIver, 116 Edison avenue, on Thursday afternoon, December 6, at 2:30 o'clock.

Athletic Program For Y Is Planned

West Central Y. M. C. A. Physical Directors Meet Thursday

Walter E. Kirker, physical director of the New Castle Y. M. C. A., attended a meeting of the West Central Y. M. C. A. physical directors society, which took place Thursday at New Brighton.

The program for athletic activities of the district were outlined at this time, and further to discuss plans for winter sports another meeting will take place at Butler on November 19. C. W. Miller, a state officer, will be on hand to take charge of the state's part of the work.

New Castle is now in a new district, announces Mr. Kirker following the meeting. The cities now in the district with New Castle are Butler, Sharpsburg, Tarentum, New Brighton, Sewickley and Coraopolis.

FIRST BOTTLE HELPED HER

Keeps On Taking Lydia E. Pinkham's Vegetable Compound

Philadelphia, Pa.—"I always use Lydia E. Pinkham's Vegetable Compound before and after childbirth. I am a mother of three children—two little girls and a baby boy. I would get rundown, nervous, dizzy and weak sometimes so I had to lie in bed. I would take the Vegetable Compound as a tonic and I always saw an improvement after taking the first bottle. I found it to be a good tonic. I always recommend your medicines to my friends and I cannot speak too highly of them."—MRS. ANNA LOUDERBACK, 1607 S. Front Street, Phila., Pa.

Red Cross Board Convenes; Annual Roll Call Discussed

Chairman Of County Drive To Be Named At Later Date

No selection of a chairman for this year's Roll Call for the Lawrence county chapter of the American Red Cross was made at last night's meeting of the organization's board of directors, Pat J. Dempsey, executive secretary stated today.

A discussion of the annual drive for the enrollment of members to be held in the districts of this county from November 11 to 29, was carried on among the executives of the chapter. However, the matter of naming a leader for the coming campaign was deferred until a later date.

Secretary Dempsey gave his report on the recent West Indies-Florida hurrican relief fund which was sponsored by the chapter. Following this, Mrs. C. J. Kirk, vice chairman in charge of the organization's Christmas gifts, announced that 15 Christmas bags have already been forwarded to national headquarters for distribution among those in the foreign service of the United States army, navy and marines.

Walter W. Braham, chairman of the Lawrence county chapter, presided over the meeting. The following directors were present: Mrs. C. J. Kirk, Clayton H. Reeves, Dr. John A. Meehan, Jack Herbert and Secretary P. J. Dempsey.

Ordinary Person To Enjoy Golf

Council "Rides Along" With Committee Working On "Muny" Course

Council today harkened to the plea of "Bill" Offutt and "Jim" Smith Sr., and appropriated an additional $1,500, for continuation of progress on the Municipal Golf course and if everything goes the way the gentlemen say it will, and there is no reason to believe otherwise all will be able to play golf at an insignificant cost here next summer.

For years there has been an impression that none but the "rich" could play golf, first because one had to belong to a club which cost more than the ordinary worker could pay in dues and again for the cost of equipment and golfers' togs.

When golf enthusiasts here set about to put over a golf course they met with enthusiasm from persons who do not know what a brassie is or even a "birdie"—the said enthusiasm for golf arising from a desire to learn.

City council listened to the men and the idea was "sold" and the municipal farm and other land was acquired. The work started and while some reports say the cost has been large, Offutt and Smith today said the real cost so far is about $3,500.

They recited the progress made today and council was pleased and when the two members of the committee said $1,500 additional is needed for the balance of the year so greens can be seeded, council provided the money.

Greens which cannot be seeded this year will be seeded in the spring and play will start July 4. The committee told council that the Carnegie Steel and New Castle Water company have furnished material, equipment and men which have saved the city money.

TWO MORE SPEEDERS PAY CITY FINES

A. H. Bartlett and J. Earl, ordered into police headquarters by Motorcycle Officer Augostine for exceeding the speed limit of fifteen miles an hour through the Highland School zone, paid fines of $10 each.

The police plan to continue to enforce this regulation rigidly until the motorists have shown a general tendency to obey the regulation and go slowly through the school zones.

We are an idealistic people, and the only real dollar chasers we have are speed cops.

APPROVE PAYMENT.

Council met in city hall today and voted $816.29 to M. J. Scanlon as second installment for paving of Haus avenue.

Farm Girl Weds Her Prince; But She Lived On Country Estate And Studied Abroad

By KEEN A. RAFFERTY
Staff Writer for Central Press and New Castle News.

ELLICOTT CITY, Md., Nov. 9.—Maybe this would be one of those Cinderella stories if the girl in the case weren't more than just a farmer's daughter. The fact is that Miss Dorothy Riggs is the daughter of a gentleman farmer whose estate is Meadowbrook, near here, and her family is possibly as illustrious as that of her prince.

The prince is Baron Hans Wiprecht von Barby, of Germany, and a few days ago Miss Riggs became the Baroness Hans Wiprecht von Barby.

Miss Riggs, daughter of Mr. and Mrs. Augustus Riggs III, thus saw the consummation of her romance in spite of the fact that years and half the world had divided her and the Baron.

Six years ago they met in Germany. Miss Riggs had been sent there to be educated, and she lived at the home of her aunt, the Baroness von de Heizer, who before her marriage was Miss de Murguindo, daughter of General de Murguindo, once consul general of Uruguay in Baltimore.

Baroness Wiprecht von Barby.

Met at Party.

Near the aunt's estate was the residential seat of the Baron and the Baroness von Barby, and the son of that noble couple met the young guest in the von de Heizer home.

The romance progressed, only to be interrupted two years ago when Miss Riggs had to return to her home and when the young Baron went to China for two years. But the mails were in good working order, and the young people made constant use of them.

As a result of their correspondence, their engagement was announced recently, and a short time ago the Baron arrived in the United States to take as his bride the gentleman farmer's daughter whom he met as a school girl in his Fatherland.

At least Cain didn't call it patriotism.

Passport Visas Are Dropped By Europe

Many Nations Will Stop Practice To Encourage Tourist Travel

(International News Service)

BERLIN, Nov. 9.—Although the official summer "tourist season" ordinarily ends with August, September and October saw some 4,000 American visitors in Berlin. Once more, too, as in the preceding months, they far outnumbered the guests from any other one country.

Even the neighboring Austria, which formerly furnished the largest contingent of tourists from other lands, was represented in September by hardly more than half as many visitors as America. Almost 5,000 non-Berliners were attracted to the German capital every day during the month.

The growing realization of the importance of the tourist traffic—and not merely from an economic viewpoint, but also as an important factor in furthering cultural and political relations among the nations—has just resulted in adding several more European countries to the list of those that have abandoned the requirement of a visa on foreigners' passports.

Tsar Was Murdered Is Claim Of Soviets

Deny Claim That Ex-Ruler Of Russia Is Still Living In Secrecy

BERLIN, Nov. 9.—Czar Nicholas II, the Czarina, and the whole Imperial family are not dead at all, the Russian Prince Galitzin-Muravline claims in the Hungarian government paper "Nesmzeti Ujsag."

They escaped, he asserts, the very same night of August 18, 1918 on which their execution had been ordered. Lenin, however, to hide the failure of the executioneers and to make the Russia monarchists believe their ruler was dead, ordered that the story of the Imperial family's annihilation be spread abroad.

Czar Nicholas, Prince Galitzin believes, is enjoying a more or less pleasant family life somewhere, awaiting the hour which he thinks suitable to return to the world stage again.

In the meantime, however, every Russian who pays allegience to another Czar breaks his oath to Czar Nicholas II. Prince Galitzin declares.

The Soviet Embassy says the Prince's story is nonsense.

Women Fliers Plan New Atlantic Flight

Thea Rasch And Actress May Fly From Berlin In Spring

(International News Service)

BERLIN, Nov. 9.—Lilli Dillenz, beautiful Viennese actress, and Thea Rasche, noted German aviatrix, are secretly preparing a transoceanic flight from Berlin to New York next Spring. Thea Rasche will pilot.

Frau Dillenz has twice attempted to make a transatlantic flight. Her first attempt failed when bad weather stopped her flight at the Azores. This spring she organized a second attempt and was just about ready to purchase the Junker's plane "Europa", sister ship of the Bremen in which Koehl and Huenefeld crossed the Atlantic when her German backers withdrew after a dispute.

Thea Rasche, too, was balked in her attempt to fly from America to Europe by differences with her backers.

Berlin Zoo Hall Is Converted Into Bath

Swimming Basin Will Be 160 Feet Long; 800 Dressing Rooms

(International News Service)

BERLIN, Nov. 9.—The great Exposition Hall at the Zoo is to be converted into a public bath, with every imaginable convenience and luxury. The swimming basin will be more than 160 feet long 46 feet wide. Elevators will carry the guests up to the 800 dressing rooms and to the springboards.

The establishment will include a gymnasium, buffet and bar, medical baths and dancehall and galleries accomodating several thousand spectators. It will be the greatest establishments of the kind in Berlin.

Now in Cuba they do things differently. In the election held there, they had but one candidate for president. It seems to be conceded he was elected.—The Saginaw Daily News.

Less Furnace Tending with Youngstown Domestic

COKE

Coal in its most efficient form

HEAT your house with coke—and enjoy a greater freedom from furnace tending. Coke lessens furnace drudgery because it requires less attention than coal—the fire needs less stoking, less shaking down, less draft adjusting and fewer trips to the furnace.

But coke does more than reduce the physical effort of furnace tending — it makes a warmer, more uniform fire which means a more comfortable home to live in. Temperatures can be kept less fluctuating with less effort. And then, too, coke is clean. It is coal with its soot and dust removed. It is concentrated heat — easy to burn, easy to handle and high in heating efficiency—and it is available in the Youngstown territory at almost the same cost as soft coal.

"IS PLEASURE TO ENDORSE KONJOLA; IT IS WONDERFUL

Well Known Farmer Declares His First And Only Relief Came From This New Medicine.

MR. A. G. KYLE
Photo By Seavy's Studio, East Washington Street.

New fame and friends are being won daily by the new medicine, Konjola, as the news of many remarkable recoveries wrought by this master compound is spread about by those who have found new and splendid health in Konjola, when all other medicines and treatments had failed. Indeed, it seems that this master medicine is at its best in these stubborn cases. Just how Konjola achieves these astounding successes is being explained by the Konjola Man, who is at the Love & Megown drug store, 204 Washington street, this city. Here seekers after health will learn what this super-remedy has meant to thousands whom Konjola has made well again. Among these is Mr. A. G. Kyle, farmer, R. R. No. 4, Volant, near New Castle. Rejoicing in newly found health, Mr. Kyle said to the Konjola Man:—

"It is a pleasure to endorse Konjola; it is simply wonderful. This master medicine has completely restored my health, after long suffering from kidney troubles that would not yield to any medicine or treatment I tried. I suffered intense pains in the back, and at night had to rise numerous time. This wrecked my rest, and I was failing generally in health. My system was filling rapidly with poisons that the kidneys did not throw off, and I was alarmed over my condition. Fortunately for me, I met my friend, John Sontag, who told me what Konjola had done for him, and he urged me to give this new medicine a trial. The results were a great surprise, and four bottles of this wonderful compound affected a complete recovery. My back ache has disappeared, I sleep well at nights and now I am gaining in strength day by day. I could feel the ingredients of Konjola working on the kidneys and my recovery was quick right from the start. My wish is that my experience with this great medicine will become known to all who suffer as I did, for I know Konjola will solve all their health problems."

Almost invariably Konjola brings quick results as in this case. Its 32 ingredients, 22 of which are the juices of medicinal roots and herbs, work on the ailing organs. These are strengthened and invigorated; the blood-stream is enriched, and soon pain and suffering yield to the return of new and lasting health.

Konjola contains juices from 22 plants—more than other medicines. It is a new compound that works with the sufferer's food, restoring more healthful action to the important organs (stomach, liver, kidneys and bowels) and producing new energy and glorious health in a natural way, thru the entire inner-system.

Flowers Preserved By New Processes

Vienna Botanist Devises Method Whereby Cells Are Not Destroyed

(International News Service)

VIENNA, Nov. 9—A new process for preserving flowers and other plants in any stage of development and for any length of time, has been discovered by Dr. Paul Tratz, director of the Salzburg National History Museum, according to a recent announcement.

The new process, prevents decay of cells, and consequently the plants retain their natural color and form, and a perfectly life-like appearance.

A collection of plants treated by the new process is now being prepared in the Museum, which will be the only collection of its kind in the world.

Grand Jury Frees Alleged Slayer

WASHINGTON, Pa., Nov. 9.—William Brown, colored, held on a charge of fatally wounding James Jones, also colored, at Bertha, near Burgettstown, was discharged by the grand jury. Facts presented showed that Jones had first fired upon Brown and that Brown was fleeing and shot in self-defense.

The quarrel originally started in a card game in which Brown lost $10 and demanded that Jones return it, which he did. Later Jones asked him to his home and opened fire on him with a revolver.

Yale Memorial Fund Increased

Kohut Foundation Enables Students To Study Languages Of Ancients

(International News Service)

NEW HAVEN, Nov. 9.—Dr. George Alexander Kohut of New York has increased to $20,000 a fellowship for research in Semitics that he gave to Yale some 10 years ago as a memorial to his father, the late Dr. Alexander Kohut. Dr. Kohut gave Yale the Kohut collection of Judaica, and within a year furnished $5,000 for the increase of the collection by occasional purchases.

Under the Kohut foundation Dr. Ettlaine M. Grice began a thesaurus of Babylonian and Assyrian cuneiform signs. On her death a year ago the work was taken up and is being completed by Prof. Ferris J. Stephens.

BUTTON DOLLS

To make a clever button doll, select a flat white button and paste it on the top of a sheet of white paper. The two holes form the eyes of the doll and a little nose and mouth must be drawn beneath them on the button. Curly or straight hair is then inked all over the top and sides of the button, and lo, you have the face of your button dolly complete. Next draw a body beneath it, on the white paper. Clothes may be merely drawn and then colored, or you may make a dress or suit from a piece of cloth you found in Mother's "scrap-bag". A whole family of dolls (use different sized buttons) may be made on one large sheet of paper, and what fun you will have with them!

THE GAME OF "RHYMES"

To begin the game of "rhymes" one of the players says, "I'm thinking of a word that rhymes with rip" (though any word may be chosen.) Then each player in turn tries to think and guess what the word is by asking a question, thus: "Is it something that sails on the sea?" If wrong, the thinker replies, "No, it is not a ship." Another perhaps asks, "Do we partly speak with it?" No, not lip." "Can we do it with a rope?" asks a third. "Yes", answers the thinker, "the word is skip". Then the guesser chooses a word and the game begins again.

GEMS FROM THE BOOK OF KNOWLEDGE

Question: Why are some people dark and some fair?

Answer: If we examine with a micro-scope the structure of the skin in animals or human beings, we find that it is made up of numbers of cells arranged in layers. Among these cells are found coloring matter, or pigment, as the artists call it; and it is the quantity of this coloring matter present in any individual which causes the complexion to be called fair or dark. In very fair people there is very little pigment. In very dark people, with brown eyes and black hair, there is a great deal of pigment; while others with not very much pigment are neither very fair nor very dark. This pigment goes on being produced for many years; but when it ceases the hair becomes gray, because it is no longer colored. We see this usually in dark people.

POEMS EVERY CHILD SHOULD READ

Foreign Children, by Rob't L. Stevenson

Little Indian, Sioux or Crow,
Little frosty Eskimo,
Little Turk or Japanee,
O! don't you wish that you were me?

You have seen the scarlet trees,
And the lions over-seas;
You have eaten ostrich eggs,
And turned the turtles off their legs.

Such a life is very fine,
But it's not so nice as mine:
You must often, as you trod,
Have wearied, not to be abroad.

You have curious things to eat,
I am fed on proper meat;
You must dwell beyond the foam,
But I am safe and live at home.

Little Indian, Sioux or Crow,
Little frosty Eskimo,
Little Turk or Japanee,
Oh, don't you wish that you were me?

WORTH-WHILE DEEDS OF YOUNG FOLKS

In Belfast, Maine, the thrilling battle of Lawrence Cole, young high school graduate, with a nine-foot shark, in which he killed the huge fish with a knife, was described here by Charles Marsano, who saw the monster on the beach.

Cole, with a 10-year-old companion started to row offshore at Babson Island to look over Babson weirs, of which he is caretaker. As Cole neared the shark he struck it with an oar. The big fish splashed about, throwing several bucketfuls of water into the small boat every time its tail struck the surface.

Cole tried to drive it out of the enclosure. Failing in this, he drew his knife and jabbed time after time at the monster, finally killing it. Presence of mind, the most valuable possession a person may have, was what saved the lad and killed the big shark.

A REGULAR FELLOW

The district No. 9 schoolhouse was in an uproar the first day of school. Instead of stern-faced Mr. Largren sitting at the front of the room just as he had sat for 10 years facing a score of awed child faces, a young, pretty little miss, who was smaller than most of the big boys who sat in the back of the room, tried to keep order. But it seemed that her commands fell on deaf ears, for the boys who had been restrained by the rod for so many long years now felt that the time had come to break loose and so the air was filled with paper wads and the sound of loud, raucous voices. So this was the new teacher. Well, they would show her that she needn't try to rule them, for they intended to do just as they liked now that old Mr. Largren had resigned his "reign of terror".

Miss Lucy William faced the noisy room with great presence of mind. Finding that she could not make herself heard, she took a piece of colored chalk and wrote firmly on the blackboard:

John Pearson, Bill Whitacre and Herb Perotti please come to the front of the room.

The three mischief-makers looked at one another and then at the teacher. Pooh, she couldn't hurt a fly and besides, it would seem as if they were afraid of her if they hesitated; and so the three culprits marched boldly to the front of the class. Why, the worst she could do would be to threaten to tell their fathers, and the boys were sure they could squirm out of getting a "lickin'" if she did.

To their surprise, Miss Lucy, looking at them pleasantly and even kindly, said, "I believe you are the biggest and strongest boys in the class, aren't you?" And then as they unconsciously straightened their shoulders, she asked,

"I wonder if you would keep the younger boys quiet? They are much younger than you, and I'm sure you are strong enough to control them."

The three lads, eager to show their authority over the younger boys, soon had them in order and then Miss Lucy proceeded to get the name, grade and address of every pupil. Next they were seated alphabetically and school work began in earnest. The older boys behaved fairly well the rest of the day, but secretly they confided to one another that they were going to make it uncomfortable for that "sissy" teacher.

(To be continued next week. Watch for what is going to happen to our little Miss Lucy.)

Grove City Polls Extra Heavy Vote

Electors Give Hoover Large Majority; 2854 Cast Ballots

GROVE CITY, Nov. 9.—With 2854 votes cast in the six precincts of Grove City the electors here polled a vote that surpassed any previous total by more than 600 votes. In a final count in the six precincts, Hoover was given 2550 to 265 for Smith.

Early voting was a feature of Tuesday, such as the town has ever seen and much credit was given to the Hoover-Curtis club in their efforts along this line. No precincts were rushed at the last minute as a result and the voting which remained steady during the day was done in a very orderly and systematic manner.

Ray McKay, locan man and Rev. Hugh Stevenson of Farrell for Assembly, polled record votes in all the local precincts. Many voters paid little attention to the Amendment voting except the Amendment 13th which was for voting machines and this carried by a large majority.

Grove City made several bids for distinction Tuesday. In the second precinct of the second ward, 163 voters cast their ballots in 160 minutes, which is believed to out-rival anything for speed in this section.

In addition, among the voters who cast their ballots was Col. N. J. Maxwell, aged 94, who registered his approval of Herbert Hoover. He has voted for every Republican candidate for President since Buchanan.

WHAT WIFE SAYS IN HER SLEEP IS NO GROUNDS FOR DIVORCE

UNIONTOWN, Pa., Nov. 9.—What a woman says in her sleep, even if she does mention the name of another man, is not grounds for divorce, according to Judge John Morrow, who refused to grant a decree to John Zimmerman of Indian Head, who had filed proceedings against his 19-year-old wife, Golda. Zimmerman said his wife awakened him by her caresses, at the same time calling the name of "Alf" in endearing terms.

At another time when the couple went swimming, Zimmerman alleged that his wife pushed him away from a boat in an attempt to drown him. He also complained that his wife compelled him and his 12-year-old daughter by a former wife to do most of the housework.

With respect to Alfred Gallagher whom the husband alleges is the "Alf" the wife mentioned in her sleep, the court ruled that no evidence of any consequence had been introduced. An endearing letter from Gallagher to Mrs. Zimmerman was found in a bureau drawer, declared the husband.

Poorhouses Fewer Have More Inmates

Wisconsin Statistics Show Inmate Decrease Over 1919

MADISON, Wis., Nov. 9.—That the number of inmates in the various county and city poorhouses in Wisconsin has increased by almost one-third—31.2 per cent to be exact—since 1919, and that 8.4 per cent of this increase is in the number of male inmates is shown by the last report of the state board of control. During this interval the number of poorhouses within the state has decreased.

On June 30, 1919, there were 49 county and five city poorhouses in Wisconsin, containing a total of 1,745 inmates. With the last report there were 45 county and three city poorhouses with a total of 2,293 inmates. Thus, while the number of institutions has decreased by three, the number of inmates has increased by 548.

Of the poorhouse inhabitants in 1919, 1,317 were male and 429 were female. The correspondiny figure now shows 1,725 male and 568 female paupers in Wisconsin.

Wisconsin's poorhouses have 1,175 people over the age of 70.

Simple Way to Be Rid of Gas

PEOPLE who belch after eating may not realize that the cause is excessive gastric acid. Or may not have been told how easily this may be remedied. Quick and complete relief can be obtained by taking a little "Pape's Diapepsin" after eating or when pain is felt. Remember this for your comfort, and lest that constant gas on the stomach does not drift into gastritis!

"Pape's Diapepsin" instantly neutralizes the excess stomach acid and soothes, heals and strengthens the inflamed stomach lining, thus promoting normal, painless digestion and helping to prevent future trouble.

For many years millions have used and recommended "Pape's Diapepsin" for the speedy and sure relief of indigestion and allied stomach troubles. Follow their example! Get a 60-cent package of "Pape's Diapepsin" from any druggist; no matter how severe your stomach troubles you will get relief.

Incomplete National Vote Gives Hoover 5,000,000 Over Smith

NEW YORK, Nov. 9.—Additional and slowly incoming figures on Tuesday's election only served to emphasize today the magnitude of Herbert Hoover's electoral and popular vote victory over Governor Alfred E. Smith.

Final and official figures probably will not be assembled for several weeks yet, but incomplete and unofficial figures indicate that the popular vote cast will reach approximatly 35,000,000.

There has been no change in the electoral table since Texas flopped over into the Hoover column, adding her 20 votes.

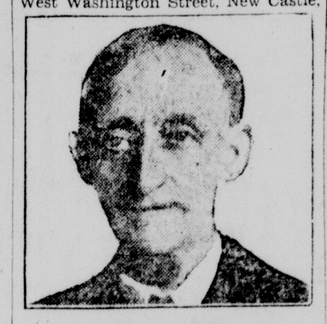
Another Local Man Is Helped Back To Health

Tells How Ten Herbs Ended Indigestion, Gas, Dizzy Spells, And Pains.

"Since taking Ten Herbs, my health has been greatly improved, and I am better able to perform my work as a railroad man," was the recent statement of Mr. Henry C. Turney, 1109 West Washington Street, New Castle.



MR. HENRY C. TURNEY

to the Ten Herbs Man, who is at Eckerd's of New Castle, Inc., 30 East Washington Street, this city, where he is daily demonstrating this celebrated new compound to crowds of men and women of all ages and stations in life.

"Before using your medicine, I felt as though I were getting old before my time," Mr. Turney continued. "For a long time I had a severe pain after eating. Everything I ate seemed to disagree with me, and I kept losing weight. I had headaches continuously, and was troubled with dizziness. There were pains in my back and sides. My rest was broken by having to arise several times during the night, and I became very nervous. My complexion was very sallow.

"I knew several persons who had been greatly benefited by Ten Herbs, so I decided to try your medicine. I bought a bottle and was very much pleased with the results. Before long I was rid of that severe pain after eating and able to eat regular food without having any distress afterwards. Gas and nausea disappeared. Severe headaches and dizzy spells left me, and the pains in my back and sides were relieved. I enjoy restful sleep at night, and my complexion has cleared. I think Ten Herbs is a very fine medicine and should be more widely known."

Are you weak, nervous, depressed, or feel all run-down? Does food cause any unpleasant feeling? Are you troubled with biliousness, headaches, dizziness, constipation, pains and aches across the back, rheumatism or neuritis? Take Ten Herbs. If it has helped thousands of others throughout this section, why not you?

The Ten Herbs Man is at Eckerd's of New Castle, Inc., 30 East Washington Street, this city, where he is daily meeting the public and explaining the merits of this medicine.

French Is Official Delegates Language

School Convention At Bucharest Uses French Language For Business

(International News Service)

BUCHAREST, Nov. 9.—French was the official language spoken at the international congress of second instruction recently held in this city. All of the delegates, including Rumanians, Czechs, Poles, Germans, English, Swiss, Belgians, Dutch and Americans pronounced their toasts in more or less perfect French.

There was but one exception: the Italian delegates insisted upon speaking only the language of Dante in public. But unfortunately for them, the second language of the Rumanians is French and not Italian, so it is rumored that the good representatives of Mussolini were obliged to resort to the former when they wanted somethi[illegible] in private.

FRUIT STAINS

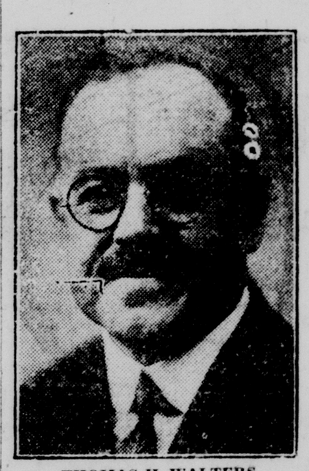
Fruit stains should be treated as soon as possible. Hold the stain over a basin, cover with borax and pour boiling water through.

But why punish a drunk driver and do nothing to the one who drives the same way because he hasn't any sense?

A formal church prayer for Independence Day can't do any harm, but it might do more good on election day.

National Officers To Be Entertained By Local J.O.U.A.M.

E. A. Lewellyn Of Cincinnati, Will Be Guest Here November 14



THOMAS H. WALTERS

The national board of officers of the Junior Order of United American Mechanics are to be the guests of Castle Council in this city Wednesday evening, Nov. 14.

National Councilor E. A. Lewellyn of Cincinnati, O.; National Junior Past Councilor Thomas H. Walters of Philadelphia, Pa., and James L. Wilmuth of Washington, D. C., will have charge of the meeting.

Councils from Butler, Woodlawn, New Brighton, Beaver Falls, Sharon, Greenville, Ambridge, Youngstown, Niles, Warren, Akron, Barberton, Franklin and Oil City are sending delegations to this meeting.

Out of seven official visits in the United States, Castle Council has been honored by the national board. The reason for this is that Castle Council has made such rapid gains in membership as well as the activity displayed along fraternal lines.

Plans are under way to put several new councils throughout Lawrence county and one of the prime motives for this rally in New Castle is to enthuse other councils to try to keep up the pace with New Castle.

Plans are made to have the national officers visit several of our large industries and to be shown over our city. The past councilors association is acting as host to the national board at a dinner in the evening.

Tarred Roads Are New Cancer Cause

(International News Service)

LONDON, Nov. 9.—Gas from the roads are one of the main causes of cancer. The disease has increased tenfold during the last few years as a result of their effects.

This is the latest theory put forward by a British research expert J. Ellis Barker. Meat eating and too hot food and drink are also among the direct causes, according to Barker.

"Cancer mortality is three times as great among large consumers of meat as among agricultural laborers and clergymen, who are too poor to buy meat," he said. "Hot food and drink, particularly drink, are liable to result in cancer of the stomach. Tea or coffee too hot or strong is harmful. To pour a boiling hot drink on an empty stomach is suicidal."

Thank goodness, a man can die without waiting in line.

"Jackie" Coogan Hasn't Much Time For Girls

PARIS, Nov. 9.—"Jackie Coogan, who is a big boy now, denied most vehemently Thursday that he intends to devote any time to the Parisian girl question before he leaves for London. "Jackie" is filling a music hall engagement here, having become known to Parisians in past years through his films.

"All girls looks alike to me," said "Jackie". "Whether they wear pigtails or bobs they are all the same to me. I have seen lots of them. When I was a youngster a lot of women tried to kiss me. Gosh, those were the unhappy days. They don't try that any more. Maybe in 15 or 20 years I might think different about it, though. ("Jackie" is about 11 years old.)

"I would rather be Lindbergh than anybody else. He can sure do his stuff."

Young Mr. Coogan and his father are doing a vaudeville tour. They came here from Marseilles for a two weeks engagement. Later they will appear in London and Berlin and possibly Vienna. "Jackie" has learned French and German songs for his appearance in these two countries.

Women's Federated Clubs

POLITICAL INFORMATION FOR WOMEN.

Women in Congress.

We have four women representatives in the 70th congress. The second or short session wil convene December 3, (this is sometimes called the Lame Duck Session,) there will be a few lame ducks among the male members. We are told that the four women representatives were re-elected.

The present women members are Mrs. Florence Prag Kahn, California; Mrs. Edith Nourse Rogers, Massachusetts; Mrs. John W. Langley, Kentucky, Republicans, and Mrs. Mary T. Norton, Democrat of New Jersey. These women were given companions by the election of Mrs. Ruth Hanna McCormick of Illinois; Mrs . Ruth Pratt of New York, Republicans and Mrs. Ruth Bryan Owen of Florida, Democrat.

The first woman representative in the national house was Miss Jeannette Rankin, she was followed by Miss Alice Robertson of Oklahoma. Mrs. Winifred Mason Huck, Illinois, was elected in 1923 to serve the unexpired term made vacant by the death of her father, Wiliam E. Mason. She served from the opening of the special session until March 4, 1923. Mrs. Huck was reared in a political atmosphere. When fighting Senator Bob LaFollette, Sr., first saw her, he melted immediately. "Lord bless my soul, child; Lord bless my soul," was all he could say.

"Our congresswoman" is wrong address.

"Our representative" is proper ,as congresswoman can also include senator.

In 1922 Wiliam Tyler Page, the accomplished clerk of the house of representatives asserted that there was no oficial authority for the use of the word Congressman or Congresswoman. The constitution describes the house of representatives as composed of "members." It also describes them as representatives .

The convenient word "Congressman" whenever it arose means properly, or should mean a member of congress, and a senator is just as much a congressman as a representative is.

Persons chosen to the house become representatives or members, congressmen they may not me .Congress consits of a senate and a house of representatives.

Mrs. Rebecca Latimer Felton, Georgia, was senator for a day. She was appointed to fill the unexpired term of Senator Watson. Senator-elect George of Georgia agreed to waive the presentation of his credentials for one day to enable Mrs. Felton to be sworn in.

AN EASY WAY TO LOSE FAT

Instead of abnormal exercise or diet, they combat a cause of excess fat. They supply an element Nature employs to turn food into fuel and energy. This method was discovered by research men some two decades ago. It has for 20 years been embodied in Marmola prescription tablets. Millions of boxes have been taken, and almost every circle shows the results in new beauty, new health and vitality.

The formula comes in every box, also the scientific reasons for results. So users have no fear of harm. Go learn now what Marmola does for excess fat, and why. Your druggist supplies it at $1 per box. Take four tablets daily and watch the change.

Delightful! Wholesome! Nutritious! Perfect for Family or Company use.

Sewing Classes To Meet At Mission

The sewing school of the City Rescue Mission will meet on Saturday afternoon between the hours of two and four o'clock to take up their sewing work for the fall and winter months. This sewing school has been conducted from year to year and is always well attended. These little girls who gather on Saturday afternoons are instructed in the art of sewing and are also given the opportunity of taking part in various devotional exercises.

Any little girls in the city who may wish to attend are asked to be present tomorrow afternoon and bring some of their little friends with them. The mission would be glad to have any other ladies who would like to help in the directing of these little ladies be present tomorrow afternoon. Mrs. F. A. Childs will be in charge of the sewing school, assisted by various teachers.

GOVERNOR ELECTION IN MASSACHUSETTS OF INTEREST HERE

In the election of Frank G. Allen as governor of Massachusetts there is more or less local interest especially among the teachers of the Benjamin Franklin Junior High School. Mrs. Allen was formerly Miss Eleanor Wallace of Pittsburgh and is a cousin of Miss Ruth Wallace who has been the instructor of Domestic Science in the Franklin Junior high school for a number of years.

Make Missouri Navigable For Freight Barges

By VERNON E. MOORE
International News Service Staff Correspondent

KANSAS CITY, Mo., Nov. 9.—Making the Missouri River navigable between Kansas City and St. Louis will become a reality in 1929, Maj. Gorden R. Young, who is in charge of the work, predicts optimistically.

Since Major Young came to Kansas City to take charge of the navigation work on the river, 100 miles of the river have been brought under control and made ready for barges, records at his office show.

The mileage is not all in one stretch but is scattered between Kansas City and St. Louis. According to Major Young it included the worst places in the river.

Completed in 1929.

He and his staff estimate that two-thirds of the river is ready for navigation and that the remainder will be completed next year.

A huge map hangs in the private office of Major Young, showing every curve and turn in the river from Kansas City to St. Louis.

The visitor generally finds Major Young seated in his swivel chair staring at the map. It is his battlefield and in it he has pins with red, blue, white and yellow heads stuck at various points, showing the location of the few remaining bad points in the river.

Thirty pins are in the 500 mile stretch today. Of these five represented projects under way by the government forces with hired labor; fourteen represent projects under way by outside contractors; the remainder of the projects are to be moved on later and finished before December.

Many at Work.

About 2,000 men are working on the river projects, Major Young said. The work this summer was slowed up by unfavorable weather conditions until the middle of August, but now with the ideal fall weather setting in, crews are getting ahead of schedule, Major Young said.

Recently $800,000 was apportioned to Major Young's division of the navigation work on the Missouri River to keep up with the costs incurred by getting ahead of schedules.

The total to be expended by March 31, 1929, will be $3,650,000.

Major Young has been called away from his office here several times during the last year on account of his knowledge of flood relief work on the Mississippi river.

Make Effort To Stay Execution Of Toledo Slayer

Stanley Hoppe, Toledo Taxi-Driver And Child Slayer Scheduled To Die Tonight

(International News Service)

COLUMBUS, O., Nov. 9.—Another last-minute fight to save the life of Stanley Hoppe, confessed Toledo child slayer, from the electric chair in which he is sentenced to die tonight, was waged here today by Eldon H. Young, Hoppe's attorney.

Previous pleas, both to the court of appeals and to the state supreme court, have failed. The board of clemency has yet to decide what recommendation it will make to Governor Donahey on Hoppe's plea for commutation of sentence, while Hoppe's attorney maintained that the petition "as of right" filed Tuesday in supreme court, automatically stays sentence until the motion is decided.

When this legal angle was presented to Warden Preston E. Thomas of Ohio state penitentiary, who has been making preparations for the carrying out of the death sentence, he said, "If the attorney general rules Young is right, the execution will be stayed. If he holds the attorney is wrong, it will go ahead as scheduled."

A board of alienists yesterday declared Hoppe to be neither insane nor feeble-minded, thus destroying the most the last vestige of hope for the confessed murderer.

All are weak and the man who hates hypocrites will tell Willie to look up the word himself and he'll remember it better.

Budding is now the usual way of propagating fruit trees but grafting still serves to establish family trees.

No matter how it goes the few who remained loyal to the old party will have a better chance at the post offices.

Well, the campaign managers who don't get appointments can get nice jobs writing resort literature.

A good name, like great riches, is often faked.

RUSH TO BUY GENERAL MOTORS

Price Is Forced Back To Friday's Close After First Rush However

(International News Service)

NEW YORK, Nov. 9.—Sky-Rocketing of the high-priced industrial stocks and specialties, the over-bulled mercantile shares and the technically cornered pool "pets" took active form again today as buying demand swept over the big board from all parts of the country. The tickers were clogged, trading was handicapped and reliable quotations obtainable only through special channels.

After the first rush to buy General Motors had forced that stick up a few points at the opening the paper profits were cashed in on a tremendous scale, forcing the price back to the level of Friday's close. A span of 45 minutes between ticker quotations and actual transactions on the floor handicapped speculation.

Banks sent hurried calls into the call loan market and the rate moved up to 7 per cent. The bulls tapped new sources of money in the outside market, indifferent to the cost of money as long as there was a generous supply.

Early in the afternoon the commission houses sent out bulletins that the pace of the market had been too swift and suggesting a lightening of the load. General Motors, U. S. Steel and the Oil and Copper stocks were thrown on the market heavily, blocking advances in the prices.

NOTED ARRAY OF COUNSEL IN THRILL MURDER CASE

Three of the foremost trial lawyers of the south have been retained as defense counsel for Richard Gray Gallogly and George Harsh, former Ogelthorpe university students, indicted for first degree murder in connection with the slaying of S. H. Meeks and Willard Smith, grocery and drug store clerks, of Atlanta, Ga. Photo shows (1) Reuben Arnold, who, with Lowry Arnold (2), will defend Gallogly; (3) William Schley Howard, former congressman from Georgia, who has been retained for Harsh; (4) Solicitor General John A. Boykin, who will prosecute the youths; (5) Harsh; (6) Gallogly. The trial is scheduled to open late in November.

Armistice Day To Be Observed At Trinity Church

Armistice Day will be observed in Trinity church next Sunday by appropriate prayers, specially selected hymns and anthem and sermons. At the 11 o'clock service the subject will be "The Problem of Peace illustrated by the recent Political Contest." The rector will have some very pointed observations to make from the Christian point of view upon "war against war," how to carry it on and how not to wage it. Opportunity will be given to sign the petition suggested by the Commission of International Justice and Goodwill of the Federal Council of Churches of Christ in America. It has to do with a very important factor, namely that the Paris Peace Pact, proposed by Mr. Kellogg our Secretary of State, has not yet been approved by the President of the United States and the Senate, and that it will come up at the next session of congress.

Not the least important part of the service will be the remembrance of those of all nations who gave their lives during the World war and as a result of it.

You have to cultivate good habits. The bad ones grow wild.

Arguments Made On Two Motions For New Trials

Judge Reeder Of Beaver Sits With Judge Hildebrand On Local Bench

Arguments for new trials are being heard by Judge R. L. Hildebrand and Judge Reeder of Beaver at the Lawrence county court house today in the Barteaux-Stoughton and Lindsay-Stewart cases. Judge Chambers was interested in both cases and could not sit on the bench during the arguments. The law provides, however, that where there are two judges in a county, such arguments must be heard before a full bench, hence it was necessary to summon Judge Reeder. The Barteaux-Stoughton case is one involving the will of the late Jennie Stoughton, in which a verdict was found for Barteaux. The Lindsay-Stewart case grew out of some real estate transactions at Bessemer in which Stewart furnished the capital to build some houses and Lindsay had charge of the work. A controversy arouse over an accounting by Lindsay to Stewart, and considerable testimony has been taken at different sessions of court, an award finally being made to Stewart.

Small Fire Does But Little Damage

Company 6 Answers Alarm To West Washington Street Home

Originating in a waste paper basket in the pantry of her home, fire did damage approximated at $15 to the house of Mrs. William Alexander at 910 West Washington street at 10 o'clock, reports Fire Chief Charles H. Lynn.

Company No. 6 answered the alarm. When they arrived at the house they found Mrs. Alexander had extinguished the blaze with a few bucketsful of water.

Recount Likely In Philadelphia

(International News Service)

PHILADELPHIA, Nov. 9.—A recount of the votes cast in the first congressional district here last Tuesday will be demanded if Congressman James M. Beck is returned the winner over William J. Rooney, Democrat, it was indicated today.

Beck's followers now claim victory by 16 votes while the Democrats also claim victory by about the same majority.

The official count of the votes in this district will not be completed for about three weeks. In the meantime both sides add to their claims of victory and charges and counter charges stir the political factions.

ECKERD'S CUT RATE STORE INVITES KIDNEY, BLADDER AND RHEUMATIC SUFFERERS TO GREAT MEXICAN HEALTH DEMONSTRATION

Local Residents Joyous as Supply of Genuine Mexican Maguey Sap, Cut Off for Months, Just Arrives Here—Tell How MATAMEL CURBS NIGHT RISING, KIDNEY PAIN, SWOLLEN LIMBS AND JOINTS.

Clip Coupon--Save $1.15

Mexico City—Good News! You readers who have suffered terrible agony with certain forms of kidney and bladder weakness, here at last medical science comes to your aid.

Thousands have heard about Matamel—thousands have written words of praise about it. Now comes such eminent professors as Dr. C. of the University of Edinburgh to endorse the remarkable health-bringing properties contained in Matamel.

So amazing is Matamel in its action that within a few days you can feel the abundant new strength and vigor in every muscle and nerve in your body. As Matamel purifies your bladder passages, helps your kidneys to excrete irritations, you find yourself eating better and feeling like a new person in every way. Bowels act. Sleep becomes sound. No more dizzy spells, headaches and tired-out feeling—No more backache—no more swollen legs or puffed eyelids—due to faulty kidney elimination.

What Doctor's Magazine Says:

"Numerous contributions have been made to medical literature on the value of the sap of the maguey (contained in matamel). In the early stages of various affections of the kidneys it has been found to be an almost unfailing remedy."

Mrs. Frank Jowett, says: "I did not have one good night's rest for 5 years. Read in the paper about a friend who used Matamel, and tried it too. I am now able to sleep all night without trouble from my kidneys. Feel better in every way."

The Maguey Plant As It Grows In Mexico. Matamel Containing Its Sap Is Giving Relief To Thousands

STOPS GETTING UP NIGHTS

Countless New Castle people know the story of George Neville, who says:

"I had not slept all night for over 7 years. I was disturbed every few minutes each night and day due to faulty kidney elimination. I was short of breath no matter what I did. Nothing did me as much good as Matamel. I can now sleep all night without disturbance. I feel stronger in every way."

FREE OFFER TO OUR READERS

The regular price of Matamel was $2.65. This coupon entitles bearer to a full sized package of genuine improved Matamel for only $1.50—and Diet Advice Booklet FREE. At Eckerd's of New Castle, Inc., 30 E. Washington Street.

Future Of Radio Is Undergoing Test In Court

Litigation Started By Schenectady, New York, To Test Commission's Power

(International News Service)

WASHINGTON, Nov. 9.—Litigation affecting the entire future of radio was set in motion today when WGY, Schenectady station of the General Electric company, prepared to begin injunction proceedings restraining the Federal Radio commission from putting into effect its recent reallocation orders.

If the station wins its case, and prevents the Radio commission from curtailing its power, more than a hundred of the "little fellows" also affected by the commission order will follow in its trail.

If the big station loses its suit other oppostion to the commission's mandates will be unlikely.

Samuel Jaworski Given Sentence

Brother Of Paul Jaworski, Famous Killer, Pleads Guilty To Aiding Escape

(International News Service)

PITTSBURGH, Nov. 9.—Sam Jaworski, brother of Paul Jaworski, Pennsylvania's most notorious bandit-killer, pleaded guilty in criminal court today to a charge of jail breaking in connection with the sensational escape of Paul from Allegheny county jail in August, 1927.

Sam had previously pleaded not guilty, but changed his plea today.

A younger brother of the two, Tom Jaworski, was arrested today by county detectives.

Sam was sentenced to serve from eight to 25 years in the Western Pennsylvania penitentiary by Judge Ambrose B. Reid shortly after he changed his plea.

Penn State Bond Issue Defeated In Votes So Far

(International News Service)

STATE COLLEGE, Pa., Nov. 9.—With eight counties and a half of Allegheny yet to be heard from the State College bond issue today lacked 16,200 votes of aproval.

The proposed amendment has won in 35 counties and lost in 24, most of the latter in the southern half of the state according to figures compiled by the college.

Five Firemen In Chicago Believed Fatally Injured

(International News Service)

CHICAGO, Nov. 9.—Five firemen were injured perhaps fatally here today when a section of the first floor of a five-story burning building collapsed and plunged them into the basement amid a mass of blazing debris.

A few minutes earlier four men were taken from the building overcome by smoke.

Search continued for three men reported trapped in a corner of the basement.

Five firemen were rescued by fellow firemen working while tons of water were sprayed about them for protection.

Suit To Recover From Bonding Co. Sum Of $85,021

Trustee Of Burns and Burt Bring Action In Lawrence County Court

CLAIMS CREDITORS BEING DEFRAUDED

Attorney Charles R. Davis, trustee in bankruptcy of Burns and Burt, Ellwood City contractors, has filed a suit at the prothonotary's office against The Southern Surety Company, for $85,021.81 with interest from February 19th, 1924.

It is claimed by the trustee that in 1924 Burns and Burt had contracts of improving a section of the Ellwood-New Castle road and a section of the New Castle-Slippery Rock road, east of Harlansburg. The Southern Surety Company was on their bond.

At the conclusion of the contract Burns and Burt went into Bankruptcy, owing large amounts for material and labor. The Surety Company seized the equipment and also money due the firm, an assignment of the equipment to the bonding company having been made at the time the bond was given.

It is claimed by the trustee that the assets of the firm fall about $52,000 short of paying the indebtedness. It is also alleged that the bond was not properly given, and that the Surety Company seized assets, without paying any of the indebtedness on the bond. Davis maintains that the company has no right to have the equipment and money to the exclusion of other creditors.

Former Johnstown Congressman Dies

(International News Service)

JOHNSTOWN, Pa., Nov. 9. — Hon. Warren Worth Bailey, former congressman and publisher and editor of the Johnstown Democrat, died at his home here today. Death was caused by a complication of diseases, following an illness of seven week.

He served as congressman from the old nineteenth congressional district. He had been prominently identified in Democratic politics for many years.

Vincent Rice Is Arraigned Today

Youthful Slayer Of Sweetheart In New York Enters Not Guilty Plea

IS UNCONCERNED IN COURTROOM

(International News Service)

NEW YORK, Nov. 9.—Vincent Rice, 17, of New Brighton, Staten Island, accused of the murder of 15-year-old Alice Joost, entered a plea of not guilty to a charge of murder when arraigned today in Richmond county court.

The youth, who is alleged to have strangled his high school sweetheart with an electric cord because she tried to kiss him, nonchalantly walked into court nattily dressed in an overcoat of dark material, a brown suit and a brown, soft hat. Walking between his escort of two deputies he appeared more like an interested spectator than one about to be arraigned on a charge of first degree murder.

However, when court was called to order his air changed. He glanced furtively about the room and chewed gum nervously, as soon as his attorney made the plea of not guilty, Rice was taken to the sheriff's office to await transportation back to Richmond county jail where he has been detained since the day Alice Joost was found murdered in her home last week.

How slangy it now seems to call a skirt, jane or flapper a "girl."

Woodsman Admits Shooting Recluse

Aged Recluse Lies In Hospital Seriously Wounded; Robbery Is Motive

RECLUSE IDENTIFIES MAN UNDER ARREST

(International News Service)

KANE, Pa., Nov. 9.—The mystery of the shooting of Fred Schober, aged recluse, near his cabin in a forest about 20 miles from here Monday, was believed solved today with the purported confession of Howard Gadley, 35, Marienville woodsman and first suspect arrested in the case.

Gadley is to be given a hearing on a charge of assault with intent to kill at Tionesta, Forest county seat, today. Schober remains in a critical condition in Warren General hospital with a bullet wound through his stomach and right hand.

Gadley confessed to the shooting after Schober identified him as the assailant, according to authorities. Due to his weakened condition, the hermit had been unable to make any identification earlier in the week. The woodsman was brought to McKean county to answer charges of forgery and yesterday state troopers took him to Warren to face the hermit.

Gadley claimed, according to authorities, that he shot Schober with the hermit's weapon, a shotgun loaded with bear ball. He gave robbery as his motive. The shot entered Schober's back and went out through the stomach. The aged man stuffed cotton in his wounds and crawled to the nearest habitation, four miles away, for help.

Germany Celebrates Tenth Anniversary Of Her "Republic"

(International News Service)

BERLIN, Nov. 9.—Today, the tenth anniversary of the Kaiser's abdication and the proclamation of a German republic revealed Germany as somewhat abashed if not "ashamed" of the revolution.

Large numbers of Germans, apparently, are still somewhat uncertain if the republic is "respectable" despite the presidency of Von Hindenburg.

Except for newspaper comment the anniversary passed unhonored and unsung—a more a day of mourning than rejoicing.

Members of the government agreed to remain silent and most republicans did likewise.

Nationalist papers thunder against "German's day of shame" and the 'German Saturnalia".

Communist papers demand a "German Soviet Republic"

Albany Loyal Even In Defeat

Governor Smith Is Given Great Welcome Back To Albany

MAKES BRIEF SPEECH AT STATE MANSION

By RAYMOND I. BORST
International News Service Staff Correspondent

ALBANY, N. Y., Nov. 9.—Governor Al Smith was back home in the executive mansion today, tired but far from downhearted.

He returned to Albany last night more like a conquering hero than a defeated candidate for president. More than 10,000 Albanians cheered the governor from the time he emerged from the Union Station until he set foot on the expansive veranda of the mansion.

The enthusiastic demonstration even surpassed the tribute paid him by Albanians on that night last June when he was nominated for the presidency by the Democratic National Convention at Houston.

The Governor started to ride to the mansion in an automobile but the crowd broke through the police lines and blocked his machine. He jumped out of his machine and started to walk along the street with the crowd to the cheers of "Atta Boy, Al."

With the Governor walked Mayor John Boyd Thacher and leaders of the Democratic party in Albany county. Then came the governor's car carrying Mrs. Smith and members of the family.

When he finally stood on the mansion veranda and told the crowd how glad he was to be back in Albany tears came to his eyes.

"I shall never forget Albany," the governor told the crowd that jammed every bit of space on the mansion lawn. "No matter where I go I'll always remember the people of Albany."

It was plain that the governor was having a hard time to express his appreciation of the reception given to him, a defeated candidate.

The band struck up the national anthem, the governor waved his brown derby and the next moment he disappeared into the mansion.

Early next week he will leave for a three weeks' vacation, probably somewhere in the South.

Police Officers In Heroic Effort To Revive Workman

Officers Thomas Lynch and Charles Longstreth on Thursday afternoon made a heroic effort to revive Ralph E. Payne, the Lehigh Portland Cement company electrician who was electrocuted while at his work.

Mr. Payne, the accident victim was stricken down in what is known as the gallery of the power room. It is situated about 25 feet from the ground and there are numerous high tension electric lines in and about the place carrying 6,600 volts.

These officers took the pulmoter up into this place and made strenuous efforts to resuscitate Mr. Payne who had been terribly burned. They worked about an hour and a half and used five tanks of oxygen but their efforts were of no avail.

Superintendent Kleckner afforded the officers every possible assistance in the performance of this duty.

This is the first serious or minor accident occurring at the plant in a period of 837 days.

Penn. Girl is a Winner

Every mother realizes how important it is to teach children good habits of conduct but many of them fail to realize the importance of teaching their children good bowel habits until the poisons from decaying waste held too long in the system have begun to affect the child's health.

Watch your child and at the first sign of constipation, give her a little California Fig Syrup. Children love its rich, fruity taste and it quickly drives away those distressing ailments, such as headaches, bad breath, coated tongue, biliousness, feverishness, fretfulness, etc. It gives them a hearty appetite, regulates their stomach and bowels and gives tone and strength to these organs so they continue to act normally of their own accord. For over fifty years, leading physicians have prescribed it for half-sick, bilious, constipated children. More than 4 million bottles used a year shows how mothers depend on it.

Mrs. Anna Frank, 1110 North 39th St., Philadelphia, says: "My daughter, Hilda, is a prize winner for health now, but we had a lot of trouble with her before we found her trouble was constipation and began giving her California Fig Syrup. It fixed her up quick, gave her a good appetite, made her sleep fine and she's been gaining in weight right along since the first few days, taking it."

To avoid inferior imitations of California Fig Syrup, always look for the word "California" on the carton.

The trouble with a rosebud mouth is that it remains neutral and expects you to do all the kissing.

The flapper usually can tell a single man from a married one. The single man isn't so darned fresh.

When a man is at peace with himself he's at peace with his God. This is especially true of Mussolini.

It costs $12,000 a year to launder the elephants of a large circus. They are regularly soaped, sandpapered and rubbed with olive oil. Yet very few achieve that schoolgirl complexion.

If he doesn't hire an alienist, that is proof he is crazy.

Princess Murat Granted Divorce

(International News Service)

PARIS, Nov. 9.—The Seine court today granted a divorce to Princess Michel Charles Murat on the grounds of desertion. The princess, before her marriage in Paris on February 5, 1913, was Miss Helen K. Stallings of Cincinnati, O.

Prince Murat has often been involved in litigation in France and America, chiefly suits instituted for debts. In February, 1924, he was sentenced to two months imprisonment by the 12th correctional court in Paris after being found guilty of removing from his home certain properties that had been attached to satisfy a London tailor's bill.

Memories of Ten Years Ago!

...n anniversary, tread of marching feet and martial music —these call up in the mind of the veteran in the picture a vision of that Armistice Day, ten years ago, when, for the first time in four years, shells ceased to burst, bullets to whine on the long line from Switzerland to the sea. The photo above was made by a signal corps officer just before 11 o'clock on the morning of November 11, 1918, in the Meuse-Argonne sector of France.

Brothers Battle In Pittsburgh; One Is Wounded

Fist Fight Between Brothers Leads To Serious Wounding By Gun

(International News Service)

PITTSBURGH, Nov. 9.—Shot by his brother, William, 21, in a quarrel which started over 50 cents, Joseph Wirth, 22, was in a serious condition today from a wound in the abdomen.

Police still searched for William, who fled after the shooting, which occurred in the presence of the nine other Wirth children.

Authorities reported they learned that William secured a revolver and shot his brother after being beaten by Joseph in a fist fight which started after the elder Wirth boy slapped their sister, Margaret, 13, for taking 50 cents from his clothes. The girl, police said, was told by her mother to get the money for an errand.

The parents of the Wirth boys were absent at the time of the shooting.

Council May Decide On Two Additional Traffic Lights

Spring Avenue, Between Fourth And Fifth Streets, Discussed As To Traffic

Traffic Light May Be Placed At Tube Mill Entrance, Corner Spring And First

ELLWOOD CITY, Nov. 9.—At the regular monthly meeting of the borough council which took place Thursday evening in the city building various matters of busines were discussed.

The trafifc question which is growing more difficult here day by day was discussed and J. E. Powell asked that a light be placed at the corner of Spring and First streets, a busy intersection for the mill workers and a dangerous corner when the mill is emptying at night. This request was placed in the hands of the police committee to report back to council. Mr. Powell also recommended that a light be placed at the intersection of Fifth street and Glen avenue, another dangerous intersection at all times.

The condition of Spring avenue between Fifth street and Fourth street was also brought up for discussion regarding traffic congestion. The Harmony cars come in from New Castle and Pittsburgh, parking on that street and unloading freight and together with parked cars on the street make it impossible at times to get through.

No parking signs were placed on the street about one year ago and so many objections were raised by property owners that the order was rescinded. The members of council will now try and come to some terms with the Harmony company toward getting some kind of a terminal built here that will stop the company from discharging passengers in the street. When the Harmony company first obtained the right of way into Ellwod City many years ago it was little dreamed that such a traffic condition would ever arise. Another suggestion was that the Beaver Valley interurban car go around the square to turn around instead of making the turn at the intersection of Spring and Fifth streets, thus delaying traffic for some time. The matter was placed in the hands of the borough manager and borough solicitor.

A petition from the property owners of Crescent avenue requested that a street light be placed at the corner of Eleventh and Crescent avenues. It was signed by 25 petitioners. The matter was referred to the members of the Electric Light committee and the borough manager with power to act.

An ordinance was passed on first reading for the paving and grading of Summit avenue from South to Second street west to the Brighton road, with two-thirds the costs of same assesed on the abutting property owners.

Members of the Rules and Regulations committee requested approval on awarding the heating contract of the city building to Meisel Brothers at a cost of $358. This was approved.

Members of the street committee recommended the approval of the home finance plan of lots No. 2 of South Ellwood Heights providing Hazel and Orchard avenues be extended east across Smiley street to the east line of the property. The first plan of lots was submitted by the Pittsburgh company about three years ago the above being an additional development plan. This approval was granted.

It was resolved by council that $1,950 be transferred from the electric light committee to the street fund for the purpose of improving the corner of Brighton road and Summit avenue. This was carried.

Success Attends Annual Banquet Of Fathers And Sons

ELLWOOD CITY, Nov. 9.—Sixty-five men and boys enjoyed the annual Fathers and Sons banquet in the dining room of the Slippery Rock Presbyterian church Thursday evening.

The speaker of the evening was Rev. A. M. Stevenson of the First Presbyterian church of Ellwood, and he selected as his topic "Relations of Fathers and Sons." He took the relationship from various interesting angles, making a very entertaining discourse out of the theme.

J. M. Houk acted as Master of Ceremonies introducing Charles Wilson, who gave the toast to the sons, and Jack Mentzer, who responded with a toast to the fathers.

The members then repaired to the auditorium where a fine program was carried out, with talent selected from the congregation of the church. The menu was delicious and was served by members of the Friendship Circle class.

Charles Weil Dies At Home Yesterday

ELLWOOD CITY, Nov. 9.—Charles Weil, aged 62, passed away at his home on the New Brighton road Thursday afternoon about 1 o'clock. He had been ill for some time. He leaves his widow and four children.

Funeral services will take place on Sunday afternoon at 1:30 o'clock with Rev. McFarland in charge, and burial will take place in the church cemetery

Office Force Of Tube Mill Enjoys Party Thursday

One Hundred And Eighty Members Of Office Enjoy Card And Dancing At Club

ELLWOOD CITY, Nov. 9.—One hundred and eighty members of the office force of the National Tube company enjoyed a social meeting Thursday evening in the lounge of the Shelby Social club.

Twenty-five tables of bridge and 12 of 500 were in play and prizes for high score were won as follows: Bridge: Mrs. H. E. King, Mrs. W. R. Johnston, Robert Forbes and E. J. Rineheimer; for 500: Mrs. P. M. Moore, Miss Lena White, George Reese and J. B. Kelly.

Those not caring for cards busied themselves playing pool. Later delicious refreshments were served in the Shelby cafeteria, and an enjoyable dancing program was carried out in the auditorium upstairs.

Homer Garwig and a committee were in charge of arrangements and plans for another such party in the near future were made.

Local People See Queer Lights In Sky Recently

ELLWOOD CITY, Nov. 9.—Noticing an articule in The New Castle News concerning two people in New Castle who had seen lights the shape of a sword in the sky Monday evening, Mrs. Ketler and Mrs. John Duncan report that they too saw the phenomena and also noticed the significant shape of the lights.

C. A. Voorhees Dies Thursday

ELLWOOD CITY, Nov. 9.—C. A. Voorhees, aged 38, passed away at his residence at 412 Orchard avenue, on Thursday evening, death concluding a serious illness. He is survived by his widow, Mary Voorhees, and two children.

Funeral services will take place Saturday afternoon at 2:30 o'clock from the Methodist church with Rev. Robert Little officiating. Interment will be made in the Locust Grove cemetery.

Ladies Plan For Event At Church

ELLWOOD CITY, Nov. 9.—Twenty-one members of the Ladies Aid society of the Methodist church met Thursday evening at the home of Mrs. Myrtle Osborne of Fourth street, with Mrs. Jennie Harper as associate hostess.

A brief business session was conducted at which time the ladies planned for the church supper and bazaar on December 15. Later the hostess served delicious refreshments and the meeting concluded after an enjoyable social period.

Annexation Of Ewing Park Still Being Considered

Committee On Investigation Of Proposed Annexation Not Ready For Report

ELLWOOD CITY, Nov. 9.—At the regular monthly meeting of the borough council which took place Thursday evening in the city building, the project covering the annexation of Ewing Park to the borough was not brought up for vote, owing to the inability of the investigation committee to give a complete report of its findings.

The petition was presented at the October meeting of council and a committee was appointed to iron out several wrinkles in connection with the project, and is not yet ready with a report. The petition will probably be voted upon at the next regular meeting, if not before. It is rumored that lots have been thrown open to the public in that section, and that many sales have been made, all of which points to a favorable outcome of the petition.

In the opinion of many, the fly in the ointment appears to be the toll bridge spanning the Connoquenessing river from the borough to Ewing Park. Solutions of this factor are probably being considered by the investigating committee.

Kiwanians Hear Splendid Talk On School Costs

Supt. W. Ray Smith Compares Costs Of 1890 With Present Rates In Education

ELLWOOD CITY, Nov. 9.—Prof. W. Ray Smith, superintendent of the local school, was the speaker at the regular weekly dinner-meeting of the Kiwanis club in the dining room of the Lutheran church Thrusday evening.

His topic, "Justifying School Costs," embraced many phases of education not ordinarily considered by the average layman. He gave five reasons why higher costs are justified, as follows: First, statistics show that enrollment in the elementary grades has increased about 14 per cent since 1890 and 20 per cent in the high school, which is more costly to operate than the grades on account of special subjects. Also during the war there was no additions to school buildings, making a greater expense in later years; and third, teachers' requirements are more strict now, and consequently demand larger salaries, according to their degrees of merit. Also, in comparison he stated that in spite of the increased costs of education, they are just one-half the nation's total costs of tobacco, gasoline and candy. Of course, it goes without saying, that the buying power of the dollar is less today than it was in the beginning of the local schools. Men are not satisfied with a 1910 style of automobile, stated Mr. Smith, so why should they be satisfied with 1910 style of education?

At the conclusion of the meeting, the Kiwanis members went in a body to the noodle factory and enjoyed a personally conducted tour through the plant by Mrs. Smith, manager and owner.

Entertainment Body At Country Club Is Made Known

ELLWOOD CITY, Nov. 9.—The new entertainment committee for the 1928-29 season of the Ellwood Country club is announced as follows:

The above committee together with chairmen of the other club committees will attend a called meeting in the club house this evening for the purpose of making plans for the winter social activities in the club. The meeting has been called for 8 o'clock.

Valley Member To Be Honored By Local Elks Tonight

ELLWOOD CITY, Nov. 9. — Chester Ballard, a member of the local order of Elks, passed away in Beaver Falls yesterday. This evening a number of local Elks plan to motor down to the home of his sister, Mrs. George Marcus, at 1706 Sixth avenue, where the body is resting, for a brief ceremony.

Exalted Ruler Homer E. Garwig, asks that those desiring to go, meet at the club house at 7 o'clock sharp this evening.

Police, Fire And Health Reports

ELLWOOD CITY, Nov. 9.—Reports from the police, fire and health departments were submitted to the members of the borough council at their regular monthly meeting in the city building Thursday evening as follows:

Police—Arrests 42, discharges 12, fines 5 and forfeits 18. Total fines and forfeits, $584.

Fire report—No. 1 fire on Wiley Hill, no damage; No. 2 fire corner of Fifth and Spring, damage $259. Charges for firemen's services, $30.

Contagious diseases reported for last month by Health Officer Young were: one diphtheria and one chickenpox.

J. A. P. Club Plans Tureen Dinner Soon

ELLWOOD CITY, Nov. 9.—Members of the J. A. P. club enjoyed a meeting Thursday evening as guests of Mrs. Harry Schott of the New Brighton road.

During the business session they decided to have a tureen dinner next Thursday at the home of Mrs. Fred Patton of Bell avenue. The balance of the evening was devoted to fancywork, after which the hostess served dainty refreshments assisted by Mrs. David Van Gorder.

In two weeks the club will meet at the home of Mrs. Fred Patton of Bell avenue.

W. C. T. U. TONIGHT.

ELLWOOD CITY, Nov. 9.—Members of the local W. C. T. U. will conduct a monthly meeting this evening at the home of Mrs. William Gettig of Sixth street. Mrs. Thomas Rogers and Mrs. W. B. Gray will be associate hostesses.

WILL SHE WIN POST IN CABINET?

A woman member of the president's cabinet? Well it's not entirely impossible, but if Mrs. Mabel Walker Willebrandt is appointed by President-elect Hoover as attorney general, she'll be the first. Political observers have predicted that she might win the post, as a reward for her activities during the campaign. She is now assistant attorney general in charge of prohibition.

Over and over the Challenge Test teaches the same powerful lesson—how YOU can greatly reduce your food bills by using GOOD LUCK exclusively on your table and for cooking and baking.

NO other profession requires the keenly developed senses and perfect co-ordination of nerves demanded of the intrepid air pilots who daily, through all kinds of weather, fly from Chicago to the four corners of the land.

Foremost of the great lines carrying mail and passengers is the National Air Transport Company. Above is shown one of its planes at the Chicago Municipal Airport. In the foreground a group of aviators are making the famous Challenge Flavor Test.

Having been served with samples of both, they were asked to tell which they had tasted first—whether Jelke GOOD LUCK or the most expensive spread-for-bread.

And again was exploded a false notion held by some housekeepers, for none could answer. Not one could tell which was which.

Rotarians View Actual War Scenes At Club Meeting

Ray Aylesworth, Who Helped Take Some Scenes, Gives Short Talk To Men

ELLWOOD CITY, Nov. 9.—At the regular weekly dinner-meeting of the Rotary club, the feature of the program was actual pictures taken during the World war. These were shown by William McGlincey and explanatory talks were given by Ray Aylesworth, who took some of the scenes; Ed Mackasek, who had charge of the program, and Rev. Routledge.

There were a number of members of the American Legion at the meeting as special guests and the scenes brought back many memories of war contests to those who had figured actively in similar scenes.

The meeting concluded with pep singing and a quartet number by the choir of the Presbyterian church.

MORAVIA STOP

Mrs. Andrew Glasser of Baldwin Stop has been quite sick but is much better at this writing.

James Brown who is building a new home on Division street now has the building under roof.

Dale Natcher is driving a truck for John Yoho.

Mrs. Lewis Yoho of the Ellwood road visited Mrs. Emmaline Hill on Tuesday.

Miss Mae Mertz spent Wednesday in Ellwood City.

Grandma Durnell of Butler is spending some time with Mrs. Robert White and family.

Mrs. Harold Currie is still in a very critical condition at the New Castle hospital.

Mr. and Mrs. James Cravener attended the funeral of Mr. Cravener's cousin in Kittanning on Tuesday.

Leah and Alma Natcher visited Ethel Yoho on Tuesday evening.

Mrs. Clarence Yoho called on Mrs. W. H. Grine Wednesday.

The citizens of Moravia and vicinity demonstrated their ability to pick a sure winner when they turned out almost to a man and voted for Hoover. Of course a very few differed in their opinions which is the right of every citizen of our free country, but when the weary election board left the polling place in the wee small hours they had found only 16 "lost" votes.

ENTERTAINS AT EVENING BRIDGE

ELLWOOD CITY, Nov. 9—Mrs. Edward A. Christley of the New Brighton road entertained a few friends at bridge Thursday evening at her home.

Three tables were in play and at the conclusion of a pleasant evening, lunch was served at one large table centered with a pretty grouping of baby mums.

Ohio Finds Doc's Grid Medicine Great

BY JACK SORDS
Sports Cartoonist-Writer for Central Press and The New Castle News

Dr. John W. Wilce, head football coach at Ohio State University, has earned the right to the broad and prolonged smile which has lightened his countenance during the current football season.

The good doctor has just given the Ohio alumni a big pigskin pill and made them like it.

A season ago the good doctor was the target of a terrific barrage of criticism. State hadn't been doing so well. The Buckeyes were one of the weak sisters of the Big Ten.

"Get a new coach! Get a new coach! Wilce is through!" cried disappointed grads and followers of the Scarlet and Gray.

"All right," answered Wilce. "I'm through. But I won't quit until the end of the 1928 football season. And then I'm through for good."

That "until the end of the 1928 season" was the hitch. The foxy doc must have known something, had an idea the material this year would be considerably over par.

Anyway, Ohio State began the 1928 season like a house afire and is still far from burned out. The Buckeyes thundered to the forefront over the prostrate forms of Northwestern, Michigan and Indiana. Fred Barratt, Leo Raskowski, Allen Holman, Byron Eby and other star players scintillated in the Scarlet and Gray. Wilce, of course, became hero.

Of course, Ohio grads, who had been bitter in defeat, naturally suffered a change of heart. A move to ask Wilce to remain has developed and is growing. Ohio recognizes a good man and doesn't want to lose him.

Dr. Wilce isn't saying much, but going quietly ahead with his preparations to enter upon a career of medicine. He said he would quit and he, apparently, intends to.

The doc has administered his potent medicine and the fans crave more. But it looks as though John W. has written his last pigskin prescription.

THEFT FROM AUTO IS CLEARED UP

W. B. Kilner, 415 Hillcrest avenue, reported Thursday evening to the police that while his machine was parked in front of his home that some boys had stolen some articles from his car. Detective John Young was detailed and recovered the articles taken .The owner did not care to prosecute and the boys were allowed to go after receiving a severe lecture.

Make Reports Of Auto Accidents

Number Of Minor Accidents Are Reported To Police Here

Ray Earl, Coaltown, reported Thursday that he was enroute north on Highland avenue at Meyer avenue when a street car stopped at the switch. He stopped to pick up a boy and when this was done the street car had gone on.

A lady, Mrs. Hutnic of Meyer avenue, had left the street car and was standing at the curb. She had her pocketbook on her arm and as the truck of Mr. Earl was passing her, the pocketbook caught on the knob of his truck. She was not knocked to the street, but Mr. Earl took her to a physician, where it was found that she had not been seriously injured. She sustained a bruise on the wrist. She was taken home by Mr. Earl when it had been determiend that her injuries were not serious.

J. H. Lowry, 919 Temple avenue, reported Thursday that he was enroute south on North Mill street at East North, when Lynn Bonzo going east on East North street, collided with his machine, some damage being done.

Mr. Lowry was attempting to pass the street car to the right and still had the green light. As he got under way the light turned to the red, he put on his brakes and his machine skidded into the Bonzo car. Some damage was done. Mr. Bonzo also had the green light.

F. L. Baldwin, R. D. No. 1, reported Thursday that he was going south on Beaver street, and a car bearing Pennsylvania license 262-271 was going north on Beaver street when the machines came together, doing some damage.

P. J. Scanlon, 302 Wabash avenue, reported today that he was going west on Cherry street at Liberty street, when his machine was in a collision with a car bearing Pennsylvania license 992-864 going south on Liberty street. Some damage was done.

Erecting New Traffic Light

A much needed pedestal type of traffic light, similar to those in use on the public square is being installed at North and North Jefferson streets one of the most dangerous and busiest street intersections in the city.

In order that trucks and vehicles may make required turns at this intersection the traffic regulating light is being placed in the middle of North Jefferson street on the south curb line of North street instead of in the center of the intersection of the two streets.

Easy street straight ahead; avoid detour via court house.

Plan To Invite Convention Here

Special American Legion Convention Committee Meets This Evening

Will Discuss Financing Of State 1929 Convention For New Castle

The special American Legion Convention committee appointed by the Perry Gaston Post of the New Castle American Legion is meeting tonight at 8 o'clock in the Legion home to make plans for inviting of the State American Legion convention for 1929. The committee hopes to go to Harrisburg about December 1 before the executive committee of the state organization and extend the invitation to come to this city.

The commitee is meeting to arrange the plans for the financing of the convention here. There must be financial backing to get the convention here but the added business for city establishments will be increased to such an extent that the financing of such a convention is a worth while investment, states James W. Cole, secretary of the New Castle Chamber of Commerce who is acquainted with some business figures found in cities where the convention has been.

The local post and committee and other interested parties are asking all garages, hotels, eating houses and retail merchants, all those interested to aid in getting this great convention for New Castle next year.

It is thought by members of the post that New Castle can have this convention if the city but extend the invitation for it.

The special committee of the legion in charge of the convention plans is composed of Phil Greer, chairman, James W. Cole, Herbert Peairs, Harry Long, Ivor Davis, John Slack, Major Guy Wadlinger, Ed. Russell, John D. Kennedy, Wilbur McCullough and W. E. Ferver.

WEALTHY MERCHANT KILLED BY BANDIT

GALLIPOLIS, O., Nov. 9.—John Canaday, aged 67, Scioto county merchant, was shot and killed by a bandit who entered his store at Storey Run, four miles from Portsmouth, with robbery as the motive. The bandit killed Canaday after demanding his money, and when Canaday advanced toward him shot him. Canaday formerly resided in this county and was wealthy.

Orgy Of Killing Threatens Big Game In Africa

Mrs. Carl Akeley (above), widow of noted scientist, who advocates conservation of Africa's wild life, and right, an artist of the Akeley Eastman-Pomeroy expedition transferring an African sunset to canvas. Below, the Monarch of the Jungle, and three giraffs at a waterhole.

Mrs. Akeley Urges Ending Slaughter By Means of "Wild Life Pockets."

By International Illustrated News.

A woman is assuming a position in the van of sportsmen. She is Mrs. Carl Akeley, widow of the noted African explorer, sculptor, taxidermist and lecturer who died on the slopes of Mount Mikeno.

His wife who assumed leadership of the expedition after her husband's death dedicated her life to carrying out a project which was his burning ambition—the creation of an international game preserve in Africa.

Big Game Depleted.

On their last trip to Africa Mr. Akeley was more depressed than ever at the disappearance of familiar game. The inroads of hunters from America and elsewhere, so-called sportsmen motivated primarily by a lust to kill, have nearly wiped out many species of rare game in the Dark Continent.

Not only the beasts of prey but the weaker animals are in danger of extermination unless strenuous efforts are taken to curb the ruthless wanton slaughter that has been made possible by the construction of railroads and motor highways into the interior.

"Game Pockets" Urged.

Mrs. Akeley is carrying on where her husband left off. She is now abroad for a conference with Dr. Jean M. Derscheid of the Congo Museum of Tervueren, Great Britain, Portugal, Spain, France, Italy and Belgium all have possessions in Africa and it is hoped that all will agree on the creation of "game pockets" from which hunters will be barred.

There game could go to breed in safety and perpetuate their own lines. Otherwise Dr. Akeley declared future generations must depend on photographs and stuffed models for their only knowledge of many beasts which now roam the jungles in rapidly diminishing numbers.

School Books Have Wrong View Of War

Germany Cannot Shoulder All War Guilt, Is Statment Of Professor

(International News Service)

BERLIN, Nov. 9.—American school history books are under fire by Dr. Otto Karstaedt, who was guest professor at the Peabody College at Nashville, Tenn., last winter.

In an article in the periodical "The Way to Freedom," Dr. Karstaedt points out that most American school histories still represent Germany as the only nation guilty of starting the World War.

"All of them show at first glance," Dr. Karstaedt says, "that they are either unable to view the war objectively, or clothe the scientific objectivity which they would like to affect in opinions born during the war."

Dr. Karstaedt attacks especially Edward R. Turner's "Europe Since 1789", which, he says, "shames America and is destructive for the restoration of understanding between the two nations."

French Railroad Finally Completed

Work On Old Roadway Is Completed After 64 Years

(International News Service)

PARIS, Nov. 9.—After intermittent building which was halted by two wars over a period of sixty-four years the railroad connecting Strasbourg and Saint Die was inaugurated by Premier Poincare at Schirmeck.

The cost of construction was $6,000,000. Work on the first section between Starsbourg and Mutzig was begun in 1864. The campaign of 1870 caused the project to be abandoned until 1877, and from then on the line was slowly extended until the World war.

Saint Die, the last town to be tapped by this railroad is known as the birthplace of America as it was there that the first map designating the western continent by its present name was drawn.

Swiss Live In Fear Of Mount

Mount Arbino May Have Landslide At Any Time, Is Scientists Opinion

(International News Service)

GENEVA, Nov. 9—Mount Arbino, on which recently occurred one of the biggest land slides in the history of Switzerland, is a permanent danger to the neighboring villages, according to Professor Staub, geological expert.

Masses of earth and rock are still in movement and the next landslide which will occur—and undoubtedly in the near future—will take on much greater proportions than the recent ones. Fissures in the vicinity of the new summit have considerably widened and fresh cracks appeared in different places. Two towns are in immediate danger.

Girl Debaters Will Tour United States

English Girl Students Arrange For Tour Through Country Soon

(International News Service)

LONDON, Nov. 9.—The team of girl debaters who will meet "all-women" and "mixed" teams at colleges in New York, Boston and the Middle West were chosen by the National Union of Students. Before leaving for America, Miss Margery Sharp, one of the three members said:

"The chief subject of debate will be that "The centralization of government deteriorates the political sense of the people."

"My part will be to supply the comic relief. I would rather tell an audience a funny story than debate serious subjects of this kind. But Miss Lockhart and Miss Samuel are very clever and can hold their own anywhere.

"I do hope I can make them laugh in America, becaunse it has struck me that they may not laugh at the same sort of things as we do. I think the American teams will have an advantage over us because they have special debating coaches.

"Twenty-five debates have been arranged for, but we shall have plenty of time to see the country and study the elections."

The world's population is estimated at almost two billion, none of which is exactly satisfied.

NO DANGER

Fruits and vegetables are bearers of health

Eat them, cooked and raw, each day

ONE of the country's leading food scientists was asked what rule he could give for healthy eating. "This would be my first rule," he said. "Eat at least one raw salad (vegetable) and at least one raw fruit each day. In addition to that, eat at least one cooked vegetable and one cooked fruit each day. Rotate the fruits and vegetables with season, price and taste."

He went on immediately to emphasize the value of sugar in making fruits and vegetables palatable and enjoyable. People no longer need feel that a meal has to be unenjoyable in order to be healthful. In fact, the opposite is true. It is of great importance to the health of the body to enjoy the right foods as well as to eat them. And sugar is nature's most perfect flavor, the adder of zest and pleasure to eating. Many of the most healthful fruits, for example, would be almost uneatable without sugar. Adding sugar makes the harsh fruit acids delightful to the taste. It does not injure or change in any way the beneficial health qualities of the fruits. And the good cook knows that nearly every vegetable has its flavor improved when sugar is used in cooking.

Successful cookery and health-giving diets revolve around sugar. Sugar in the kitchen and on the table can be so useful in promoting health and good digestion. What, for example, is so enjoyable and refreshing as fresh grapefruit, sweetened to taste? It is important to eat fruits and vegetables daily and to enjoy them. The Sugar Institute.

King Amanullah Banning Afghan Native Costume

By CHARLES A. SMITH
International News Service Staff Correspondent

LONDON, Nov. 9.—Remarkable efforts of an Eastern King to westernize his people as a result of the enlightment he received during a European tour are described by a correspondent of the London Daily Mail lately returned from Kaul, capital of Afghanistan, the wild mountainous State on the borders of Soviet Russia and India.

Amanullah, the king in question, recently returned to his capital after a lengthy visit to the principal European countries, during which he was received in full state by the rulers and Governments. He is now making sweeping charges in the social life of his country, wagging war against the mullahs and other religious heads who would keep his subjects in the darkness of the Middle Ages.

Quit Flowing Robes

By the king's orders, the correspondent relates, tribesmen summoned to attend triennial Parliament were supplied with frock coats and soft hats to replace their flowing robes and turbans. At the royal wish some of them even were shaven of their heavy beards, a tremendous sacrifice in Afghanistan, where a heavy beard is looked upon as a sign of valor and manliness.

Striking reforms have also been introduced in educational, administrative and other matters, and the Queen has set the example to the women of the country by appearing in public without the veil traditionally worn by women in the East. It is even reported the Queen will shortly announce the intention of the women members of the Royal Family not to wear the veil in future.

European clothes, according to the correspondent, are now made a condition of entry to all functions at which the king and queen are present, including garden parties and firework displays. The correspondent paints a delicious word-picture of the scene at the first garden party at which the new condition of affairs obtains.

European Customs

"The result reminded one of a clerical assembly," he writes, "with several hundred of these men from the remote fastnesses of the country solemnly wearing European clothes for the first time in their lives.

"Those present were obliged to observe European customs suitable to their attire, and the police had a busy time preventing men from sitting on the glassy slopes instead of on the wooden forms provided for them. It was the tribesmen's first experience of anything other than Mother Earth on which to rest but after their first astonishment they readily acquiesced. They did not so readily understand how to manage cups and saucers and spoons."

Another innovation of King Ammanullah's is to shake people by the hand instead of allowing them to kiss the royal hand.

Colored Quintet At New Bedford Church

Interesting Service Sunday Morning Has Been Arranged By Pastor

The Alliance Colored Quintet, which has made such a big impression at the revival services in progress for the past eight weeks at Mill and Division streets, will on Sunday morning go to New Bedford, where they will take part in the morning services of the Methodist Episcopal church of that place. This service will be held at 10:30 o'clock and Rev. H. L. Johnson and congregation from the Simpson M. E. church will attend the service in a body and take part in it. G. E. Shaffer, pastor of the New Bedford M. E. church, will deliver the sermon of the occasion. The Colored Quintet will render a number of special selections.

News has been received here of the death of Dr. Frank Crane, world renowned journalist, which occurred in France during the past few days. For some years Dr. Crane's editorial writings have been a feature of The New Castle News.

Nearly Perfect Tire Developed

"The General Tire and Rubber company in magazine and newspaper announcements of its new Dual-Balloon '8' automobile tire, points to modern General tire records of 20,000, 40,000 and sometimes 60,000 miles, as a guide to the motoring public as to what may be expected of the company's newest product," says Sam Edelstein of the S. & M. Tire Co., General tire distributors in New Castle.

The General company recently announced a new advanced style balloon tire, regarded as an entirely new departure in balloon tire design. There are more miles in the new Dual-Balloon "8" than most owners will ever fully use, more comfortably uninterrupted automobile rides and more all-important non-skid tread travel than was ever thought possible to put into a tire. The Dual-Balloon "8" represents General's latest triumph in 14 years of faithful adherence to the one-quality principle of tire manufacture—a triumph climaxing as many years of confidence on the part of the public, in General tire manufacturing ideals.

Germany's Courts Sanction Lip Stick

Is No Longer Indecent Is Decree Of Supreme Court Of Germany

(International News Service)

BERLIN, Nov. 9—The lip stick is no longer indecent.

A solemn supreme court of Germany rendered this dictum when several postal cards depicting feminine beauties were laid before it for judgement.

The postcards had been confiscated by the police on the ground that they were indecent because the ladies depicted on them obviously has embellished nature with paint and powder.

"Paint and powder" the court decreed, "may have formerly been the signs of ladies of easy virtue but with present day fashions they have penetrated into other circles as well so that their use no longer justifies any definite conclusions as to the character of their users."

Overalls For Women In Firestone Mills

FALL RIVER, Mass., Nov. 9—The Firestone Cotton Mills has suggested to its women operatives that the overall be adopted as a costume better fitted for their work than the skirt. The plan is designed as a safety measure and has met with instant approval throughout the plant.

The women are discussing which of the two styles submitted should be adopted. One is the regulation overall like a man's and the other is the knicker type. Opinion seems to favor the long trousers pattern, which the women believe will protect their stockings.

The overalls will do away with the danger of dresses catching in the machinery, one of the greatest menaces in the factory.

The profits seem to be greatest just before shrewdness merges into crookedness.

Falling in love is about like loafing. If done properly neither leave very much time for business.

Schedule Sorority Party For Saturday

Chi Omega At Westminster Will Have Tea At Hillside In Afternoon

(Special To The News)

NEW WILMINGTON, Pa., Nov. 9.—Miss Mary Wetzel of Carlisle, Pa., national extension officer of Chi Omega sorority, will be the chapter visitor and guest of honor of the Westminster chapter of Chi Omega over the week end. On Saturday afternoon a tea will take place in the Hillside parlors at 4 o'clock in honor of Miss Wetzel. "Overlook" Head Addresses Girls Of Nursing Club

Members Of Ben Franklin Club Enjoy Talk By Dr. McLaughrey

Members of the Home Nursing Club of the Benjamin Franklin Junior High school had the pleasure of hearing an address by Dr. Elizabeth McLaughrey of the Overlook sanitarium, New Wilmington, at their meeting this week. Dr. McLaughrey spoke on the care of babies in the home. Her address was very interesting and was of real practical value to the girls of the organization.

Dr. McLaughrey is a member of the Business and Professional Women's Club and represents the club in the work which the educational department hopes to carry on in the New Castle schools.

Miss Lois Kerr, sponsor of the organization, is planning some very interesting and practical demonstrations to be given during the different club periods this year. In a community where the care of the sick in the home very often falls to one of the girls of the family this type of work in the school is very commendable.

Dr. Mildred Rogers, president of the local federation of the Business and Professional Women's Club, will be the speaker at the next meeting of the club on November 22.

How He Did It

"This is the way I got my start," explains J. C. Penny, head of a chain of 1,054 stores, the first of which he started on a capital of $500. His home is in Sandpoint, Idaho.

Plans Daring Flight

An attempt to make a non-stop flight from Guatamala City, capital of the Central American republic of that name, to Washington, D. C., will be undertaken by Lieutenant Colonel Jacinto Rodriguez Diaz, above, chief of the Guatamala air service. High mountains, dense jungles and wide expanses of water lie between the two capitals.

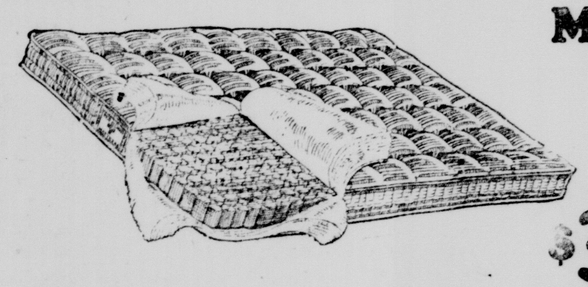
The Red Cross Inner Spring Mattress

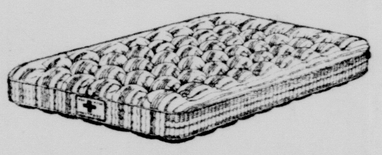


$39.50

Regularly $50

Deep in this mattress is a layer consisting of hundreds of tiny special Red Cross construction spiral springs. Each spring is separately enclosed in heavy fabric and the entire spring section is firmly sewed together. Against this army of little springs is padded layer upon layer of clean Red Cross White Cotton Felt, producing a mattress which cannot sag and which must support the body in perfect resilience.

THE RED CROSS COTTON-FELT MATTRESS



Made of pure white cotton felt carefully processed so that the fibres are constructed into sheer gauze-like layers which are placed one upon the other until the whole is between fourteen and fifteen inches high. It is this generous use of materials — the fact that Red Cross has never been obliged to the needs of skimping economy—as well as the superiority of the materials and construction that gives Red Cross Mattresses their pre-eminence.

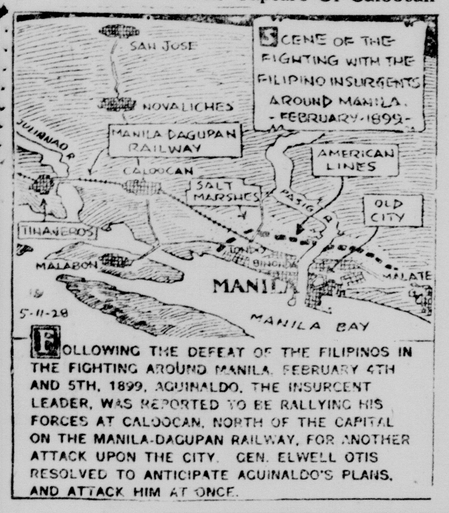
The Philippine Insurrection
The Capture Of Caloocan



FOLLOWING THE DEFEAT OF THE FILIPINOS IN THE FIGHTING AROUND MANILA, FEBRUARY 4TH AND 5TH, 1899, AGUINALDO, THE INSURGENT LEADER, WAS REPORTED TO BE RALLYING HIS FORCES AT CALOOCAN, NORTH OF THE CAPITAL ON THE MANILA-DAGUPAN RAILWAY, FOR ANOTHER ATTACK UPON THE CITY. GEN. ELWELL OTIS RESOLVED TO ANTICIPATE AGUINALDO'S PLANS, AND ATTACK HIM AT ONCE.

FEBRUARY 10TH, THE 20TH KANSAS, 1ST MONTANA AND 3RD ARTILLERY (THE LAST SERVING AS INFANTRY), SUPPORTED BY THE 1ST IDAHO AND THE 4TH CAVALRY, ATTACKED CALOOCAN. AT THE SAME TIME THE UTAH BATTERY AND THE 6TH ARTILLERY SHELLED THE INSURGENT TRENCHES, WHILE THE WARSHIPS "CHARLESTON" AND "MONADNOCK" BOMBARDED THE TOWN FROM THE BAY.

THE AMERICAN "DOUGHBOYS" CHARGED GALLANTLY THROUGH A RATTLING FUSILLADE AND CAPTURED THE ENEMY'S WORKS. THE FILIPINOS FLED, SETTING MANY NIPA GRASS SHACKS AFIRE IN THEIR RETREAT. AT 5:00 P. M., AFTER TWO HOURS OF FIGHTING, THE AMERICAN FLAG WAS RAISED OVER THE TOWN. THE CAPTURE OF CALOOCAN GAVE THE AMERICANS CONTROL OF THE MANILA-DAGUPAN RAILWAY.

THIS ENABLED THEM TO BRING UP TROOPS RAPIDLY AND INVEST MALABON, WHICH WAS STILL HELD BY THE INSURGENTS. THE AMERICAN LOSSES AT MANILA AND CALOOCAN WERE 59 KILLED AND 199 WOUNDED, WHILE 2,500 FILIPINOS HAD BEEN KILLED OR WOUNDED AND ABOUT 4,000 TAKEN PRISONERS.

TOMORROW—THE CAPTURE OF ILOILO.

NEW CASTLE TO PLAY AT GREENSBURG

Local Eleven Badly Crippled

Coach Bridenbaugh Forced To Replace Four Regulars In Line-Up

GREENSBURG TEAM IS POWERFUL ONE

By "BUGS" WALTHER

A BADLY crippled New Castle High school football team will take the field Saturday at Greensburg to battle the strong Greensburg High grid eleven. The game will start at 2:30 o'clock.

Tomorrow will mark the first appearance of a New Castle football team in Westmoreland county, and the locals are anxious to make a good showing. Greensburg High, despite a rather poor start this year, will give the red and black stalwart sons a lot of opposition.

Four New Castle regulars, McIntosh, Ostrosky, Sillman and Mooney will not likely see action on the morrow. The outlook for a New Castle victory is not very rosy.

Leave on Special Train

When the New Castle special train to Greensburg steams out of the Pennsy station at nine o'clock Saturday morning the New Castle High school gridders, together with Coaches Bridenbaugh, Klee and Thomas, Faculty Manager Ralph H. Gardner, Student Manager Eddie Smith and the writer, will be aboard a special coach "tacked" on the rear of the train.

Coach Bridenbaugh will take a squad of 25 men to Greensburg. With four regulars fit subjects for the hospital Bridenbaugh will be forced to call upon the "shock troops" for support. Several of the reserves who have seen very little service this year are likely to get the call tomorrow. It was announced by Bridenbaugh that Andy Beres would replace DiCarbo at left guard, with the possibility that Howley would start at right guard in place of Mooney. Either Waggoner or DiThomas will get the call for the left-end job if Ostrosky is not in condition.

The backfield for Saturday is a very uncertain problem. Shaffer will in all probability be calling signals, and the remainder of the backfield will be made up of DiCarbo, Harper and either McAuley or Fernati.

Light Practice

Practice sessions for the red and black warriors have been rather light. Coach Bridenbaugh couldn't take a chance on crippling any more of the squad with such an important game in the offing. The team ran through a light signal drill this afternoon as the final preparation.

On paper the New Castle team looks about three or four touchdowns better than Greensburg. The locals have yet to taste defeat, while Greensburg has taken "two socks on the chin", from Wilkinsburg and Charleroi, both fine teams and W. P. I. A. L. contenders this season. The first game of the year for Greensburg resulted in a 6-6 tie, with Mt. Pleasant High.

Fine Record

In the past few weeks the Greensburg team has taken on new life and they seem to be intent on stopping the New Castle outfit. Coach Loucks had a rather green team at the start of the year, but has slowly instilled a lot of football knowledge into their heads, and consequently today they are out to erase a few of their severe setbacks. A healthy-sized score over New Castle would give the Greensburg eleven a lot of prestige.

Following is the Greensburg record to date:

Greensburg	6	Mt. Pleasant	6
Greensburg	26	Youngwood	7
Greensburg	32	E. Huntingdon	0
Greensburg	7	Charleroi	13
Greensburg	12	Wilkinsburg	27
Greensburg	46	Ligonier	0
Total	129		53

The New Castle record to date shows six victories and one deadlock, with a total of 184 points for New Castle and 19 for the opponents. New Castle High has the most imposing record, but records don't mean a thing this year.

In Potts and Brinkley the Greensburg team has a pair of backfield men likely to cause trouble for New Castle. Potts is the leading scorer of the team and has been hard to stop this season. In Cox and D'Angelo the Greensburg team boasts of a fine pair of terminals. Quinn and Brooks, two substitutes, showed strength in the Ligonier game by scoring two touchdowns apiece. This would indicate that Coach Loucks has a fine set of reserves on hand.

Bridenbaugh Pessimistic

"If we defeat Greensburg with such a badly crippled outfit I will consider it a miracle," were the exact words of Coach Philip H. Bridenbaugh in conversation with the writer Thursday.

New Castle's showing against South Hills was anything but good. The locals should have defeated the Pittsburgh team about four or five touchdowns. Something was lacking; the old drive and dash were missing. In fact, the machine looked to be hitting on about two cylinders. A big reversal in form must be shown tomorrow if the Lawrence county contingent intends to remain undefeated.

The locals must be on their toes every minute in the Greensburg game Coach Bridenbaugh has threatened a severe shake-up in the line-up if better results are not forthcoming.

Alexander May Not Play.

Owing to a death in the Alexander family, it is doubtful today if Bruce Alexander, big 185-pound right tackle, will make the trip to Greensburg on Saturday. With Alexander out, Coach Bridenbaugh now has five regulars to replace in his lineup against Greensburg. Dinsmore will likely replace Alexander in the lineup.

Merchants To Meet Tonight

The South Side Merchants basketball team will hold an important meeting tonight at 7:30 o'clock at the Crane and Hartman establishment on Long avenue.

New officers will be selected and plans made for the coming basketball season. It is important that the following players be present tonight: Seneski, Kenst, E. Solomon, D. Eardley, Rogovin, J. Lewis and Parker.

City Floor League Plans Advanced, To Have Fast Circuit

At a meeting of city floor league enthusiasts held at the Y. M. C. A. on Thursday night six teams were represented. Plans were made to establish a fast circuit here this winter.

The outlook is good for strong competition this season. A meeting for organization purposes will be held at the Y. M. C. A. next Tuesday night, November 13, at 7:30 o'clock when officers will be chosen and plans advanced for the formation of a league.

All teams desiring to enter the city league this year are asked to send representatives to the meeting next Tuesday, as it will be the final organization session.

Paulino Planning Tour Of Country

(International News Service)

NEW YORK, Nov. 9.—Paulino Uzcudun, Basque heavyweight, plans a pugilistic tour which will take him to the mid-west and to South America before he makes his next start in the elimination tournament here to determine the new champion. The woodchopper is booked for bouts at Milwaukee on November 21 and 27 and at Philadelphia on December 3 or 5 with opponents yet to be selected. He plans to box Jack Renault, Canadian contender, on December 24 at the South American Olympic games at Cali, Columbia. On the way back to New York he will participate in a bout in Porto Rico on January 5 against an opponent to be named later.

Three New Castle Boys Battle Monday

Romeo Pacelli, Dougherty And Jennings On Card Which Will Be Featured By Datto Versus De Rose At Jolly Bowl; Fans Show Interest In Fistic Attraction

By ED FRITZ

DAN WILLIAMS the silver toned managerial director of striving pugilists today revealed what hitherto has been a mystery with a Sherlock Holmes setting when he announced the identity of one of his proteges—a boy who fights Johnny Dougherty of the West Side at Jolly Bowl, Monday night.

In fact Dan said he was proud to say that the boy whom Sir Public has known as "Kid Williams of the South Side" is not "Kid Williams of the South Side" but Johnny Jennings of the East Side who is reputed by Silver-Toned Dan as an apt pugilistic pupil, and if what Dan says is true, the East Side may trouble the West Side Monday night.

Very Peaceful.

For years around this town, so we have been told, the West Side has held the reputation as being the place where everybody can fight. However, it is a peaceable section, so domiciled to good order that the chief of police doesn't find it necessary to put a policeman in that section of town, which speaks for itself.

But nevertheless the impression has prevailed that to tackle a guy from the West Side meant nothing more than a licking. This impression may be right or wrong, take your choice but it is true that Johnny Dougherty of the West Side, hopes to uphold that reputation and Johnny Jennings hopes to combat it.

All of which will act as an appetizer to those who like to see the preliminary boys batter each other like so many hot cakes. Johnny, according to Tom McMahon, a former boxer, "is a sweet looking kid." Dougherty has experience in his favor but Williams says the East Side boy doesn't care anything about this. The bout is listed for four rounds.

The "Battling Browns"

THE next bout will be between Maxie Brown, tow-head of Youngstown, and Steve Brown, an ebony hued conqueror of Elmo The Mighty. They are scheduled to go four rounds. Maxie can give and take and is game. Steve doesn't like 'em around his pork chop station but he is cagey, a good boxer and can punch.

One of the ringside spectators will be Elmo The Mighty. Elmo has won and lost to Maxie but last Monday night tried to box when he should have crowded close enough to sink a left hook into the said pork chop station of the black shadow. He hopes to solve the weakness of the winner and take the victor on one week later.

Pacelli vs. Tony Cezar

ROMEO PACELLI, featherweight, will be New Castle boy number 3 on the program. He has been booked to meet Tony Cezar who may prove just what his name sounds like and again he may not. Romeo has the happy faculty of knowing what to do at the right time and if Tony is not particularly pert, he may wake up later.

Rio Has His Chance.

FRANKIE RIO, the dancin' master of Cleveland, will take on Patsy Gallagher, choicy battler, in the six round semi-final and we K-N-O-W this is going to be S-O-M-E fight. Frankie and Patsy fought at Youngstown and according to information received and duly recorded, Gallagher won.

Frankie disputes this and says that when he steps into the ring Monday evening the fans will see him at his best. "For a long time I didn't feel like myself. I drooped in action. My punching lacked force but I'm O. K. now. I'll do my best to reverse the impression that is prevalent here," he said.

Datto-De Rose Training.

JOHNNY DATTO and Al De Rose, featherweights, fight the main bout of 10-rounds. Johnny is known here. De Rose is not. Datto has shown his ability and has garnered two knockouts at Jolly Bowl. De Rose defeated Joe Paglina on Monday night at St. Louis. He is in good condition, has fought 100 fights and has never been knocked out. This sounds good.

De Rose has fought some fairly good boys during his career. Datto has boxed the best in the game. Generally when two boxers are billed we study their photograph and from the way each shapes up it is our impression that Datto is the faster and more clever and De Rose the tougher.

Datto and De Rose are in training, the former at Cleveland and De Rose in Indianapolis. Datto will arrive late Sunday afternoon. De Rose will come here to work out Sunday so that fans can get a peek at him. Al believes he has an opportunity here and hopes to make the most of it.

Union To Play Slippery Rock

Union High Gridders To Battle Slippery Rock High At Scotland Lane Saturday

SHIEK-CLARK ON INJURED LIST

Saturday afternoon at 2:30 o'clock the strong Union High football team will clash with Slippery Rock High school team. The game will be played at the Scotland Lane field.

The Slippery Rock boys took the measure of the Union team last year and the Burnham coached machine is anxious to atone for this setback. Two years ago the Union High team rode to victory over the up-country team. In three years of competition the Slippery Rock team has taken two out of three victories.

Shiek-Clark Injured

Coach Burnham may be forced to use several of his substitutes tomorrow. Shiek, the sterling quarterback is suffering with a bad ankle and Clark, the center, is bruised up. Whether or not either of these two boys play against Slippery Rock is a problem.

In the scrimmage sessions held this week the work of Jaworski and Rech has shown up quite well. Both Rech and Jaworski have been playing a good brand of football this year and have caused the opposition lots of trouble.

In event Shiek cannot start the game it was announced that Thompson would be calling signals. In place of Clark at center Coach Burnham has been grooming Wallace.

Hope for Victory

The Union High team hopes to even up the series tomorrow with a victory. The Slippery Rock team this year is rather strong and they are confident that they can take the measure of the Unionites. The game should prove quite interesting.

Coach Burnham today announced the following temporary line-up: left end, Lanigan; left tackle, Morrison; left guard, Stockman; center, Wallace or Clark; right guard, Pattison; right tackle, Augustine; right end, McConahey; quarterback, either Thompson or Shiek; left half, Jaworski; right half Chill; fullback, Rech.

The only reasonable objection to our present prosperity is its devotion to the huddle system.

The Strong Boy Of N. Y. U. By Feg Murray

"New York University—0, Muhlenberg—54; N. Y. U.—0, Hamilton—13; N. Y. U.—0, Springfield—26; N. Y. U.—0, Williams—23; N. Y. U.—0, Syracuse—43; N. Y. U.—0, Trinity—9; N. Y. U.—9, Wesleyan—20." Yes, folks, those games were played, although it's hard to believe. They happened in 1913, when the Violets of N. Y. U. were not as violent as they are nowadays—and long before "Chick" Meehan, their very capable coach, had come to the university of the Hall of Fame to take charge of things gridironical.

Right now they are dusting off a prominent niche in that same Hall of Fame for one of their most famous students, by name, Kenneth Strong. Because Mr. Strong has run amuck in most of the football games that he has played in this year, New Yorkers are saying that he should be chosen All-American, and that his picture should be put on the postage stamp, on the coin of the realm, and that statues of him should be placed in all the public parks.

It is much to ask of a young athlete who, after playing second fiddle to Jack Connor, N. Y. U.'s wonderful triple threat quarterback, all last season, was suddenly advanced to the star roll, but Ken Strong has come through in spite of all the responsibility thrust upon him, and is playing the game of his life. He is a splendid punter and drop-kicker, passes well, and is a powerful and speedy runner.

Against Niagara, he scored all his team's 21 points, with three touchdowns and three goals from placement; against West Virginia Wesleyan, he kicked two points after touchdowns; against Fordham, he kicked four, and scored two touchdowns, one on a 55-yard run; against Rutgers, he made four touchdowns (one on an 89-yard run) and kicked five goals; and against Colgate, he crossed the line three times and kicked five placements.

The Ohio State-Princeton game brought out on the field at the same time two players named, respectively, Popp—and Howe!

All winners in the first round will be matched for the second round. All losers of the first round will be matched for the third round which will be announced later.

Grid Program For Saturday Contains Many Fine Battles

Carnegie Tech-Georgetown And Army-Notre Dame Headline In East

Several Unbeaten And Untied Elevens To Fight For Prestige Tomorrow

By DAVIS J. WALSH
Sports Editor International News Service

NEW YORK, Nov. 9.—It will be survivor against survivor tomorrow on the embattled gridirons of the east, middle west, the south and southwest, with the sectional title in each being laid on the line for the team that come and get it. Ohio State against Iowa with the Big Ten championship at stake; unbeaten Army in the throes of its annual Brannigan with Notre Dame; Carnegie Tech and Georgetown, undefeated and untied, fighting desperately to stay with the eastern pace; four leaders of the Southern Conference coupled for the day and Southern Methodists engaging the Texas Aggies in the big moment of the southwest's season.

A perfect showdown of cold hands, or maybe I mean feet, arranged by the official schedule. Any showing up to be done will be arranged by the winners.

Meantime, the 98 per cent wrong club has met with a full quorum, meaning me, in attendance. I mean the quorum was full. Anyhow, the club has been arranging things, too. It has arranged for the following results in the climax games referred to:

Ohio State Favored.

Ohio State to win the Western Conference title by beating Iowa; Army to win from Notre Dame by inches; Carnegie Tech to beat Georgetown; Georgia Tech to beat Vanderbilt; Georgia to beat Florida; Texas to beat Baylor, and Texas A. & M. to win from Southern Methodist, but only in the event that Hume is out of the latter's lineup. Without Hume the Methodists are capable of doing nothing with marked skill.

Other arrangements for which the club is responsible include the following results by sections:

East—Navy to beat Michigan, Harvard to beat Pennsylvania, Pittsburgh to win from Washington & Jefferson, Princeton to win from Washington & Lee with touchdown to spare, Yale ditto with Maryland with ditto to spare, Syracuse to beat Ohio Wesleyan, Villanova to beat Temple.

Middle west—Wisconsin and Chicago to play a tie, quite against the popular trend; Purdue to beat Northwestern and the conformists won't like this one, either; Minnesota to beat Indiana, Illinois to win from Butler with something in reserve, Missouri to come back at the expense of Kansas State, Nebraska to outlast Oklahoma, North Dakota and South Dakota having at it, with the writer strictly favoring the Dakotans; Marquette perhaps a shade on Kansas.

South—Alabama to win from Kentucky, North Carolina a slight edge ahead of South Carolina, although I really should say that I like the Carolinas' chances; Tennessee a romp with Sewanee, Tulane to win from Alabama Poly.

Pacific coast—California to beat Washington by yards and yards, Southern California to beat Arizona by touchdowns and touchdowns, Stanford too good for Santa Clara.

Only a climacteric upset can affect any part of the coast arrangements, but many of the others can and probably will be affected without further notice.

Navy vs Michigan.

However, I like the Navy because I think it has found a punch that will score two touchdowns, whereas there is yet to be discovered a team on which Michigan can score twice. I like Ohio State because I believe its passing game is about to click in a manner too versatile for Iowa.

Notre Dame ought to be set for the Army and Rockne, by this time, ought to have figured some way of restraining Cagle. The Irish probably will hamper him some but not enough. If they stop him altogether, they can't lose.

The tie I have arranged between Chicago and Wisconsin is merely my way of saying that Stagg, never a total loss for a full campaign, is coming back. If he does, it is hard to figure Chicago losing. Whether he does or not, it is equally hard to figure this Chicago team winning. I give Purdue the break over Northwestern because of the notion that it has more punch.

Tech is hard to beat anywhere but particularly in Atlanta and otherwise it might seem to have just an edge over Vanderbilt in offensive finesse. Vandy hasn't shown itself to be defensively fool-proof, either.

As for Georgia and Florida, the nomination goes to the former because I regard it as being better prepared for a big game.

The rest of the nominations need no particular explanation—at least, not a minute earlier than Saturday evening.

Hickory High To Play Saturday

Meets New Wilmington High School Eleven At College Town

(Special To The News)

NEW WILMINGTON, Nov. 9.—In the last home game of the season, the New Wilmington high school eleven meets the Hickory high school football team on the college field here tomorrow afternoon. Despite its defeat at the hands of Union last week, the Mercer county school is a grave threat to the no-defeat record of the local team.

The "dope" favors Coach Olsen's college town gridders because of their more brilliant showing against Union but on the other hand, Hickory showed up better in its other games and is regarded as one of the strongest class B aggregations in the district.

New Wilmington boasts three victories and two tie games this year and is still in the running for the class B title. A defeat tomorrow however would ruin a perfect season.

The two teams will probably lineup as follows:

New Wilmington		Hickory
C. Greer-H'tw'll	R.E.	Doolin
Lee	R.T.	Burns
Klumph	R.G.	McDonald
Rose	C.	McGown
N. Greer	L.G.	Huffman

Army-Notre Dame Battle To Draw Mammoth Throng

Believe More Than 80,000 Will Witness Irish-Army Game In Yankee Stadium

ARMY RULES AS SLIGHT FAVORITE

By LES CONKLIN
International News Service Staff Correspondent

NEW YORK, Nov. 9.—Army's great football team faces the turn of the road tomorrow in its annual battle with Knute Rockne's improved Notre Dame aggregation. The Hoosiers, who made a surprisingly poor showing against Wisconsin and Georgia Tech, are reported to be "loaded for bear" for tomorrow's classic and loom as the most dangerous obstacle in the path of West Point's march toward the National championship.

On paper perhaps Nebraska and Stanford seem stronger than Notre Dame, but the Hoosier eleven that will face the Soldiers tomorrow will be nothing like the team which Rockne sent against Wisconsin and Georgia Tech. For one thing, fullback Fred Collins will be on the job against the Army. Collins is the lad who led the South Bend warriors to a 9 to 0 victory over Penn State last week.

Irish Show Strength

Notre Dame rolled up eighteen first downs to State's two, and the winners showed a smoothness in their play which was sadly lacking in earlier engagements. If the Army can win tomorrow, they should be able to keep their record clean against Nebraska and Stanford.

Interest in the contest here has picked up so rapidly that more than 80,000 spectators are expected to jam the Yankee Stadium tomorrow. The stadium, with its enlarged stands, is now the largest outdoor sports arena in the East, and can accommodate 86,000 in a pinch.

While Notre Dame has been pointing for this game, the Cadets have been practicing new plays to spring on the Hoosiers. On a bulletin board in the football dressing room at West Point are pasted the photographs of Collins, Jack Chevigny, Johnny Niemic and other Notre Dame stars. The Cadets have studied these photographs carefully and will make no mistake tomorrow when they set out to "get their man."

The chief task of the Irish will be to stop "Red" Cagle. He alone turned the tide against Yale and is always a threat to break away for a long run and a touchdown.

Junior Girls Win Basketball Game

Westminster Seniors Are Beaten By Champion Team 23 To 13

(Special To The News)

NEW WILMINGTON, Pa., Nov. 9.—Co-ed representatives of the junior class at Westminster, winners of the inter-class championship for two years won their first basketball game of the season here Thursday afternoon when they subdued the senior co-ed team by a 23-13 score.

Two New Castle girls were pitted against each other as coaches of the teams. Ruth Lewis is a player-coach of the juniors while Mary Eva Craig is a player-coach of the senior sextet.

Marie Harry of New Bedford, was the outstanding star of the fray, contributing nine baskets and one foul to the junior total. Hazel Toepfer, New Castle girl, was leading scorer for the seniors, with four field goals and one foul.

The lineups:

The lineups:

Juniors 23		Seniors 13

Geneva Hopes To Defeat Allegheny

BEAVER FALLS, Pa., Nov. 9.—Geneva's Golden Tornado continued its heavy work yesterday by indulging in another long scrimmage session. Coach Flenniken is very anxious to chalk up a win over Allegheny on Monday in order to make amends for the Grove City defeat. Every day this week the Gold and White coaches have spent considerable time in ironing out the defective line play and the Geneva line will be expected to put up a much better game on Armistice Day than they did last Saturday.

When it comes to blocking and taking out men, the Covenanter backs did not look much better than their forward line, against the Crimson, and they too have been the objects of much criticism and comment. So blocking, charging, better use of the hands and leading of interference have been on the program throughout the week. Considerable time is being given also to blocking for punts, for the Gold and White does not want to lose any more ball games by having punts blocked behind their own goal line after they have admirably held their opponents for downs.

Just the same, a tank town looks good to the tourist who is running out of gas.

Bethany Gridders Meet Westminster For Sixth Struggle

Bisons Have Won Three Games, Lost One, And Tied One With U. P's.

(Special To The News)

NEW WILMINGTON, Pa., Nov. 9.—The meeting between Westminster and Bethany at Bethany tomorrow marks the sixth football game between the two institutions.

In 1909 Westminster and Bethany met at New Wilmington, with the United Presbyterians winning 35-0. In 1912 Bethany handed the United Presbyterians a 6-0 defeat at New Wilmington.

After a lapse of eight years, Bethany won by a 56-0 score at Wheeling, W. Va., in 1921. In 1925 Bethany made it three straight when the Westminster team was defeated by a 13-0 score at New Wilmington.

The last meeting between the two institutions was in 1926, when the Bisons and the United Presbyterians played to a 7-7 tie at Wellsburg, W. Va.

In the five games already played between the two rivals, Bethany has scored 82 points against 42 for Westminster; won three games, lost one and tied one.

Special Train To Greensburg Will Carry Band Boys

New Castle High Band To Be Taken To Greensburg On Special Train

When the New Castle High school special train to Greensburg pulls out of the Pennsylvania station at 9 o'clock on Saturday morning, the New Castle High School uniformed band will be aboard, in addition to the several hundred fans and students.

Band Master Paton has the band ready for the Greensburg trip. About 50 or so of the band boys will make the journey with the gridders.

The New Castle special is scheduled to arrive in Greensburg about 11:20 o'clock tomorrow morning. Following the game the special will leave Greensburg about 6:30 o'clock and should be back in New Castle before 9 o'clock.

The red and black football team will occupy one entire coach on the rear of the special train.

Thiel To Battle Canisius Eleven

Holleran Crew Hopes For Victory In Game At Buffalo On Saturday

(Special To The News)

GREENVILLE, Pa., Nov. 9.—Spurred on after holding the heavy Allegheny team to a 6-6 tie last Saturday, Tommy Holleran's Thiel Tom Cats are tuning up for the unbeaten Canisius college football team whom they meet at Buffalo this Saturday.

The game against Allegheny was replete with thrills and but for a break of the game Thiel might have won by a margin of one point. The Allegheny point after touchdown was blocked and a bad pass from center made it impossible for the Thiel kicker to have even half a chance.

The Thiel team will be crippled for the Canisius game as they have been all season. "Red" Linquist, varsity center, will be out of the game as will "Doc" Latimore, varsity guard. Linquist was hurt in the Westminster game three weeks ago. Latimore was crippled in the Allegheny game. Substitutions at these two posts augurs well for the second string material Holleran has at his command. At best it will be but a patched up vision of the team that held Pitt to 20 points and scored two touchdowns against the mighty Carnegie Tech team.

Duquesne Rests For Thiel Game

PITTSBURGH, Pa., Nov. 9. — Duquesne University of Pittsburgh, gets its first rest in seven weeks, when it lays off Saturday, preparatory to taking on Thiel at the Pitt Stadium a week later. In six tough starts the Dukes have come out on top in five and have bowed but once. All of the games were by small scores and each one was tough for the Bluffites. They were just beginning to show the results of the strain and the rest comes at a most opportune time.

In the Loyola and Geneva tilts, the ones immediately preceding the last, with Westminster, all the regulars were plainly suffering from weariness. The entire second string was started in the Titan tussle and played for one quarter. When the first stringers were injected into the fray they seemed to be tired out and weak. It was not till near the end of the game that they came to, with a rush, and scored two touchdowns in the closing minutes.

The most consoling feature of their performance was the strong running offense that they displayed, for the first time this year. Their passing attack has always been up to par but until this game they had showed little ability to gain on the ground, with the exception of the W. & J. game.

Four Local Boys At Duquesne

Photo by Pittsburgh Sun-Telegraph.

Reading Left to Right: Walt Sumner, Paul Fahey, Earl Turk, Bob Millison.

On the roster of the Duquesne University football team this year is found four New Castle boys. The former New Castle High football stars now with Coach Elmer Layden at Duquesne are Walter Sumner, end; Paul Fahey, lineman; Earl Turk, halfback; Bob Millison, tackle.

Fahey and Millison are sophomores and Sumner and Turk are freshmen. Turk is also president of the first year class. All of the local players are well liked by Coach Layden for their football experience and it would not be surprised if all four of them were varsity members next season.—International News Service Photo.

Battered Westminster Eleven Leaves For Bethany Struggle

Three U. P. Veterans Likely Not To Be Used In Saturday's Game

Bethany Will Outweigh Their Lighter Rivals; Good Game Expected

(Special To The News)

NEW WILMINGTON, Pa., Nov. 9.—A squad of 18 Westminster grid players left here this afternoon for Bethany, W. Va., where the Bethany College Bisons will be met tomorrow afternoon. The squad, managers, coaches, and assistants will stay at the George Washington Hotel, Washington, Pa., tonight, traveling on to Bethany in the morning.

Due to injuries, Forsha, end, will not be taken on the trip, and it is almost certain that Lauder, Havrilla, and Dible will not be in shape to be used. In all probability, William "Red" Crowell of Sharon, will start at the left end position in Forsha's place. It was Crowell who snared one of McQuiston's forwards in Bethany game two years ago to tie the score at seven-all. Perhaps the big fellow may do even better tomorrow.

No matter what men start on the United Presbyterian outfit, it is certain that they will be outweighed by the Bethany team and it is also certain that they will give the Bisons plenty of competition. The latent power of the United Presbyterian outfit is bound to show before the season is over, and there is no reason why it should not be exhibited at Bethany's expense.

The probable lineups for the game:

Westminster		Bethany
Crowell-Pipoly	L.E	Rush
Dombrowski	L.T	Rogers
Sweet	L.G	Hamill
Boone	C	Burwell
Fuller	R.G	Thompson
Furno (C)	R.T	A. Beehm
Tweedy	R.E	Beck
McQuiston	Q	Damschroder
Palmer	L.H	Roe
Ja'bell-Lauder	R.H	Immel
Havr'la-Michaels	F.B	Fiers

Big Leagues Will Open On April 16th

(International News Service)

NEW YORK, Nov. 9.—The National and American League baseball seasons will begin on April 16 next year and close on September 29, it is announced by John Heydler, president of the National League. This year the season started on April 11.

N. Y. STOCKS

NEW YORK, Nov. 9.—An overnight jump to 2¾ points in General Motors stock, for a block of 10,000 shares, was Wall street's first response today to the liberal "melon" announced by directors. The 2½ for 1 split-up was correctly forecasted, but the extra $2.50 a share for the present stock surprised the most optimistic follower of the stock game.

General Electric pushed up vigorously to the year's highest price, above 178, many of the bears bemoaning their fate as the stock whirled ahead of the price levels at which they had sold short a few weeks ago. G. E. is in line for a generous portion of the new electrical business of the industrial and railroad corporations, and other benefits to be fostered by the Hoover policies of friendliness to the utility interests.

Radio Corporation ran up 5 points to 238 on publication of its 9 months' earnings, showing balance for the stock of $7.53 a common share, against $2.68 a share in the 1927 period.

The rails, oils and coppers came in for good buying. Baltimore & Ohio and Chesapeake & Ohio were up a point each. The greater demand for oils was stimulated by the further advance in the price of Pennsylvania crude oil. Call money renewed at 6½ per cent.

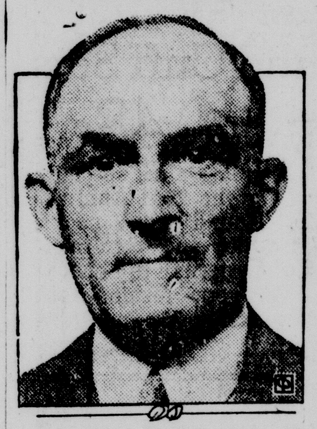
Fourth Charged



John Peter Kimball, above, of South Bend, Ind., is the fourth person who has been arrested on first degree murder charges in connection with the death of Mrs. Genevieve Stults, beauty parlor proprietor of South Bend. He is a brother of Mrs. Charles Reyher, of South Bend, who, with her husband and Harvey Smith, a private detective, also have been charged with the killing. Mrs. Stults' body was found buried in a lime pile at Elkhart, Oct. 15.

His Pen Is Stilled

No more will writings of Dr. Frank Crane, famous author, journalist and editor, inspire the great body of newspaper readers. He died in Nice, France, after a brief illness, according to cablegrams to relatives in United States.

Not every man will admit that his wife made him a success, but every wife will.
